To
The
Graduates

GRADUATION. How far distant it appeared: how soon it has come. In the words of *The Blue and White* you are now singing "Soon our college days will all be past, Duty bids us part from friends at last". It is traditional to regard graduation as a sharp break between the end of one phase of life and the commencement of another. In so far as graduation carries with it an inspiring sense of high achievement, the tradition is salutary. Yet in a vital sense it is misleading, for it is undesirable and indeed improper to bind together the years spent in the University and to deposit them with solemnity and finality in the archives of yesteryear. Your Alma Mater would have you believe that, as she is part of the past, the present and the future and preserves her essential nature amidst change and transformation, you will discover that your undergraduate years will constantly emerge from your past to shape your present and to form your future.

In the pages of *Torontonensis* you will find vivid reminders of the character and the purpose of your University. Her colleges, faculties and schools, each in its own way, are seeking within her orbit to reach a common goal. You will realize with deepening insight that there is no rivalry among students of laws, sciences and arts. With your rank of graduate you will march as comrades in the vanguard of a vast army whose objective is to set back the frontiers of darkness. As sons and daughters of the University you will, moreover, be challenged by filial responsibilities best measured by the variety and scope of the contributions made by her to the commonweal. Her past belongs to you. Her founders and builders cannot be dated; their deeds are timeless.

For their work continueth,
And their work continueth,
Broad and deep continueth,
Greater than their knowing!

From whose bays we borrow—
They that put aside To-day—
All the joys of their To-day—
And with toil of their To-day
Bought for us To-morrow!

GRADUATING CLASSES

UNIVERSITY COLLEGE

W. R. TAYLOR

M.A., PH.D., D.D.

ON behalf of my colleagues in University College and myself I take this opportunity, generously afforded me by the editors of *Torontonensis*, to express to you, the members of the graduating class, the congratulations of the College on your successful completion of the academic disciplines to which you have severally devoted yourselves at a cost of not a little labor, self-denial and outlay during these post-war years. As a sign of your attainments in the field of your endeavours you are to receive each the appropriate degree. The word "degree", as its derivation indicates, means a step in an ascending

series of stages or ranks; it is a point which, having been attained, is to be transcended. To move in an opposite direction is, of course, to be "de-graded". When one is graduated, therefore, there is an assumption that a process has begun which in some way is to be continued toward greater competence and higher excellence. This pilgrimage on which the genuine graduate sets forth by implication is not to be confused with advancement in social or monetary grades. For many persons the acquirement of stations of dignity and of emolument marks the end of the process of which we are here speaking.

In the Middle Ages when a student took his degree it marked the beginning of his life as a scholar. Nowadays for many a graduate it marks the finish of it. This is in part a matter of regret. It can readily be conceded that not all graduates will feel impelled to devote themselves to the minutiae of scholarship, but all will have a sense of vocation, a choice of some goal which subsumes their intellectual attainments through education. But brave hopes and resolutions at the time of graduation not infrequently come to nought; and the goal towards which they set out remains ever beyond reach because the peculiar temptation of the man of education is to give up the steady discipline of the pre-degree period of his career, and to fritter away the post-degree period in being busy here and there until his life is gone and nothing accomplished. He needs to keep in mind the apostolic word of St. Paul, "There is one thing I do, . . . I press on". None of us can ever master more than one small segment of the knowable or the doable things in our world. And none of us can ever hope to accomplish more than to push out somewhat the frontiers of that one segment. This need not depress our spirit since, as Aristotle says, the nature of a thing is its end—the whole is of necessity prior to its part. In seeing the perfection of the segment we glimpse the harmony and perfection of the whole. *Litterarum (rerum) quaesivit gloriam; videt Dei*. The important thing, therefore, is the unswerving and unslackening pursuit of the goal which we have set before us.

It is right to stress at this time of your graduation the importance of letting high purpose and masterful ideals govern the selection of your goal, since in these times a very heavy responsibility rests on the shoulders of the scholar and the man of education. One of the leaders in the councils of the United Nations said recently, "I have been impressed by two facts. The first is the relatively small amount of moral authority available at any given point of time and in connection with any particular problem. And, secondly, I have been impressed by the fact that moral authority, little as it may be, nevertheless has an enormous influence which seems quite disproportionate to the number of persons who reflect it. There is no doubt in my mind but that moral authority—moral force—is the only force that can accomplish great things in the world." Need I say that society can rightly expect in these times that a major portion of this indispensable moral authority will be supplied by university trained men and women. ♦

A MESSAGE FROM THE PERMANENT EXECUTIVE

WE, the graduating class of 4T9, are the largest and possibly the most heterogeneous group the college has ever seen. Three or four years ago we were brought together from a variety of places and positions, to find ourselves, with differences dissolved, as students of the first year. Since then we have had the opportunity of working together in all facets of university life.

Out of this mutual co-operation, there has been engendered in us something which is commonly called "college spirit". Many of us may think of college spirit in terms of general exuberant demonstration, football cheers and college songs. We should remember however, that these are merely its most superficial aspects, and that rightly conceived, the true college spirit will live on after graduation, and will help us to meet our future problems in practical experience.

There are some who believe that all we have acquired during these years is a collection of facts. But this idea ignores the most fundamental results of a "higher education". Facts are important, but the way in which we use them depends upon the attitude which we have developed while absorbing them. This attitude is found in tolerance, in co-operation, and in understanding. It is in every argument which strives to see the other side. This is the true college spirit, and it must be the basis of all our efforts in the future.

In conclusion, we would like to extend congratulations to all those who have achieved special distinction in both scholastic and extra-curricular activities. They have helped to build the tradition of University College, and have made these years memorable for every member of the class. ♣

VICTORIA COLLEGE

A College course, in retrospect, seems very brief. There has been so little time for us to teach, for you to learn, for all of us to get acquainted with each other. This is true in every college generation, but particularly so in these crowded post-war years during which you have been at the University. Now it is time for parting, but not for regrets or forgetting. These years were never intended to bring your education to completion. We have tried to open up for you some fields of human knowledge and discovery, but we have failed in our purpose if information, however complete and up-to-date, is all that we have given or you have acquired. Our aim was to make you think and to help you find some standards of judgment. We wanted to make you see that we are fellow-learners with you, and that your graduation day is just another commencement, your degree just another step in our journey together.

"*Abeunt studia in mores*" is our College motto. We believe that studies do pass over into character. But the Latin word *studia* has a wider connotation than its English derivative: it means the things that one is keen about, one's inclinations and enthusiasms. Undergraduate life abounds in opportunities for "*studia*" in this wider sense. If, in your college days, you have been keen about fair-play, loyalty, and tolerance; if you have zealously championed a cause you believed in, either with or against majority opinion; if you have earnestly kept your faith or struggled with your doubts; then your character as well as your mind has been developed in this College, and you will go out better equipped to fight life's battles, able to "meet with Triumph and Disaster, and treat those two imposters just the same." Our best wishes go with you. We shall follow your careers with interest and, we believe, with pride. ♣

VICTORIA UNIVERSITY 1836-1949

ON THE OLD ONTARIO STRAND

FOR the first fifty-six years of its history Victoria University was located in Cobourg. The Upper Canada Academy was opened in 1836 and on October 12 of the same year the Royal Charter was granted by King William IV. In 1841 the Charter was extended to include degree-conferring powers and the name was changed to

Victoria College. The first degree in Arts in Ontario was conferred by Victoria College in 1845 on Oliver Springer.

A Faculty of Medicine was added in 1854; a Faculty of Law in 1860, and a Faculty of Theology in 1871. A department of Science was organized, and Faraday Hall, opened in 1877, was the first building in the province erected and devoted exclusively to scientific work.

In 1884 the name was changed to Victoria University. Egerton Ryerson was responsible for securing the Royal Charter and he was the first Principal of Victoria College in 1841. In 1850 Samuel S. Nelles took charge of the College. Under his wise and far-sighted guidance the work of Victoria grew and expanded as additional faculties were added. Yet for all his foresight, it is doubtful if Principal Nelles could have imagined the proud place Victoria holds today, boasting a registration of 2,527 students, and federated with the Empire's largest University. The process of that federation and expansion we shall now trace.

FEDERATION WITH THE UNIVERSITY OF TORONTO

The federation of Victoria University with the University of Toronto became an established fact in 1892. Victoria was a pioneer in setting up the system of education by which the provincial university and three independent denominational universities and colleges have, in the course of time through their federation agreements, established the Faculty of Arts of the University of Toronto as it exists today.

Since 1892 Victoria University has conferred degrees in Divinity only and her power of conferring degrees in Arts, Medicine, Law and

Science has remained in abeyance. From 1892 to 1928 the organization of Victoria University consisted of two faculties, Arts and Divinity. The task of putting university federation into operation and of moving from Cobourg to Toronto was accomplished by Chancellor Nathanael Burwash, who had succeeded Dr. Nelles in 1887 and held office until 1913. His name is perpetuated in Burwash Hall.

During the difficult war years, and during the period of expansion in 1920-30 when there was a large increase in the number of students and when many new buildings were added, Chancellor R. P. Bowles guided the destinies of the institution.

GROWTH AND REORGANIZATION

Residence accommodation was provided in Cobourg; but for the first eleven years in Toronto, Victoria had no residence for students. The Annesley Hall Women's Residence was opened in 1903. The Birge-Carnegie Library was completed in 1910. Burwash Hall and the

Victoria College Men's Residences, the gift of Mr. Chester D. Massey, were opened in 1913.

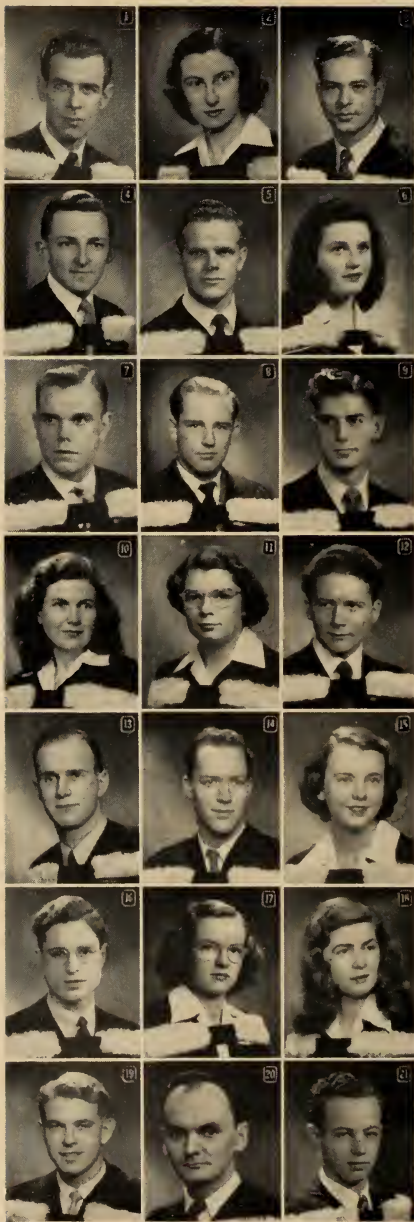

In 1926 Victoria University received Wymilwood Women Students' Union and Residence, the gift of Mrs. E. R. Wood and Lady Flavelle. Emmanuel College and the Emmanuel College Men's Residences were first occupied in 1931. Victoria University now has residence accommodation for about 250 women students and about 270 men students.

Church union in 1925 affected both the work and the organization of Victoria University. The Victoria University Act of 1928 provided for two colleges, Victoria College in Arts and Emmanuel College in Divinity.

In 1930 Dr. E. W. Wallace succeeded Chancellor Bowles. In February, 1941, Principal Walter T. Brown of Victoria College was appointed Chancellor and President of Victoria University, succeeding Dr. Wallace, who had resigned because of ill health.

In 1944 Dr. Brown's formal title was changed to President and Vice-Chancellor of Victoria University. Professor H. Bennett is Dean of Victoria College, and Rev. A. D. Matheson is Dean of Emmanuel College. The Chancellor of Victoria University is Major-General A. C. Spencer of London, Ontario. ♣

TRINITY COLLEGE

REV. R. S. K. SEELEY
M.A., D.D., LL.D.

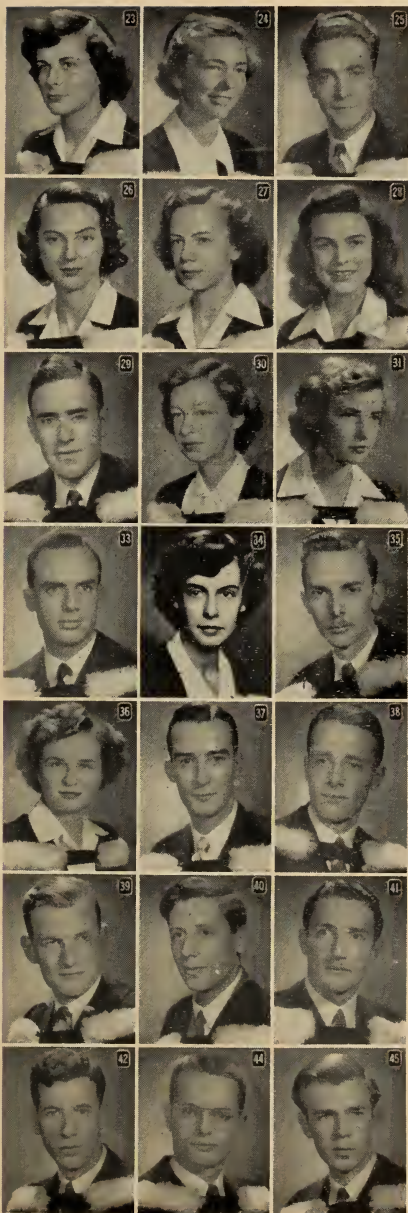

I N the name of Trinity College, I am privileged to extend to the graduating class our good wishes and high hopes for you all. Your Year will always hold a special place in the history of the College and the University, for you were the first of the veterans to enter the University. In some ways your days here have been abnormal ones, for the largeness of your numbers has deprived you of some of the individual contacts which are an essential part of University life. Yet there have been compensations in that your breadth of experience and maturity of judgment have given to the University an atmosphere of seriousness of purpose and earnest endeavour. Now that you are going out into the wider circles of society, we look to you to bring to a tired world some of those qualities of vigour and enthusiasm which have marked your days here. We hope that your life in the University has given to you qualities which will stand you in good stead. Honest scholarship should have trained you to bring to bear on all situations in life impartiality, integrity, moral courage and perspective. Your life within the College should have helped you to appreciate the interdependence of members of a society. Your many interests and activities should have given to you an appreciation of values and a desire for gracious living. The world sorely needs these qualities and gifts. But above all we hope that there has been kindled in you a discontent with mediocrity and an unwillingness to regard security as a final end. We look to your generation to see visions and to take risks in turning them into realities. Many of you have lived dangerously in the past, and we trust you will be willing to live dangerously in the future if by that means you can establish a society that lives for worthwhile ends.

We thank you for the contributions which you have made to our society here. We shall not easily forget them, for you have poured good things into the stream of our living. We welcome you to the larger society of our graduates, and shall continue to watch your careers with interest. Our message to you can be summed up in five words: "God give you good adventure." ♦

FEDERATED THEOLOGICAL COLLEGES

KNOX COLLEGE

REV. W. W. BRYDEN
M.A., D.D.

THE sufferings, discomforts, anxieties and perplexities of this world have not ceased with the cessation of active hostilities among the nations as had been hoped. Indeed, these have increased in variety, depth and seriousness. Individuals have largely lost their sense of true purposefulness, nations their sense of direction, and life itself suffers because of the absence of any stability. The acknowledged presuppositions of former ages have little meaning for many. Some think we are on the way to new and more adequate presuppositions. Meantime, we are busy protecting our "interests" with small regard for what is honourable, true and good.

This is the world into which you are about to enter as ministers of the Gospel of God in Jesus Christ. Your confidence will not be in yourselves, nor in eminent men, nor in the authority of revered institutions; not even in the much desired and necessary readjustments of social, political and economic conditions. Rather, that confidence must be in Him Who is the Source of life itself.

The Power of God which brings new life into this world and, therefore, peace and concord among men, comes from repentance, confession of sin, and prayer.

If you are to be genuine shepherds of the flocks, springs of water in desert places, true preachers of the Word of God, you must be men who by God's Grace have this knowledge and love of God wrought into your own souls. This is your trust as it is also your task. ♣

WYCLIFFE COLLEGE

REV. RAMSAY ARMITAGE
M.C., M.A., D.D.

*V*ERBUM DOMINI MANET is more than the motto of Wycliffe College. It is the charter and the challenge of our ministry.

When first said by Peter the Apostle, Silvanus his associate wrote it down in living Greek in St. Peter's first Epistle.

*Greek's a harp we love to hear
Latin is a trumpet, clear
Spanish rings like organ swells,
Italian rings its silver bells;
France with many a frolic mien
Tunes its sprightly violin;
Loud the German rolls its drums
When Russia with its clashing cymbal comes;
But Britain's sons may well rejoice,
For English—'tis the human voice.*

VERBUM DOMINI MANET is for us "a trumpet clear" calling us in our Ministry of the Word and the Sacraments, through human voice and personality to proclaim that the Word of the Lord endureth ever—the living lasting Word of God.

That is the word of the Gospel for you. ❀

EMMANUEL COLLEGE

REV. A. DAWSON MATHESON
M.A., B.D., D.D.

*I*N saying "au revoir" to the members of this class, small in number, but rich in variety of gifts, I should like to say in the first place that your teachers at Emmanuel have confidence in your sincerity of purpose.

In the several realms of theological study you have made a beginning. If you are to prove effective ministers you must continue to be students. Shallow waters do not carry rich cargoes: neither do they provide much light, heat or power. Only those who unceasingly search for treasure can have something of value to impart.

Above all let me commend you "to practise the presence of God". In the habitual fellowship of your Divine Master you will find direction for your journey, strength for your undertakings, an inward peace no matter what disturbing things are without, and a satisfaction of soul that some day will find its completion in hearing the words "Well done, thou good and faithful servant". We send you out with the prayer that you may prove to be strong in the power of the Spirit—good ministers of Jesus Christ.

Now, away to your tasks: and may God be with you. ❀

ST. MICHAEL'S COLLEGE

REV. FATHER L. J. BONDY
C.S.B., M.A., PH.D.

*I*N extending congratulations and best wishes to the members of the graduating class, I should like to remind you that, as you leave the University, you carry away a twofold responsibility. From you will be expected a twofold loyalty—to the University of Toronto and to St. Michael's College. These loyalties need not and, I believe, do not conflict, but rather strengthen each other. You hold a degree of which you may well be proud. But the degree is not everything. It is far from being the most important asset which has been offered you during your undergraduate years. At St. Michael's you have been brought into an educational plan which enshrines truth as the highest goal of intellectual endeavour; all truth; the truth of the laboratory, the truth of philosophical meditation and above all, and commanding all, the truth which lies beyond man's unaided efforts and which comes into his possession only through Divine Revelation and the priceless gift of supernatural faith. It would be rash to think that in three or four short years you could do more than begin to grasp the vast intellectual treasures that were placed before you. It is important that you consider your graduation from the University as a starting point rather than a goal; that you use every opportunity to continue the work you began here. The years will tell whether you are worthy of the sacrifices that have been made for you by your parents, your country and the members of the staff or if you are to be counted among "the indolent and the incompetent" to whom the President referred in his last report, and whose absence from the University would be a blessing to all concerned.

We of the staff shall watch your development with keen interest because, even if we wished, we could not be indifferent to your success or failure. In a world that has largely turned its back on truth, may you be unswerving searchers and defenders of truth, not only for your own personal enrichment, but to serve as a necessary leaven in a society that sorely needs to be brought back to sound principles of truth and justice. ❀

COMMERCE AND FINANCE

C. A. ASHLEY
B.COM., A.C.A.

LET us recall that dreary old lie of the political economists, the lie which has distressed social relations since money had a clear design to rule and to maintain its dominion; that never do we give of our best, except for profit. The compelling incentive to gain—that numbing falsity of the political fabulists.” Had Mr. H. M. Tomlinson taken the course you have taken, we hope he would have modified his statement. We, on our part, would confess that we have not always been careful to make clear that we believe it to be a lie, and we must accept some responsibility for the distressed social relations.

In spite of the grave disadvantages of overcrowded classrooms, overtaxed libraries, inadequate equipment and overworked staff, you have achieved gratifying results, and the department wishes you continued success in the future. Personal success, however, can be purchased at a high price to the community, and sometimes at far too high a price to another individual. The existence of civilization depends on our being able to trust in the integrity of most of our fellow men, and that integrity is being threatened on many sides. To struggle for its preservation is one of the tasks of a university, and we ask for your continued support, both by action and sympathy, now that you have graduated. ♦

FACULTY OF MUSIC

SIR ERNEST MacMILLAN
B.A., D.MUS., LL.D., D.LITT.

*F*OR the first time this year the graduating class in the Faculty of Music includes students who have completed the School Music course established in 1946. This course has proved a most popular one and the thorough training it affords in a specialized branch of music will, we confidently hope, ensure a very notable improvement in the standards of school music not only in Ontario but throughout the Dominion. The congratulations and good wishes of the Faculty are cordially extended to these students as well as to all those who have completed the requirements for the degree in the General Music course. May you gain all success in your profession and win additional fame for your Alma Mater. ♣

FACULTY OF MUSIC UNDERGRADUATE ASSOCIATION

IN the second year of its existence the Undergraduate Association of the Faculty of Music has been making steady forward strides. It was formed in the fall of 1947 by several aggressive members of the senior class who felt the need for a student organization. With these leaders as a nucleus, representatives were elected from each class, the Association was formed and a constitution drawn up. The policy of this organization has been to encourage student participation in University activities and to develop an awareness of the future of music in Canada and in our country's musicians.

Among the accomplishments of the Association can be listed the Canadian Composer lecture series with such men as Dr. Healey Willan and John Weinzwieg as lecturers; a concert held in Convocation Hall which grossed \$1100 for the benefit of the Red Feather drive; and membership in the Juilliard Chapter of the International Federation of Music Students. The latter is felt by the Association to be one of its most important contributions, for through it the voice of Canadian Music is heard outside our boundaries, and the exchange of student ideas is facilitated.

The membership of the Association is made up of all the resident students enrolled in the two courses of the Faculty of Music. One of these courses is designed for those who are interested in acquiring general musicianship; the other for those who plan to make school music their career. ♦

UNIVERSITY EXTENSION COURSES

W. J. DUNLOP
B.A., B.PAED., F.C.I., LL.D.

TO those of us who spend our time in administration it is a pleasure to see, once a year, a goodly number of our students graduating and receiving their degrees, diplomas, or certificates at the hands of the Chancellor and the President. This session there have been 532 men and women enrolled in the Pass Course for Teachers and approximately 40 of them graduate each year with the degree of Bachelor of Arts. That Course with that enrolment and those results, constitutes really a fifth Arts College within the University of Toronto. In the past 29 years approximately 850 teachers have obtained the B.A. degree by means of this Course and have gone on to take other professional courses and to earn promotion within their profession. The Pass Course for Teachers is, I freely admit, my chief interest in University Extension and I consider it a privilege to be able to congratulate the graduates of this year on the completion of a worthwhile Course.

Through the Courses in Occupational Therapy and in Physical Therapy many young women, hundreds of them, have found new and lucrative careers as well as opportunities to render an important public service in healing the sick and the handicapped. These two Courses are of three years' duration and a diploma is awarded on successful completion. There is also a two-year Course for those who wish to become teachers of Physical Therapy. To the young women who are graduating in 1949, we extend our heartiest felicitations.

The Certificate Course in Business is an evening Course with an enrolment of 150. It is a three-year Course and a certificate is awarded by the University to those who have been successful. I wish to congratulate those who are now receiving these certificates on being well equipped for business careers.

In order to comply with the wishes of the Government of Ontario and to assist in the tourist industry, now one of the most important industries in Canada, the University of Toronto conducts, through the Department of University Extension, a two-year Course in Institutional Management, a Course in which 140 men and women have been enrolled this session. As a rule, the graduates of this Course have little difficulty in obtaining important positions in summer hotels, tourist resorts, hotels and clubs. They are to be congratulated on being among the pioneers (for this is a new Course) in an interesting sphere of endeavour.

This year the Department of University Extension conducted many Evening Classes, many Business Courses, many Correspondence Courses and Short Courses, as well as the Summer Session in Arts and Pedagogy, and classes in Public Safety—all these with a total enrolment of over 14,000. ♦

INSTITUTIONAL MANAGEMENT

F. S. CORK
B.A.

*I*T is with considerable regret that I bid farewell to the Class of '49, for your departure marks the end of the predominantly veteran classes. In common with the two other post-war classes, you have been, due to your maturity, most anxious to take advantage of your opportunities at the University, both in your studies and in the other aspects of University life. You have extended participation in intramural sports, and have done well in each branch, and by so doing have helped in making our comparatively new Course known on the Campus.

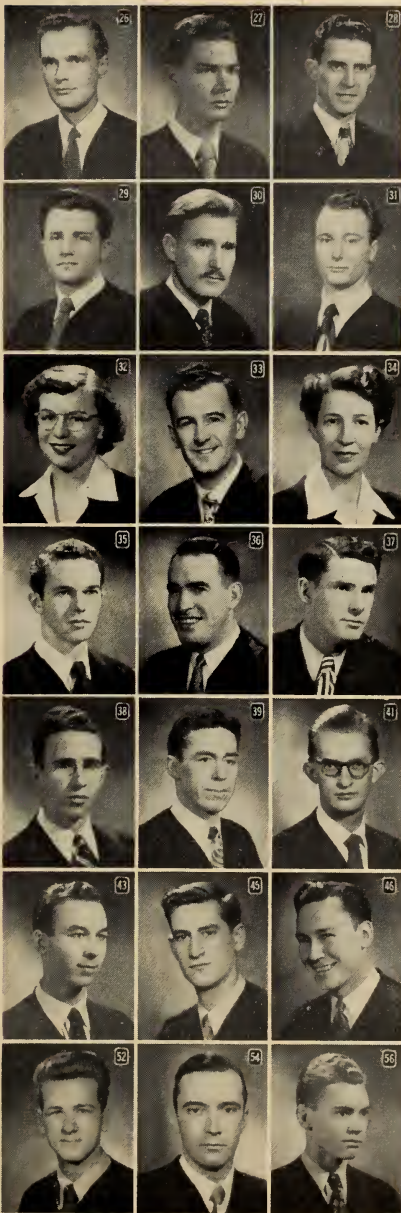

Now you are leaving to take your places in the world of business. Do not be surprised or dismayed should you find that employers expect you to commence lower in the seniority scale than you would wish, for your training will aid your progress. If you have acquired a taste for knowledge which will not be satisfied by your studies here, but which will urge you to continue your development by reading, by observation, and by experience, your instructors will feel well rewarded. In your business contacts, bear in mind that you will be representatives of the University and of the Institutional Management Course, and that the reception given to future graduates by potential institutional employers may well be determined by the reputation established by yourselves.

Every member of the staff would be happy to assist you at any time, and our best wishes go with you all. ♦

PHYSICAL THERAPY

MISS LILLIAN POLLARD

*T*HE graduates of 1949 mark a further stage in the development of Physical Therapy in Canada, as they are the first products of the newly organized three-year training programme. In 1946, the new training was inaugurated to allow time for the student to be prepared for the ever-expanding scope of her profession. To the staff and students, this longer training has been of great benefit, giving time for thought, the assimilation of ideas and a wider practical experience in hospitals and clinics. It is with pleasure and confidence, therefore, mingled with regret that a happy time has ended, that the staff wish them good-bye and good luck in the interesting profession that they have chosen.

Two of the group are taking posts in London, England, and two in the United States, reciprocity having now been achieved with both these countries. Of the teachers in Physical Therapy trained at this university, one is on the teaching staff at St. Thomas' Hospital, London, England, and another joins the teaching staff at McGill University, Montreal.

The shortage of Physical Therapists in Canada is still acute; and unfortunately, the number of entrants into the course is not large enough to fill the demand. This is due to a number of factors. The standard of training is high; and the prerequisites, which include Physics and Chemistry in senior matriculation, seem to be a stumbling block in many schools. Also, the course grants a Diploma, rather than a degree, which may seem a disadvantage to the girl leaving school, who is apt to overlook the fact that she is being prepared for a profession of great and increasing interests and scope, a profession where the right type of girl is badly needed, and which she can follow, not only in her own country, but almost anywhere in the world.

So we say good-bye to the first graduates of the three-year training, who go out into the world as pioneers of one of the most satisfactory careers a girl can follow. You will find much to do and much to learn, and we have every confidence that you will uphold the high standards which we have tried consistently to put before you.

Our good wishes and our hopes go with you. ❀

SCHOOL OF SOCIAL WORK

H. M. CASSIDY
B.A., PH.D.

THIS year a larger group of students will leave the School with B.S.W. or M.S.W. degrees to embark upon their professional careers in social work than in any year excepting 1948.

You will represent strong reinforcements for a hard-pressed field in which the tasks of ministering to human needs are overwhelming for the few who must carry on the work. Even with the addition of your group and of those from the other Canadian schools there will be far too few social workers to fill the ranks in Ontario and throughout Canada. But there will be still other reinforcements coming as succeeding groups join you in the field, and gradually we may build up the professional personnel which is required to operate our social services effectively.

We of the faculty wish you well as you graduate. You have brought vitality and enthusiasm to the School. We have been inspired by your devotion to your new profession and your eagerness to become proficient in it. The large number of you who are veterans has greatly strengthened the student body. Your cooperative, friendly spirit has been excellent. We are pleased to see you enter with enthusiasm upon your careers in social work; but as your friends we are sorry that we shall not be in such close contact with you in future.

This is not the time to offer you admonitions. But it may be appropriate to underline two points that are not new to you. The first is that your education for social work has only begun. Learning should be a continuous process throughout your careers—and the University can only offer you foundations of knowledge and skill upon which you must build.

The second point is that in social work one is engaged in a crusade as much as in a career. There are high objectives of human well-being which all of us must keep before us if we are going to be true to our chosen profession. May you, in your professional work, speed the day when there is a great measure of social justice within the Canadian democracy.

To all of you we say congratulations on the completion of your work in the School. And good fortune to you in the great work that lies ahead.❖

FACULTY OF DENTISTRY

ROY G. ELLIS

D.D.S., M.SC.(DENT.), F.D.S., R.C.S.(ENG.)

YOUR University graduation day is significant for you in that it marks the completion of the initial phase of your formal dental education. It also marks the commencement of that larger educational experience in the University of life. Whether the program you have followed for the past five years has provided you with the basis for the art of total living, both vocationally and culturally, remains to be seen. The measure of success and achievement which will be attributed to you in the future will depend on more than the fulfillment of limited professional responsibilities.

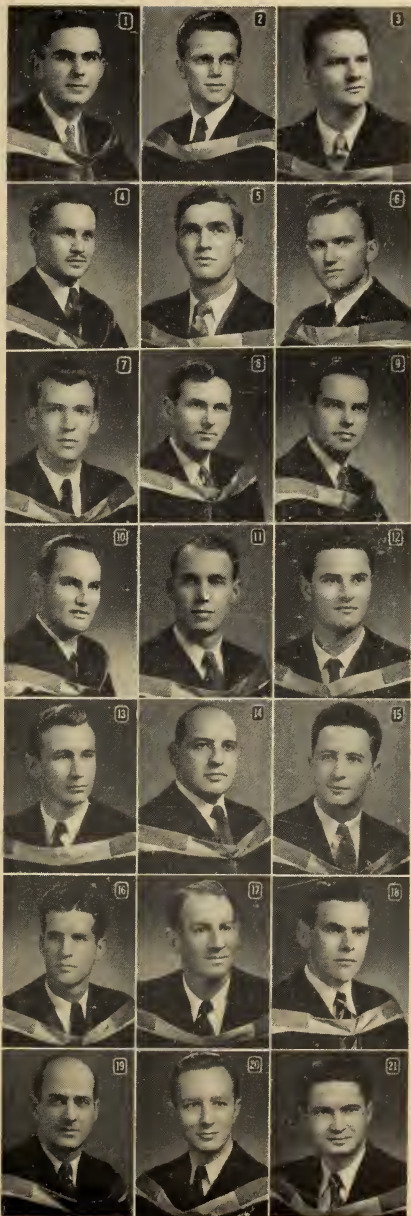

With the achievement of the right to practice your profession, you will accept an onerous responsibility, to give a health service to humanity, to the utmost of your capabilities. The importance of dentistry among the health services of the future will be partially dependent upon your contribution, whether you are in private practice, or accept an institutional appointment. When the dental profession as a whole practices "positive" dental health measures, dentistry will rise to full stature among the health services.

In this transitional period dental education attempts to maintain the technical and clinical developments of the past and at the same time prepare the graduates for the "new look" in the expanding concept of dental public health practice.

The preceding remarks are relevant to the fine group of young ladies who graduate from the dental nursing course. You go out to take your place alongside the dentist and support him in your daily tasks, whether they be routine office duties or the advancement of public health knowledge.

May the achievements of you all resound to honour you, your profession, and your "Alma Mater". ❀

FACULTY OF MEDICINE

J. A. MacFARLANE
O.B.E., B.A., M.B., F.R.C.S.

THE members of the Faculty of Medicine join with me in congratulations on the completion of your professional course, and in wishing you success and happiness in the practice of medicine. You will, by the time this volume appears, no doubt have listened to several speakers who are qualified to offer you advice and counsel. It is questionable whether advice so freely offered by teachers and friends who are in the older age bracket is of great value to youth. A man must learn to live his own life. It is hoped that association with teachers and friends during six years in university has done something to aid you in achieving a happy and useful life, in formulating a philosophy by which you can find satisfaction and contentment in a somewhat disordered world. There is in such a world an urgent need for leadership. Perhaps that might be said of any era in the world's history. We crave individual liberty, but in order to achieve it in a free nation we shall need selfless, wise and astute men and women who do not shirk responsibility and have a vision of the future. But to label such people as visionaries would be a mistake. They must be practical enough to have definite objectives and sufficiently tactful to understand and use the best methods for attaining such objectives. This is just as true in medicine as in any other field of human effort. The potter has moulded the clay; the design is complete; it only awaits the final test of "firing". Again, good luck and success. ❀

SCHOOL OF NURSING

MISS E. K. RUSSELL
B.A., B.PAED.

*F*OR four years you have been learning to accept your responsibilities as citizens of your University community; and we realize that this has been no mean task. Now graduation brings the reward of added responsibility as you pick up full citizenship in your broader professional life.

You know the troubled state of the world, and thus you are fully aware of the demands that lie ahead, but our belief is that, strong in courage and faith and hope, you can face the future with quiet and even happy confidence. We congratulate you on work well done, and offer warmest good wishes to every one of you. ☸

APPLIED SCIENCE AND ENGINEERING

C. R. YOUNG
B.A., SC., C.E., D. ENG.

YOUNG men and women about to leave the University to engage in the practical affairs of life cannot but speculate on what the years ahead hold for them. You, who are now at that parting of the ways, have long subjected yourselves to an academic discipline without which no satisfying progress could have been made. You have worked hard to equip yourselves for the lives that you hope to lead and the tasks that you expect to perform. The preparation is over and there now comes the test of its adequacy.

It is to be hoped that no one has assumed that his role in the years ahead will consist merely of the application of specialized techniques and the performance of certain acts of skill. If there be any who have so assumed, they will soon discover their error. Every learned profession demands of its practitioners a breadth of interest and a catholicity of spirit that are the recognized attributes of a well-rounded man.

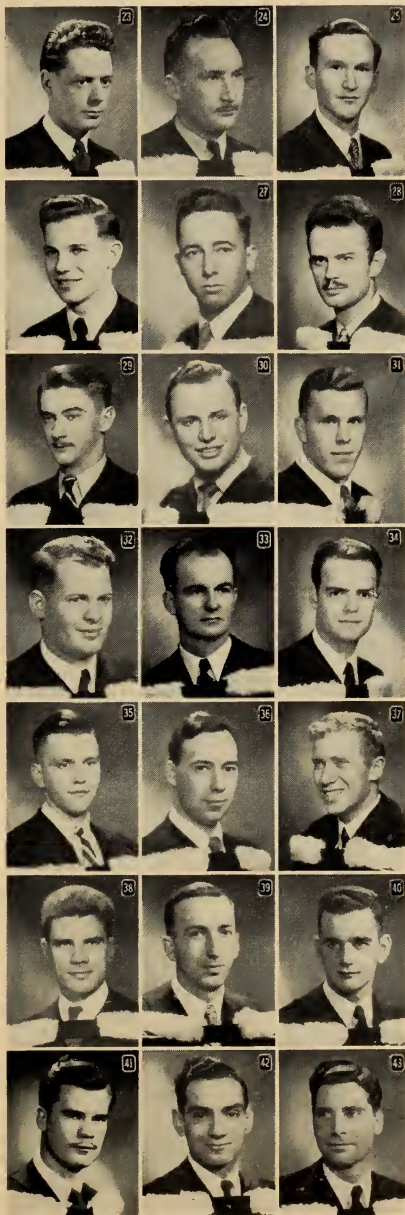

Technical skill alone will limit a young graduate to tasks that concern things rather than people. Equipped with it alone, his work will become more and more in the nature of scientific or technological routine pursued under the direction of others. The remedy lies in wider horizons rather than in further scientific intensification.

Those who by the fortunes of war now graduate in very large classes will need to remember that success and expanding influences will come not from association with masses or organizations but from the personal qualifications of each individual. The public is little impressed with any young professional man because he is a graduate of a particular institution or a member of this or that association. It rates him in accordance with his own merits and nothing else. In very truth the future of one now leaving college halls rests in his own hands. ♣

PHYSICAL AND HEALTH EDUCATION

E. STANLEY RYERSON
M.D., C.M.

I have great pleasure in extending my sincere felicitations to the Graduating Class of men and women in Physical and Health Education in 1949. Many of you became undergraduates in the University after serving in World War II, while others did so on attaining maturity at the completion of your secondary school education. Your associations with one another have been mutually beneficial by making you more efficient and wiser individuals and more sincere students. The nature of the course you have completed, the knowledge that you have acquired and the experiences you have had should enable you (1) to become valuable citizens wherever you happen to make your domicile; (2) to live healthier, longer and more satisfying lives; and (3) through your vocation to raise the standards of healthiness, not only of every man, woman and child individually in the community, but of their human inter-relationship with one another.

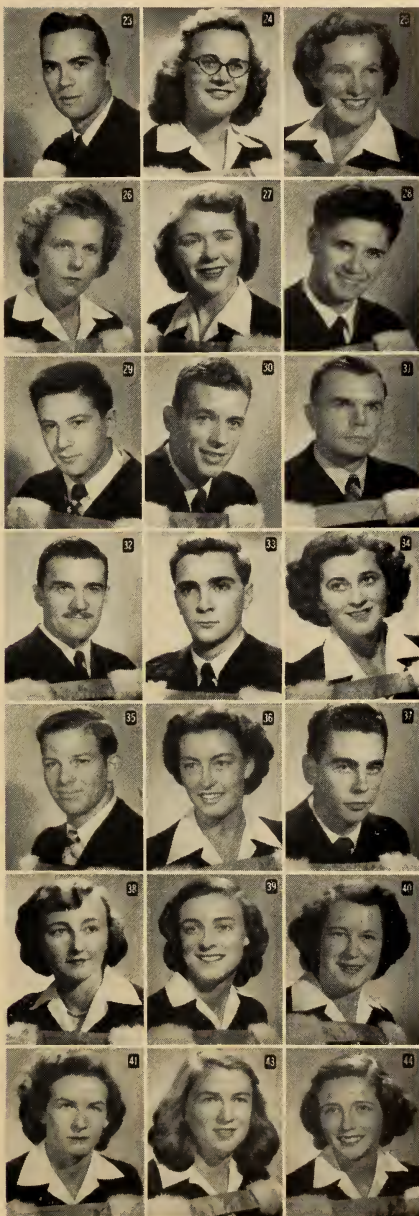

"Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. The enjoyment of the highest attainable standards of health is one of the fundamental rights of every human being without distinction of race, religion, political belief, economic or social condition," states the Constitution of the World Health Organization.

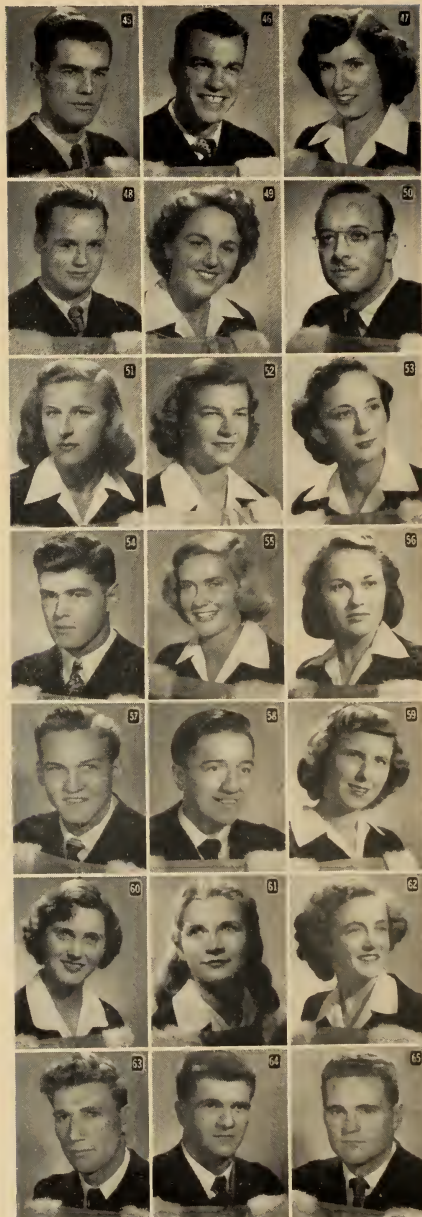

May each of you be successful in the life work you undertake and happy in your own personal future. ♣

THE student body of the School of Physical and Health Education witness with regret the retirement this year of our Dean, Dr. E. Stanley Ryerson. Dr. Ryerson has headed our course since its establishment as a part of the University of Toronto in 1941. He has provided for his students an example which illustrates better than mere words his positive concept of health. He has been ever willing to help and advise the students in a friendly manner.

The student body might be concerned regarding the future of the school, were it not for the fact that Dr. Ryerson's successor is Dr. H. A. Cates. He has for some years been our professor of Anatomy, and has presented his subject in a manner which is both informative and entertaining. We know that Dr. Cates likes P.H.E. We are sure that he will prove a worthy successor to Dr. Ryerson. ♦

MUCH to the surprise of many of our women, Miss Florence Somers, Assistant Professor of Physical Education is retiring this year. In 1933 she was with the Margaret Eaton School and recently with the School of Physical and Health Education.

Before coming to Toronto, Miss Somers held many prominent positions, and was considered as one of ten outstanding women in physical education in the United States. She is author of a book, *Principles of Women's Athletics*. Miss Somers will always be a favourite with the many of us who have had pleasant discussions with her and have appreciated her aid and guidance. One always feels that Miss Somers is sincere, and truly has her students' interests at heart. We hope she has enjoyed her association with us as much as we have enjoyed ours with her.

On behalf of all her students we would like to wish her every happiness and lots of successful gardening. ♦

ONTARIO COLLEGE OF PHARMACY

R. O. HURST
PHM.B.

*I*T is reasonable to presume that graduation brings a greater degree of happiness to a student than any other change in life's relationship. Graduation brings a relief from the inexorable time table and the constant state of anxious preparation.

On behalf of the faculty and all who have had the pleasure of working with you, I extend our warmest congratulations on your successful graduation. You are graduating at an opportune time, a time when the foundations necessary for future planning are being shaken to a greater degree of solidity than they have for the past ten years. There is evidence to-day of a greater faith in the future, in social security, in world progress, than ever before.

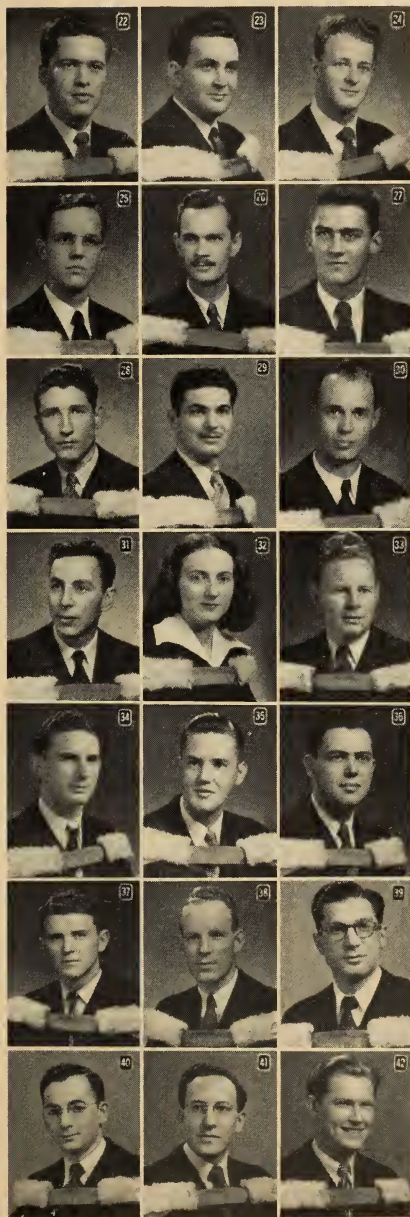

Someone has written that education is three dimensional; for he who is properly educated must have a well balanced, well rounded knowledge of things as they are, a happy familiarity of things as they were, and beyond all a dream of things as they might be. It is toward this last requisite that I direct your attention: dream of things as they might be. To dream, though, is not enough; we need those who will help to bring these dreams to fulfillment.

There is a growing forward movement in pharmaceutical education in Canada, and in Ontario in particular. We look to you, the graduating class, for all the help that you can give to bring about the new status in pharmacy which will enable it to keep its place with other health professions. ♦

FACULTY OF FORESTRY

J. W. B. SISAM
B.Sc., M.F.

GRADUATION of the class of 1949 marks the end of the first cycle of post-war forestry training, and from all indications it also marks the beginning of a period of rapid expansion in the forestry profession of this country. The class of 1949—the forty-first class to graduate from this Faculty—is more than double that of any previous year, and no doubt this situation holds true for the other Canadian forest schools. Soon it will no longer be possible to attribute lack of progress in forestry matters to the small number of technical foresters available.

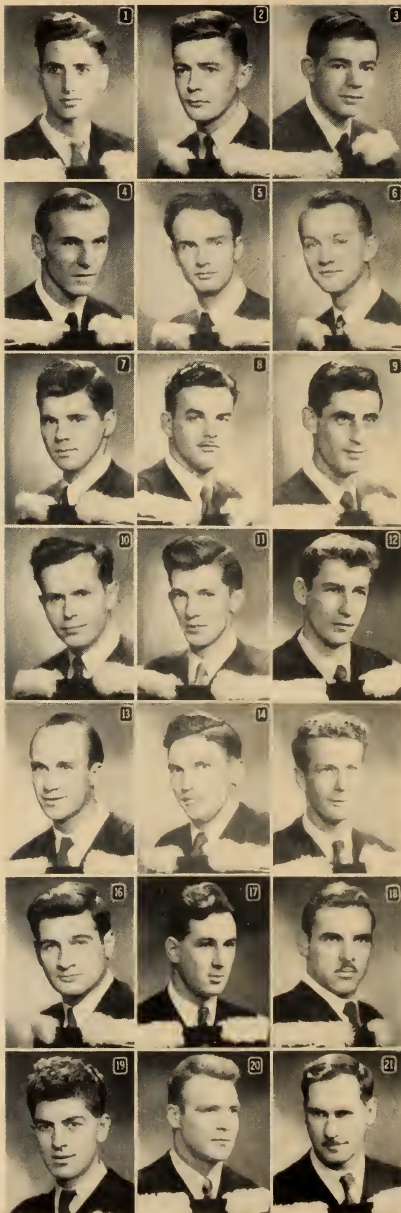

A question that will be of importance to you who are just now entering the profession is whether present conditions, both technical and economic, are such as will make the best use of this rapid increase in the number of graduate foresters.

In 1945, when you entered the Faculty, the industrial and research activities in this country were still largely influenced by war-time requirements, although considerable thought had already been given to plans for post-war reconstruction and the further development of our natural resources. While progress during the intervening four years may have seemed rather slow, a good deal has in fact been done towards putting these plans into effect, particularly in making surveys of existing conditions and in evaluating some of the more urgent problems.

With a ground work thus developed and a proper appreciation of the forestry requirements of the country by Government and the industries concerned, there should be ample opportunity for graduates to work in their chosen fields.

Such an opportunity when accepted involves certain responsibilities—a responsibility to the employer, to those employed and to one's self. There is also a responsibility to the future to assure the continuity of forest production for succeeding generations. These are not entirely individual responsibilities, however, but to some degree at least should be recognized and accepted by the profession as a whole. The future of forestry in this country will be determined in no small measure by the strength of the profession, and that in turn will be dependent not only on the initiative and ability of individuals, but on the close co-operation of those individuals and the development as it were of a professional consciousness.

Whatever are the opportunities and responsibilities that may come your way, may I assure you that you have the best wishes of the Faculty for your success. ♦

SCHOOL OF ARCHITECTURE

H. H. MADILL

O.B.E., V.D., B.A.SC., F.R.A.I.C.

THE members of the class of 1949 will be the first to graduate from the School of Architecture since its establishment by the Board of Governors of the University as a separate school as of July 1st, 1948. The earlier years of your course spent within the Faculty of Applied Science and Engineering will be remembered as a profitable and pleasant association with the other departments of that Faculty, but I am sure you will have an even greater pride in the fact that you are graduating from the newly formed School of Architecture.

The classes following 4T9 are much larger than your own and are composed of those who began their architectural training after World War II. The small numbers graduating from the Architectural Schools in Canada this session and the scarcity of experienced Architectural assistants should provide exceptional opportunities for the members of the graduating class. An architectural course contains a great deal of technical information, but I trust that acquiring this factual knowledge has been only a medium to the more important development of clear and independent thinking, and of initiating and assessing new ideas. With these in proper balance you will measure up to the responsibilities of these exceptional opportunities.

Your studies have taken place during a very interesting period of development in architectural design based on the function of the building and the materials and methods of construction determining the solution of the problem. On entering architectural practice, it may come as something of a shock to find that the client has little, if any, of the philosophy of modern architecture as you have studied it, and is unlikely to have the discrimination and understanding of an art that once went with the aristocratic patron. Under such circumstances patience and tact must be exercised and every assistance given to the efforts to educate the public through exhibitions, lectures, radio broadcasts and, above all, through the production of good examples of contemporary building.

The seeds that have been sown already in this country have not fallen on stony ground and improvement is evident in many architectural fields. It is as true of the excellent domestic work of British Columbia as it is of the factories, store fronts, schools and other buildings of eastern Canada, many of which we can point to with pride as the work of our own graduates.

You, therefore, go forth with the ground prepared for you, and I am confident you will carry on the good work with credit to yourselves and to the School. I wish you every success. ❀

DR. SMITH'S GRADUATOR
(PAT. PEND.)

STUDENT
GOVERNMENT

STUDENTS' ADMINISTRATIVE COUNCIL

NEVER in its history has the Students' Administrative Council participated in so many or so varied activities as in the year 1948-49. Every committee seemed to produce a flood of new and, usually, worthwhile ideas and the Council meetings extended far into the night in order to give consideration to the many matters requiring attention.

The Finance Commission had a particularly difficult year due to the many new responsibilities shouldered by the Council and the necessity of curtailing expenditures drastically. To their credit they came out on the right side of the ledger. The Publications Commission also had its problems and only by charging a small fee for the Handbook and *Torontonensis* and curtailing the size of *The Varsity* did they balance their budget. The Student Service Commissioner had to undertake varied new responsibilities, chief of which were the Red Feather campaign, the Fees Brief submitted to the Governors and to the Government, and the final establishment of a Student Book Exchange. Public Relations responsibilities included a visit from a party of Argentine students and an exchange of visits with the University of Montreal in cooperation with I.S.S.

Space permits only brief mention of the work of the many other committees. Courses relative to radio were again arranged by the Radio Committee and a new tape-recording machine was built. Ex-Service made representation to Ottawa on behalf of student veterans, Intercultural Affairs (previously the Anti-Discrimination Committee) sponsored Brotherhood Week, the War Memorial Union Committee made a survey of student opinion and had plans drawn up in line with this. Much progress has been made by this group. N.F.C.U.S. was active in many fields and prepared a brief on the cost of text-books which was submitted to the Board of Governors. The U.T.D.U. organized successful intercollegiate and Mock Parliament debates.

The Orchestra and Chorus, supported by the Music Committee, continued their fine work under a new conductor, Mr. Harold Neal. The All-Varsity Revue proved to be a great success in its first venture, as produced and directed by Messrs. Norm Jewison and Bob Cringan. One of the most active committees was the new Blue and White Society which organized the very successful "Home-Coming Week-end" in November, and even arranged to have Varsity beat Western. Pep Rallies, out-of-town trips, the popular "Roam Around" and Post-Hockey dances were only a few of their activities. The Blue and White Band, the Cheerleaders and the Pipe Band all received backing from the Blue and White.

The Council continued to carry on its various services for the benefit of the students. The invaluable Ex-Service Emergency Loan Fund saw many a veteran through a bad week or so before the next D.V.A. cheque was due, and the Undergraduate Loan Fund made it possible for a number of students to complete the year in peace of mind. Christmas, summer and part-time jobs were found for several thousand students through the Employment Bureau and the Housing Service found reasonably satisfactory accommodation for its hundreds of patrons.

Appreciation should be expressed to the Chairman, Dr. Ashmore, the President, Mr. Gordon Gwynne-Timothy and the Vice-President, Miss Lloyd, for their untiring efforts on behalf of the Council, and to Professors Pounder and Knox for the contribution they have made to Council deliberations.♣

MARION, DOROTHY, AND AUDREY, THE YOUNG LADIES WHO WORK SO HARD AND FAITHFULLY AT THE MAIN OFFICE. MARION AND DOROTHY WERE MARRIED TO TWO LUCKY MEN THIS YEAR, AND NOW MRS. BLACK AND MRS. HURLBUT, SO AUDRIE DICKIE MAY BE THE ONLY ONE REMAINING WITH THE COUNCIL NEXT YEAR.

STUDENTS' ADMINISTRATIVE COUNCIL HONOUR AWARDS 1948-49

The HONOUR AWARD of the Students' Administrative Council is granted to those students of the graduating year who have contributed most notably to the undergraduate life of the University as a whole. The recipients are determined by an Honour Award Committee on the basis of nominations received from the various colleges and faculties. The award is symbolized by a gold key and certificate which is presented by the President of the University following the Convocation of each Faculty.

N.F.C.U.S.

UNDER the chairmanship of a Council, members of this group of students supported by the general student body, carry out the work of the National Federation of Canadian University Students on this campus, and advise the S.A.C. on all N.F.C.U.S. matters.

The National Federation of Canadian University Students is the Canadian Students' Union. All students are members of the Federation, which is composed of the Students' Councils in nineteen universities across Canada. It aims to promote in every way possible a better understanding among all Canadian university students, and a greater degree of co-operation among all Canadian universities for the effective promotion of student interests; and to provide a means for developing international relationships with student groups in other countries.

At present the N.F.C.U.S. is working to lower the costs of text books; maintain student fees at the present level; provide means of cheap travel abroad for students through the establishment of a travel bureau; reduce the costs of advertising to Students' Councils; and establish means of summer home exchanges for students, in order to give them a greater opportunity to see other parts of Canada.

The Federation is working to improve student life and living conditions in the cultural, recreational, educational and economic fields on all camps. ♦

THE U.C. LITERARY AND ATHLETIC SOCIETY

IN giving a historical sketch of the University College Literary and Athletic Society for 1948-49, we find the activities of this year have been so numerous that only a few of the more important ones can be mentioned.

The Frosh-Freshie Fun-Fest was held for the purpose of inaugurating the freshmen into the life of the college, with numerous clubs being present to explain their activities. The yearly Soph-Frosh Banquet was again held at the Royal York Hotel with about 460 present. To round out the social affairs of the year, there were the annual University College Follies, and Arts Ball, which were great successes. For the first time the third year had a joint dance with Victoria College which was a great success, and we may hope this will be an annual affair.

On the literary side there have been nine parliaments, and the Robinette Debates were held with twenty-six entrants under the capable leadership of J. P. Cairns. Constitutional amendments this year have included, the athletic injury fund, skiing award, U.C. special athletic awards, honorary membership, and the responsibility of the N.F.C.U.S. representative.

On the whole, the most important trend was in the direction of amalgamation of the University College Literary and Athletic Society with the W.U.A. A plebiscite was held to find out the views of the student body, and the result was four to one in favour of amalgamation. A committee has been appointed to prepare a constitution for the amalgamated society. ♣

SECOND ROW: JOYCE SMALE, *Publicity Director*; ANN BRADSHAW, *Physical and Health Education Representative*; LILLIAN LAAKSO, *Athletic Director*; JANE HILL, *Secretary*; JANE RATZ, *Treasurer*; MARILYN CRAIG, *First Year President*; PAULA ZUMSTEIN, *Second Year President*; NANCY LESEUER, *N.F.C.U.S. Representative*.
 FIRST ROW: MRS. WOODBURY, *Honorary President*; MARY RITCHIE, *Social Director*; PEG MCKELVEY, *Fourth Year President*; MARY INNIS, *President*; NORA BEACOCK, *Literary Director*; MISS FERGUSON, *Dean of Women*; JANE HAZARD, *S.A.C. Representative*; GRETCHEN RATZ, *Third Year President*.

U.C. WOMEN'S UNDERGRADUATE ASSOCIATION

"THE object of the Women's Undergraduate Association is to serve as the official organization of the women undergraduates of University College, to unify and direct all their interests and activities, and to cooperate with the University College Literary and Athletic Society in all activities participated in by both the men and women of the College." Under this dry, constitutional exterior throbs the pulse of "college life": the weekly W.U.A. council meetings and joint executive meetings which produce the plans, the periodic open meetings which approve or reject these plans, and the energy which translates these plans into action.

The year begins with the Freshie House Party which puts the freshies in their place and makes that place a comfortable one. Then traditional events and bright new ideas whirl the University College woman into functions which spiral to a nostalgic close with the Grad Banquet.

Women graduating this year will remember the hectic bedlam of that moment when Santa Claus began to give out the gifts at the party for the University Settlement children; the winning point in an intercollegiate contest, the Follies opening night, preceded by long hours of kicking, sewing, or singing; the way their knees shook in their first Portia Debate, the coming home double from a Red and White Night, or any one of those many moments when they knew just what "college life" meant. And they will remember the Players' Guild, the Music Club, the Undergrad, the Modern Letters Club, and the Arts Ball long after the organization behind the scenes has faded into limbo. ♣

VICTORIA COLLEGE PERMANENT EXECUTIVE

AN important link between scattered Vic classmen and the harassed Alumni Association is the Victoria College Permanent Executive. This year's executive consists of Doug Maxwell, this year's Bob Director and a member of the Social Committee; Heather McCallum, a member of the Residence Government, *Torontonensis*, and class executives; Doug Love, the S.A.C. representative and the Blue and White Society member; Marg Day who was active in the Women's athletics; and Jim Nethercott, this year's Social Director of the V.C.U. and the guiding light on the organizational end of Vic's social life for the past four years. This year's Permanent Executive holds promise of being an efficient and interested group to help 4T9ers maintain their contacts with each other. ❀

VICTORIA COLLEGE STICK WINNERS

THE holders of the College Sticks are elected at the end of their third year, as the outstanding Vic undergraduates in athletic, social and academic spheres. The four Stick winners receive gold Vic pins and cherish for a year historic canes inscribed with the names of previous winners. Shirley Griffith, active on the V.C.U. as Secretary last year, on Acta, and with innumerable posters and sets for Vic affairs to her credit, and George Speers, President of the V.C.F. and Varsity track star are the two Senior Stick holders. Belva Barker, capable President of the Women's Athletics, and Harry Boyd, of Varsity hockey fame, and coach of several Vic women's softball teams, hold the Athletic Sticks. ❀

VICTORIA COLLEGE UNION

"OFTEN a retrospect delights the mind," wrote Dante; so recollection of the activities of the first full year of the Victoria College Union Assembly might prove worth while. Although it might not properly be described as "delightful", at least the experiment was encouraging.

Probably the greatest task achieved, and the one which met with the greatest measure of success, was that of making the assembly form of student government prove itself effective and efficient. Formerly, for student legislation, the open-meeting type of government had been employed. This seemed inadequate in dealing with most questions. The present Assembly, with society executives represented, in addition to members elected at large from the individual classes, the numbers chosen in favour of the lower years, affords equitable representation from a cross-section of the student body.

The Assembly made progress this year. Intelligent opinion and discussion on important college and all-university questions could never have been achieved, with the assurance of a considered opinion of the students, except by the seventy-four man Assembly. And the many-sided life of the college could never have been brought into focus except under this parliamentary form of student administration.

It has not all been successful, but the principle has succeeded. A strong, simple foundation for future construction of student administration has been laid. ♣

THE TRINITY COLLEGE BOARD OF STEWARDS

THE Board of Stewards has been investigated this year by a special committee as to "function and representativeness". The College Meeting is the supreme body of student government in the College—the Board as the Executive Committee of this body has the special function of harmonizing the various student groups. As the Board is too large for effective discussion, a move is under way to reduce the membership from nineteen to fourteen.

The Board has always done much of its work by sub-committees—including Food, House, Social and Art. As a result of the University Christian Mission, a Chapel Committee and a Missionary Committee have been established to effect more undergraduate participation in chapel services. The Disciplinary activities of the Board have assumed more prominence this year by enforcing college and student rules formulated by student opinion.

More College Meetings have been held this year at noon in order that more non-residents might attend. The meetings have been in the nature of a forum in which the individual student could offer complaints and suggestions.

THE ACTIVITIES OF THE ST. MICHAEL'S STUDENTS' COUNCIL

THE importance of extra-curricular activities in college life cannot be underestimated, and it has been the endeavour of St. Michael's College during the session '48-'49, by taking its cue and incentive from the S.A.C., to strike the happy balance between academic and extra-curricular activities.

The session was fittingly consecrated by the participation of the entire student body in the St. Michael's Day Mass in St. Basil's Church. Daily rosary in the chapel was inaugurated early in the year.

Gratifying, in this day of confusion and need, was the whole-hearted response to the Christmas Carnival, which provided needy European students with clothing. The annual At-Home climaxed the year's activities, which ranged from the freshman reception to tea dances; year parties to Saturday night dances. The various societies—Thomistic, Music and Drama, Senate Club, French Club, Oratorical and the Co-op Tuck Shop enjoyed the unprecedented interest of the students. In particular, Music and Drama has achieved an enviable reputation on the campus, and the Senate Club has definitely established St. Michael's as a leader in debating.

And proud we are of our athletes, who have played well this year. Outstanding teams from the three colleges competed in all University athletics. The triumph of the season was the football victory which brought the Mulock Cup to St. Michael's.

The annual Retreat, a three-day period in which the student devotes himself to the consideration of the spiritual side of life, provided the incentive for much serious thought and re-adjustment. ♦

THE COMMERCE CLUB

SINCE its inception twenty-eight years ago, the course in Commerce and Finance has recognized the Commerce Club as its official undergraduate organization. Again this year Professor Ashley was elected honorary president of the club as a small token of the high esteem in which he is held by the students in his course.

One of the main purposes of the club is to bring into closer contact undergraduates of the course and members of the business world. This is partially achieved through informal meetings of the club featuring addresses by prominent business and professional men dealing with current economic and general business topics. As the membership exceeded two hundred this year, difficulties in finding suitable accommodations for these meetings were encountered. In spite of these difficulties, several smokers were held.

Nor were the extra-curricular activities of the club neglected. Commerce and Finance pins and Canada Year Books were sold, and another series of golf, tennis, ping-pong and bridge tournaments was held. The book exchange, another feature carried on from previous years, approached last year's record sales volume.

The third annual Finance Frolic was successfully held at the Club Kingsway, which was transformed for the night into a glittering array of money bags and gold trimmings.

The opportunity to welcome Commerce graduates back to the campus on Home-Coming Week-end was greeted by the club with enthusiasm. This enthusiasm was reflected in a Commerce Float, outstanding among those of the colleges and faculties.

A subsidiary of the *Commerce Journal*, a monthly news letter, was an innovation this year, to publicize and provide for greater student contact and participation in club activities. ♣

THE WYCLIFFE COLLEGE LITERARY SOCIETY

HIS Majesty's Government has placed a new "In-Out" board in the Rotunda of Wycliffe College. Unfortunately it does not refer to political parties but to individual students, as a loyal opposition is lacking. The only threat to the Radical-Conservatives' reign this year came from within the party by a member who was placidated with logic and the position of Deputy Prime Minister. Thus, with only the voice of one true naval type in opposition, Prime Minister Wheeler steered his party, riding over difficulties as if they were other ships that pass in the night.

The Governor-General judiciously carried out his duties, and amendments to the constitution placed in his hands, as Chairman of the Discipline Committee, the power to fine thrice offending students.

There was remarkable co-operation between the Literary and Athletic Association and we thank members of the house who enabled the informal social evenings to reach a new standard in enjoyment. ♦

THE EMMANUEL COLLEGE STUDENTS' SOCIETY

IN the fall of 1946 twelve candidates for the ministry entered Emmanuel College. The friendly guidance of the professors, the fellowship of morning worship in the chapel and the many diverse activities of student life in Emmanuel soon drew them together and enriched each man. This spring the class of '49 disbands, and twelve ambassadors for Christ go out into the world.

Due to interrupted Arts courses in the war years this class became the smallest in the history of the College. But that is not its only claim to distinction. There was the Shakespearian orator with his evangelical zeal; there was the insistent "voice" subtly diverting the professors with, "This may not be exactly on the point, but . . ."; there was . . . But why try to explain? The class of '49 was quite unique!

"Forty-niners" will proudly remind other members of the Emmanuel family that it was in their day that parliamentary procedure was introduced into E.C.S.S. meetings. Now members can interrupt with "Point of order!"—which leads to disorder. While in inter-faculty athletics the Emmanuel teams were not always victorious, the boys could count on Dr. Cousland to cheer them on to a good game.

As the graduates of '49 look wistfully over the past three years, they are humbly grateful to those who have made Emmanuel all that it is. As they look to the future they are conscious that their sufficiency is of Him who called them to the tasks that lie ahead. ❀

INSTITUTIONAL MANAGEMENT UNDERGRADUATE SOCIETY

THE combined efforts of the two years provided a well-rounded programme of activities of the Undergraduate Society during the past year. Under the able direction of Stew Orr the Athletic activities were expanded considerably this year. Institutional Management was well represented and made a very creditable showing in lacrosse, hockey, swimming and basketball. The Social Committee under Stew Guthrie sponsored several very successful events which culminated in the annual dinner-dance at the Royal York. The Class of 5T0 were extremely active in arranging class dances, splash parties and a bowling league. The Publicity Committee with the guidance of Jan Montgomery did a very excellent job in cooperation with the Hotel Association at the Convention. Tom Mayne guided the Placement Committee through a well-organized programme during the year. Sandy Fulton doggedly hounded various people in an effort to meet *Torontonensis* deadlines, and capably guarded the finances of the Society. Earl Fraser devoted much time and energy to the successful publication of IMUSO News.

The executive appreciated the cooperation and help received from the faculty and staff of Institutional Management and felt that, while the Undergraduate Society has been considerably strengthened this year, there remains much to be done in future years. ♣

STUDENT AFFAIRS IN PHYSICAL THERAPY

OUR Undergraduate Association has been the means of introducing all three years of the course to one another. The meetings are usually rounded off with supper and bridge, thus terminating in an informal social gathering.

The Undergraduate Association buys books for the library and has donated substantial sums of money to the Toronto General Hospital. It often helps out with expenditures in social functions and athletics. In 1948 the first athletic banquet was held, as a result of our success in interfaculty sports, and we are hoping to continue it as an annual affair. In all, we have become more and more active in the last few years in our effort to attain greater recognition on the campus. ♣

THE STUDENT EXECUTIVE OF OCCUPATIONAL THERAPY

THREE years ago, timid freshies wended their way to the newly-erected "huts" on Devonshire Place. The "freshies" were us—remember? The huts looked as strange and out-of-place in their new surroundings of dignified learning as we felt.

As the first class in the new three year course, we feel we have pioneered in a new phase of the Occupational Therapy field. Studies have taken us to all corners of the campus and beyond—to Central Tech., to the Ryerson Institute as the first group to learn printing and shopwork, and to hospitals in all parts of the city. From these far-flung corners we have returned to our huts, which no longer appear strange. The comfortable Common Room has proven a place in which to relax, while talking about the latest dance or exam, drinking coke, playing bridge, cooking lunch, or listening to recorded music.

The year has been filled with social "dos" and participation in campus activity, including sports, dramatics, choral groups, campus shows, and religious organizations. The informal dances held in the huts, the tea dance after the McGill game, the year Christmas party, and the tea for our graduates were most successful.

The years have been happy and full; we have made good friends, and learned a great deal. To those coming behind us, we wish continued activity and interest within and without their "huts". To our fellow classmates who will scatter across the country—to the professional field and to matrimony, we wish health, happiness, success and Godspeed.♣

SOCIAL WORK STUDENT ASSOCIATION

THE Student Association of the School of Social Work acts as a liaison between staff and students, as a voice of student opinion and as an organization conducting several different student activities.

This year Professor Morgan acted as faculty advisor to the Activities' Committee in the Wednesday Lecture Series in which many prominent Canadians delivered interesting and informative addresses. Activities Chairman Mel Gamble and his committee also provided groups in radio and music, and informal noon hour "beef sessions." Field trips to various institutions and agencies were also arranged.

Under the chairmanship of Harold Rosenthal the Curriculum Committee prepared a questionnaire to be circulated to all students to ascertain their opinions of the course and their suggestions for improvements for the coming year.

One of the most important committees in the Association is the Personnel Standards Committee under the chairmanship of Dick MacDonald. This committee prepares and submits to all executive of agencies in the field a brief containing the basic minimum salaries required for first and second year graduate students as well as other professional working standards.

Social Activities began with a very successful Island Party. This was followed by a fall party, a Christmas Carol party and a February "Group Work Fling".

Work was also done through the Students' Administrative Council and representations on other campus committees, thus showing the ever-increasing part played by the social work students not only in their own association but in all student activities and in the whole social work field. ♣

THE DENTAL STUDENTS' PARLIAMENT

THE graduating class this year will be the first of the post war curriculum. A condition of overcrowding was under the capable supervision of Dean Ellis and staff, who are to be highly commended for their superhuman efforts in effecting a well-balanced time-table for a faculty of over five hundred students.

The Students' Parliament, composed of some thirteen representatives of all the years, clenched its teeth and bit into a year of great activity. The social highlights were the successful Soph-Frosh Banquedance, the At-home, and Dentantics. In the field of sports, Dentistry was well represented, with its teams participating enthusiastically in most campus interfaculty competitions. The Parliament operated efficiently on a sound financial programme. The students were assisted in the clinical departments by an eager, well-trained class of Dental Nurses.

And so we leave the Dental College with the feeling that the future will be most successful, after having received a thorough background in the science of dentistry.♣

THE MEDICAL SOCIETY

THE year has been a busy one for the Medical Society. In September, a Freshmen's Reception at the Women's Union officially welcomed Meds 5T4. In October, the Concert Hall at the Royal York Hotel was the scene of the annual Meds At-Home, where Pinky, the Medical Society mascot, and Dr. Jack Finlay's new Medical song were introduced. Daffydil Nite showed that it was still the best college show on the campus. In February, a certain Femury Gang element managed to walk off with the infamous Skule cannon, and the Society Vice-President was "kidnapped" in return. The Meds Soph-Frosh was held as usual at Hart House, and the "Ballot Bounce", held after the elections at the Club Top Hat, assured the Society of a strong Executive for the coming year.

Active interest was taken by Medical Society members in such campus-wide activities as N.F.C.U.S., I.S.S., the proposed Student's Union, and the Inter-Cultural Affairs Committee of the S.A.C.

Our thanks to the Honorary members of our Executive Dean MacFarlane, and Dr. J. C. B. Grant, for their ever-present interest in Society affairs. ♦

THE MEDICAL WOMEN'S UNDERGRADUATE ASSOCIATION

THE Medical Women's Undergraduate Association, of which all medical women undergraduates are members, completed another very successful year under the splendid leadership of Lois Lloyd. Highlights of the year were the banquet in October, at which Dean MacFarlane gave an inspiring address of welcome to the new members; the weiner roast in the fall term; and Dr. Kerr's wonderful Christmas Party. The women of the graduating class were entertained at a dinner in their honour given by Dr. Ellen Blatchford, who has given generously of her time and effort in the planning of the various activities.

The medical women have participated in the activities of the Medical Society and its affiliated groups, such as Daffydil, Medical Arts and Letters Club, and A.O.A. It should also be mentioned that Pinky, the Meds' elephant mascot, which made his debut at the Meds' At-Home was the unique creation of Helen Davies and several members of the M.W.U.A.

Associated with the M.W.U.A. is the Medical Women's Athletic Association. A large percentage of the women has been very active in the various intramural sports including baseball, tennis, basketball, hockey, and volleyball. Our baseball team was League winner and the basketball team missed the Finals in Hart House by one basket.

Our Athletic Banquet, so successfully inaugurated last year, has now become an established annual event. At this function last year, nine Medical M's and four Pre-Medical Bars were awarded. We are looking forward to the continued success of all our teams, but we also realize that athletics are more important for the exercise and companionship they afford than the laurels won. ♣

ALTHOUGH branded as a miscellaneous nonentity, being classed in the "All Others" group at the football wickets and drama festival, the Undergraduate association of the School of Nursing continues to hold its own in the University. Unlike most campus organizations, this Association keeps active for all but one month of the year. Backed by its mere 72 members, the association enters interfaculty sports and drama competitions, organizes two annual dances, plans concerts and evening speakers, and campaigns for social service funds. The Undergraduate Association is doing a tremendous job for one of the smallest schools in the University. ♣

S.P.S. PERMANENT EXECUTIVE

THE Class of 4T9 Permanent Executive has been elected to organize this year's graduating class into a strong part of the Engineering Alumni Association and the University of Toronto Alumni Federation.

The class is the largest ever to leave the well-trodden floors of the "Little Red Skulehouse"; it is 1131 strong. There is no doubt that this strength will make the class known far and wide, as it has made it known at the University. The Executive hopes that every "4T9'er" will join his Engineering Alumni Association and maintain the fellowship engendered throughout undergraduate days.

Pamphlets have been distributed to all 4T9'ers outlining the advantages of joining and the aims of the Association. Also they contain a list of names and permanent addresses of the executive.

In our years at S.P.S., there was staunch rivalry between departments, as well as between faculties; now our purpose is to take pride in, and sustain loyalty to the Class of 4T9, "good old Skule", and above all, to our Alma Mater. ♣

ENGINEERING SOCIETY

ON the graduation of some 1100 engineering students this year, the Faculty of Applied Science and Engineering will see its largest graduating class in history and probably the largest for some time to come. Although this tremendous number of students will be leaving "The Little Red Schoolhouse" the Toronto campus will still be graced with as many, if not more, Engineers than in 1948-49, because Ajax is retiring from service this spring. We pay tribute to Ajax, its entire staff organization, and its Engineering Society for brightening up what otherwise might have been a very dull place.

This year, since it is Ajax's last, it is especially gratifying to see that the co-ordination between the Engineering Society, Ajax, and the Engineering Society, Toronto, due to a mutual respect, has never been so great.

The school year 1948-49, besides being important for the above reasons, stands out particularly as the year in which School's biggest and best School Dinner, School At-Home, School Nite, Grad Ball, and Year Dances were held. The Engineering Society pays tribute to Pat Suddick, Jim Bester, and their committees, for a very socially successful year. ♦

ENGINEERING SOCIETY, AJAX DIVISION

IT is only when we pause in retrospect that we realize the tempo of life at Ajax. It hardly seems possible that this last term is drawing to a final close. Macbeth once spoke of mundane life . . . "creeps on this petty pace from day to day to the last syllable of recorded time". This thought is certainly foreign to the embryo engineer! Only a thirty-six hour day would give him the opportunity to satisfactorily venture beyond the slide-rule. However, though our time is limited, we hope that these words will give a picture of extra-curricular life.

That the last chapter of the Ajax story is a memorable one is a tribute to you, the members of the Society, and to the Faculty. The type of co-operation and assistance that you have shown can be summed up in the term "Skule Spirit"—that intangible thing which is one of the most important attributes of the Society and one which should be carefully nurtured. Whether it was the Engineers' Ball, around the goal-posts at Varsity Stadium, on the train to McGill, at the various campus social events, or on the green dragons, the public has been made painfully aware of the presence of Ajax.

We should realize that when time writes *finis* to this educational experiment, it marks the close of an era in each of our personal histories, an era that will prove in the future to be the source of much happy inspiration.♣

S.P.S. FOURTH YEAR EXECUTIVE

HERE we are, the pioneers of Ajax, at the end of the rope (or should it be line) all ready to set the world afire with the "gen" picked up in four years of labs, lectures and bull sessions.

It seems like only yesterday we descended on the unsuspecting town of Ajax with that burning desire for knowledge. And who will ever forget that lost wilderness, the mile long queue for the two hard boiled eggs at 8:45 in the morning, missing the last trip to 214 on the "green hornet", the full scale battles with the fire hoses, the house parties with real live women, or the discussion groups at one A.M. where the only topic ever discussed was "women"? And strangely enough, when one looks back, he feels that Ajax was an experience he would never have missed.

Two years gone, and those of us who somehow evaded the axe, shed our coon skins and knee length boots and took up residence in the Little Red School House. Although some of the boys found the wind slightly cool on the beardless face, Toronto in general, was little different from Ajax.

And we did manage to learn something in our short sojourn at Varsity. We found that a man can live with his fellow men if he half tries and that the further one advances in wisdom and knowledge the more he realizes how much he still has to learn.

In conclusion, I wish to say that it is an unforgettable pleasure to have lived and worked with the engineers of Forty-Nine. ♦

EXECUTIVE OF THE PHYSICAL AND HEALTH EDUCATION UNDERGRADUATE ASSOCIATION

PHYSICAL AND HEALTH EDUCATION

*A*T the close of the 1948-49 year, the role of P.H.E. in numerous campus activities is one in which each member of this Faculty may be justly proud. The combined units of each year, sponsoring frequent "year" dances, sporting activities, and the P.H.E. show "Health's-a-Poppin'", have provided certain essential qualities that each student should receive from his or her University education. Those of us who are leaving extend to the executive of next year the sincerest and heartiest wishes for the 1949-50 session, and may P.H.E. continue to be an inspiration to its many followers. ❀

THE SENIOR EXECUTIVE OF PHARMACY

IT is with great pleasure that we greet the graduating class of '49. During your session at the Ontario College of Pharmacy you have had a multitude of experiences, a part of each one of which you will take away with you. You have cheered at hockey games; you have tackled experiments; you have played hard you have worked hard; but no matter what you did, you did it with a spirit of comradeship and a zeal that should still play an important part in your business life.

To your instructors you owe much. While they gave you knowledge of infinite value, they also gave you the inspiration and encouragement that is so necessary to an undergraduate. To your classmates you owe much, for it is from each one of them that you acquire the ability to meet and get along with others.

During your last year at college, you have seen the commencement of the new four year course, concrete evidence of the rising standards and rebirth of Pharmacy.

You have completed your studies in the lecture halls and laboratories of the Ontario College of Pharmacy but you are at the initiation of your greatest study of all—the study of life. Here success will not be measured by examinations and marks. It will be measured not only by your previous achievements, but also by your ability to work in harmony with your fellow man and the contributions you are able to make to the community in which you live. Work hard, make your contributions to your community, obtain the good fellowship of all who know you, and you will have succeeded in your study of life.

Pharmacy is yours! Make it a profession to be respected.♣

THE FORESTERS' CLUB

EACH year the Foresters' Club says farewell to another graduating class as a new force of young foresters steps into the ranks of the administrators of Canada's vast forest resources. This year's class of eighty-eight marks the largest class in the history of the Faculty. These undergraduates have been prominent in University and Faculty organizations and their maturity, aggressiveness and fellowship have fostered much goodwill in all circles where they have been active.

During the 1948-49 Session the Foresters' Club carried out an extensive programme which included social events, Club meetings with prominent speakers, support of University and Faculty organizations and administration of many phases of under-graduate endeavour within the Faculty.

Socially, the foresters are far from being backwoodsmen, as several successful Club and class functions took place. The Forestry Frolic opened the season when more than two hundred couples took over the Club Kingsway early in October. Open house was held on January 28th at Hart House. The biggest social event, however, was the Foresters' Banquet held at the Royal York Hotel on February 14th.

Reorganization of the Forestry Alumni was given support and a new student membership clause in the policy of the Canadian Society of Forest Engineers was favourably received.

It is hoped that each member of this class will enjoy success in his work and that the comradeship moulded during the past four years will be kept active at all times. ♣

ARCHITECTURAL SOCIETY

THE Architectural Society was formed by the students and staff of the new School of Architecture. This was a necessary step because the school is no longer Department 4 of the School of Practical Science.

The Society owes a great deal of its initial success as a new body to the zeal and tireless efforts of its President, Robert G. Calvert.

On November 30, Mr. Frank Lloyd Wright, undoubtedly the dean of architecture in America, addressed the students and staff in Hart House Theatre. In the evening a dinner was held in the Toronto Club where the members of the staff and Mr. Wright were the guests of the Society. With Mr. Wright's visit the Society certainly started the year off successfully. It is hoped that speakers who follow will maintain the high standard of these lectures.

Jim Strutt of fourth year was Vice-President of the Society. His function with the social committee has been to provide dances for the school. The first dance was held at the Savarin Hotel, where staff members seemed to enjoy themselves as much as the students.

Ross Anderson of third year did an outstanding job as Sports Director, establishing for the Architecture teams in their gray and garnet uniforms a name of the campus.

The Publicity Director, Wally Kyro, recorded the events of the Society in true camera fashion. It is to him that we owe the pictures seen on our pages.

Secretary Peggy Gisborne, Treasurer Abby Dashkin, and the year presidents have all done more than their share of furthering the work of the Society in this, its first year.

The Architectural Society extends to the graduating class its sincerest wishes for their every success as graduate architects, and hopes that they will be able to look back on their years as student architects with great pleasure and happiness. ♣

ARCHITECTURE

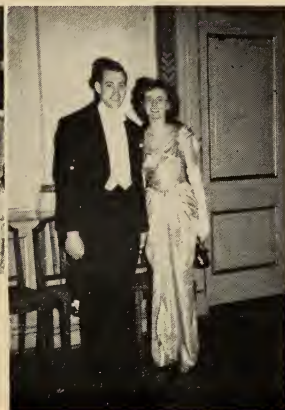

*B*Y this time next year, the Architectural Profession will probably be running the country the way it ought to be run; for seventeen crusaders are being released on the unsuspecting R.A.I.C.

I suppose no other course rubs its students together so much as does Architecture. Half of every day we spend together in the drafting room during the school year; but this isn't enough. We take time out during the summers to go to sketch camp or make pilgrimages to famous buildings. Walking along any street, we are apt to moralize over the buildings we pass. But somehow the subject never seems to pall.

The most important part of the course was the way we did everything together. We had a nicely-balanced group. Let's hope we can get together often in the future, and revive the stimulating spirit of comradeship which seems so rich now that we look back over the five years. ♣

THE END OF AN ERA—

THE AJAX PROJECT COMES TO AN END

FOUR short sessions ago, the University of Toronto opened up its Ajax Division to look after the post-war surge of men—and women—intent on becoming Engineers. The Ajax regime has ended; but during its short existence it was crammed with colour and action.

The historical background and impressive statistics of Ajax have been the subject of many articles. Enrolment figures, percentage of veterans, and the names of those who have successfully completed their years are now a matter of record. But of the students themselves, their hopes and ambitions, their problems and disappointments, little has been or could be written.

"THE CLASSROOMS AND LABS, NOW BARE AS CAN BE,
ONCE ECHOED WITH WISDOM AND NEAT REPARTEE.
THE WORDS OF THE DEMMIES, PROFESSORS, AND SUCH
(‘EXCELLENT’, ‘GOOD’, ‘FAIR’, OR ‘NOT UP TO MUCH’),
OF THEIR WAN OSCILLATIONS, NOW BARELY A TRACE,
THEY STILL GO ON, THINNING IN LIMITLESS SPACE.”

Early in January of 1946, a determined body of students 1409 strong, arrived at the gates of Ajax to begin their courses in Engineering. No more colourful group of people ever knocked on the door of a university. These, and the 4000 others who followed, tramped and queued, studied and played, with a determination that earned them high praise and deep respect.

Because 70% of the Ajax enrolment lived on the campus, it was predominantly a residential institution. Any Ajax story therefore centres around the buildings in which so many students lived, and worked. The community which resulted had an identity all its own, and its members were forceful, interested and loyal.

In retrospect, not only do certain unique characteristics of this community stand out, but so do the individual years and residences. Just as the first session was different from the last, so one residence was known for its academic prowess, another for its athletic achievements and perhaps another for its excellent, or poor organization. Though all the years had much in common, those who come for the initial session were more the "men in a hurry" type than those who followed later. This first group consisted almost entirely of veterans just out of the services. Some, indeed, came "off the boat" direct to Ajax. It was no easy assignment for these men to jump from a directed life of long military service, to a peace time university existence where they were invited to manage their own affairs. For the most part, they did a good job (sometimes with considerable "beefing"), and conscientiously set up, and used, the machinery of student government followed by later years.

The second session stood out as the capacity year, when all facilities were taxed to the limit. Residence enrolment reached a peak of 2335 students, requiring 33 houses for accommodation. In spite of longer queues, overcrowded buildings and a crush in the cafeteria, the year went well. Athletic successes were numerous, highlighted by the

"WE CANNOT CLOSE OFF WITHOUT SOME 'TO DO' ABOUT HART HOUSE, AND REC HALL, AND ARBOR LODGE, TOO. THESE AND THE TUCK SHOP, ITS COFFEE AND COOKIES, HAVE MEANT A GREAT DEAL TO THE ENGINEER BLOKES. THEY HAVE PROVIDED THE FUN AND THE DANCES, ART, MUSIC, AND CULTURE—AND FRIDAY ROMANCES—"

"THE GHOSTS OF THOSE WHO CAME TO STUDY, BUT STAYED TO PLAY BRIDGE, AND BOWL, AND RUDDY WELL WASTE THEIR TIME, AND D.V.A.'S MONEY, AND DRIVE THEIR NEIGHBOURS A LITTLE BIT FUNNY—SOME SAY THEIR GHOSTS, OR SHADES, OR BONES WILL HAUNT THESE HUTS WITH SHRIEKS AND GROANS . . ."

champion Junior Football Team and the winning of many inter-faculty titles. Proof that students themselves can handle difficult situations was given by the manner in which the Joint House Committee examined and dealt with

the now famous Hallowe'en affair. The decisions of this committee were severe but fair.

The decrease in the third session gave relief to all quarters of the Division. The old guard from the opening session had departed, with the exception of a few who were selected to spend another year at Ajax. The quality of the men remained high, though possibly many were unsuited for an academic training. There was a spirit of great friendliness on the campus, due in large measure to the very high quality of most of those who held committee positions. Very few unexpected problems arose. The outstanding non-academic event of the year was undoubtedly the Engineers' Ball which was attended by enthusiastic capacity crowds on two successive nights.

Before the fourth session opened it was known that the incoming First Year would be mostly ex-high school students. This cut the percentage of veterans to approximately 50. It was feared that so many younger students fresh from school might offer new residence problems. Would they interfere with the older serious-minded men? Would they have the sense of responsibility to carry on the good work of their predecessors? Although some of these fears were justified, the good sense of the great majority of students could always be relied upon. This final year passed smoothly, characterized by intensive extra-curricular activity, a happy cafeteria and a fast moving Spring term.

The Faculty of Applied Science and Engineering's very large family at Ajax has now departed. It was an extraordinarily fine family and one with whom it was a great pleasure to live and work. Its brief existence has shown among other things, that a large residence community is practical and has many advantages. It has also shown that students, if given a large share of

responsibility in the management of their own affairs, are able to handle routine difficulties and unusual situations. As far as the students themselves are concerned, though Engineers are not best known for their sentimentality, it is safe to say that most of those who attended Ajax will look back on their brief sojourn at the ex-war plant as an unforgettable and interesting experience.♣

PRESIDENT SMITH ADDRESSES THE STUDENT BODY. DEAN C. R. YOUNG IS ON HIS RIGHT

MEMORIAL DAY PRESENTATION

ON November 11, the British Admiralty, represented by Lieutenant Brown, R.C.N., presented the Crest of H.M.S. *Ajax* to the University. President Smith accepted the Crest on behalf of the student body at Ajax. In the bright morning sunlight, the students listened gravely to his words: "When the Crest is taken by the Faculty of Applied Science and Engineering to the Queen's Park campus, may it be a constant reminder to successive generations of the price of our freedom and their constant obligation to safeguard it. With humility, we believe that this Crest in the years to come will also be the frontispiece of a brilliant chapter in the history of our University—the story of the Ajax Division—the story of its students who in the Second World War defended our freedom, and the story of its devoted staff." ♦

HART HOUSE

HART House was presented by the Trustees of the Massey Foundation to the University of Toronto. To the Rt. Hon. Vincent Massey, Chairman of the Massey Foundation, and at present Chancellor of the University of Toronto, is due the idea of the House, which was named after his grandfather, Hart Massey. The form it assumed was a result of his close co-operation with the architects, the late Mr. Henry Sproatt and Mr. Ernest Rolph. Begun in 1911, the shell of the building had just been completed on the outbreak of the war of 1914-1918 and it was turned over to the army for the training and housing of troops. In 1919 Hart House was officially opened for the use of male students in the University and since that time has assumed its place as the centre of cultural and recreational activity of the University.

Although it is for the use of men only, Hart House is, perhaps, as close to the realization of the ideal house for student activities as any on this continent. In its widest interpretation, it seeks to provide for all the activities of the undergraduate's life outside the classroom and laboratory, and to maintain a link for the graduate with the University. Built around a quadrangle, it provides architecturally a splendid example of the collegiate gothic style, and houses under one roof a finely proportioned dining-hall, common rooms of every description, a library, a debates room, a music room, a small chapel, together with rooms for the use of the Student Christian Movement, an art gallery, a print room, completely equipped photographic darkrooms and workrooms, squash racquets courts, a well-fitted indoor rifle and revolver range, senior common rooms for both faculty and graduate members, a few bedrooms for guests, offices for the Comptroller's department, the office and private rooms of the Warden; and in the athletic wing an upper and lower gymnasium, separate rooms for boxing, wrestling and fencing, an indoor running track, a large swimming pool, and the offices of the Financial Secretary of the Athletic Association, and the Director of Athletics. Below the quadrangle is the fully-equipped Hart House Theatre, with foyer, green room and dressing rooms: it is under the direction of the Board of Syndics.

Every male undergraduate of the University is required to be a member of Hart House towards the upkeep of which he pays an annual fee of twelve dollars. Hart House has no private endowment and is entirely dependent on its membership fees except for a small revenue obtained from sources within the House.

While the ultimate responsibility for the administration of Hart House rests with the Warden, Mr. Nicholas Ignatieff, its care and welfare is, to a large extent, entrusted to the students themselves through a number of standing and special committees. All of the committees are composed of a member of the faculty of the University, one or more graduate members, the Warden or other representative of the administrative staff, and a large majority of undergraduate members who are elected annually by the entire undergraduate membership of Hart House. The activities of all Hart House committees are subject to the sanction and authorization of the Board of Stewards. ♣

DEBATES COMMITTEE

AN active Debates Committee this year arranged five debates which drew good audiences and brought the standard of Hart House Debates still closer to the high level of pre-war days. The Honorary Visitors at the debates this year were The Hon. Senator Gouin; The Hon. Paul Martin, K.C.; Professor W. E. Blatz; Mr. Marvin Gelber, and the Hon. Lester B. Pearson.

In addition to the regular programme, the committee arranged several extra debates. The first of these was held in the Debates Room on the occasion of New Members' Night on the 12th of October, when freshmen were given an opportunity of seeing how parliamentary debates are conducted and of participating in them if they so desired. An experiment was tried of holding weekly noon-hour debates but it was found too difficult to obtain speakers "on the paper" and the noon-hour debates were discontinued.

For the first time Hart House debates were recorded on magnetic tape and speakers were given the chance of having their speeches criticized by competent judges the following day when the recordings were played back. The same judges viz. Dr. D. M. Hayne, of the Department of French; and Professor G. Bagnani consented to give a series of weekly lectures during February on the technique and general aspects of debating. The lectures, which were held in University College and which women were permitted to attend, were highly successful.

An outstanding occasion during the year was the visit of an English Debating Team of two university students under the joint sponsorship of the Debates Committee of Hart House, and the Students' Administrative Council. Speaking in Trinity College against the resolution that "the British Empire is decadent" the Englishmen won the debate.

Following the precedent set last year representatives were sent to debate against American Universities. The team, composed of Mr. J. E. Eberle and Mr. A. Noble, visited the universities of Michigan, Notre Dame, Chicago, Wisconsin, and Illinois, in order to compare the parliamentary system of debating in Hart House with American debating procedures. Hart House Debates systems were considered superior and favourable.♣

HOUSE COMMITTEE

THE House Committee is responsible for the general management and social activities of Hart House and deals with matters which make for the comfort and convenience of members. The Great Hall, Tuck Shop, Lunch Room and Barber Shop come under its supervision. It is responsible to the Board of Stewards for keeping the structure itself and all equipment in good repair. The House Committee is represented on the Board of Directors of the University Settlement and members of the committee entertain the men and boys of the Settlement in the House each year at Christmas time. Arrangements for the ever-popular All University Fall Dance, the first large informal dance of the year are also carried out under its guidance. The committee was responsible for inaugurating the first All University Spring Dance this year, the final fling for most students before the serious task of studying for examinations. The members of the committee are likewise responsible for the management of the annual elections of Hart House committees in March. It is their duty to see that the elections are carried on in the fairest and most democratic manner. ♣

LIBRARY COMMITTEE

IN accordance with the idea of the Founders, the Library Committee has from the beginning been engaged in the building up of a collection of books such as might be found in a good private library, and the room has always been a popular resort for all who like to spend their leisure hours in casual reading. Additions to the library are made at regular intervals and the activities of the committee are mainly centred around the selection of new books. At present there are over four thousand volumes on the shelves, about one-third of which are fiction, while the remainder are composed of biography, history, language and general literature. They are also making a valuable collection of private press books which are shown in a display case outside the library. The committee is responsible too, for the selection and supervision of the wide range of weekly and monthly periodicals in the Reading Room.

At the monthly Library Evenings this year many notable guest-speakers gathered around them, groups interested in special aspects of literature and led lively discussions on the questions in hand. Among the speakers were: Mr. Morley Callaghan, Mr. Robertson Davies, Mr. Lister Sinclair, and Rev. Dr. G. Stanley Russell.

A new departure for the Library Committee this year was the purchase of recordings of poem-readings, dramatic orations, and excerpts from Shakespearean plays. Programmes were arranged and given at nearly every Tuesday noon-hour, until the limited collection could no longer provide a new programme. ♦

SQUASH

SQUASH maintained its great interest among the members of Hart House, the courts being reserved virtually to capacity every day. And the last vestige of war-time make-shift was removed when the committee ruled that white-soled shoes only would be permitted on the courts. Although there was some difficulty in enforcing the regulation at first the required footwear soon came into regular use and the courts remained much cleaner than before.

The first open meeting for squash players was held in the Art Gallery, when members were given the opportunity of discussing affairs with the committee in person. It was agreed that open meetings should be held regularly.

One of the outstanding squash events of the year was the visit of the McGill Squash team to Hart House, and the resulting matches which were held as a feature of one of the Athletic Nights. Toronto defeated McGill 5-0. ♣

ALL WAS NOT "SWEETNESS AND LIGHT" THE NIGHT THAT HART HOUSE WAS THROWN OPEN TO THE CHILDREN OF THE UNIVERSITY SETTLEMENT.

CAMERA CLUB

THE highly active Camera Club of Hart House this year saw three events of outstanding importance. The first was the installation and opening up of a fully equipped Colour Room in which colour photography could be done. A small club of colour photography enthusiasts was formed. Secondly, the Hart House Camera Club was host to the Second Canadian Inter-University Salon of Pictorial Photography. Accepted entries were displayed in Hart House Art Gallery and the Main Public Library for one week each. And lastly, the visit of Mr. Yousuf Karsh, renowned portrait photographer, who was asked to judge the annual exhibition of photographs by members of Hart House was a memorable occasion. His sparkling personality and keen friendly advice were treasured experiences of those who met him. ♣

MUSIC COMMITTEE

DURING the past year the Music Committee arranged the traditional eight Sunday Evening Concerts on alternate Sunday evenings, for which the following musicians of the city most generously provided the programmes: The Opera School of the Royal Conservatory of Music, Toronto; Eugene Kash (violinist) with Greta Kraus (harpsichordist); Alberto Guerrero (pianist); the St. Mary Magdalene Singers; Frances James (soprano); The Senior School Quartet; Lorne Waton (pianist) and The Hart House Glee Club.

The informal Friday Afternoon Recitals, held in the Music Room at 5 o'clock, also provided members with the opportunity of hearing good chamber music in an ideal setting. The musicians who performed at these recitals were as follows: Madame Emmy Heim (soprano) with Sir Ernest MacMillan; Alan Blumenthal (pianist); Elie Spivak (violinist); Lois Marshall (soprano); Marjorie Lea (pianist); Leo Smith with the Hart House viols; Mina Grant (soprano); Glenn Gould (pianist); the Arts Quartet; Andrew MacMillan (baritone); Ross Johnson (pianist); and Robert Graham (violinist).

A change was effected this year in the Tuesday Midday Recitals which are given by undergraduate members. Instead of holding the recitals in the crowded East Common Room as heretofore, the Music Room was used and the acoustically better room was usually well filled with keen supporters of undergraduate talent. The success of the experiment was indicated by the constantly growing numbers who attended the recitals.

The most recent source of music to be introduced to Hart House, the Record Player installed at the end of last year, has proved increasingly popular until the point has been reached where the room is in nearly constant use all day and every day. The size of the record collection was nearly doubled this year and shelving was installed to permit even further expansion when money became available for additional purchases. It should be noted that the "honour" system which has been used in the administration of the Record Room has proved highly successful and losses due to breakage, damage or theft have been negligible.♣

HART HOUSE CHESS COMMITTEE

STANDING: M. DOBIE, C. T. P. GALLOWAY, C. T. PEARSON.

CHESS CLUB

THE Hart House Chess Club had perhaps its most active season to date. As usual, teams were entered in the major, intermediate, and minor sections of the Toronto Chess League, and all three championships were won. In inter-university chess, teams were sent to Hamilton, Ithaca, Rochester, and Ajax: victories were scored over Rochester, McMaster, and Ajax (the last two in home and home matches), while a loss was suffered at the hands of Cornell. The Faculty won the annual Student-Staff match, but in other matches against the Junior Chess League, Oshawa Ukrainian Chess Club and Central Y.M.C.A. Hart House Chess Club won.

The high spot of the year was the visit to Hart House in January of Dr. Max Euwe, former world champion. In a mammoth Simultaneous Match the grand-master scored forty-eight wins to seven draws and six losses. Another Simultaneous Match was given by Frank Anderson, the Ontario champion.

The following intra-club winners were declared:

University of Toronto Championship—Keith Hastings
Championship Qualifying Tournament—R. F. Rodgers
Lighting Chess Tournament—R. F. Rodgers
Pyramid-Ladder Tournament—S. A. Cook
Interfaculty Team Championship—Victoria College

An innovation was a series of lectures on chess, in addition to the individual instruction offered members. Monday noon-hour events continued to be popular, several Simultaneous and Rapid Transit Matches being held. ♠

ART COMMITTEE

THE interest that a great many members show in the art gallery indicates the place which art holds in the life of Hart House. Hundreds of members visit the gallery every week to see the exhibitions which are the work of some of Canada's outstanding artists.

This year an ambitious attempt was made to procure exhibitions from across Canada, but unfortunately the experiment was only partially successful; anticipated exhibitions from the Maritimes and from British Columbia were not obtained. But two exhibitions from different groups in Montreal, and two exhibitions from Alberta, (the Calgary Group, and Mr. and Mrs. Peter Whyte) were shown. In addition, an exhibition by (five) Women Artists of Ontario and particularly an exhibition by Abba Bayefsky attracted much interest. Also arranged were the annual exhibitions by undergraduate members of Hart House, graduate members and the faculty, the Art Classes, and the exhibition of photography open to all members of Hart House.

The Art Committee took an exceptionally keen interest in the purchase of paintings for the Hart House permanent collection of Canadian pictures. Two sketches were purchased, painted by Mr. Abba Bayefsky who had recently returned from studies in Europe.

One other picture found a new home in Hart House. At the time of the retrospective exhibition of the paintings of Lawren Harris in the Art Gallery of Toronto the Art Committee were impressed by one picture in particular, a large non-objective painting which stood out from the rest. They therefore requested to purchase it from the artist. They were, however, unable to do so. Instead, Mr. Harris most generously donated it to Hart House with the one stipulation that the money saved thereby should be used to purchase a painting by another Canadian artist!❖

ARCHERY

THE Hart House Archery Club, finishing its fourth year, had a membership of twenty enthusiastic archers including some of the best bowmen in Canada. The shooting was done in the Rifle Range on Tuesday and Thursday evenings, and at the School of Physical and Health Education on Tuesday afternoons. The Archery Club met stiff competition this year in defending their title of 1948 champions of the Canadian Indoor Archery Mail Match. At press time Hart House was leading the league by a scant eight points.

As in previous years, the Archery Club welcomed undergraduates into its ranks and offered them instruction by a nationally known archer. ♦

TABLE TENNIS

THE newest committee in Hart House is the Table Tennis Committee which was formed in the fall to organize a Table Tennis Club. By the end of the academic year there were seventy members in the club, there was play every Tuesday and Wednesday evening, and two teams were entered in the Toronto Table Tennis League. The Table Tennis Club Trophy for the championship of the club was won by Tom Sloane, IV U.C. ♦

BRIDGE

THE Hart House Bridge Club held weekly duplicate games during the fall and spring terms, and also acted as host to teams playing in the Intercollegiate Bridge tournament which was held in February. McGill, Queen's, Ottawa, Carleton College, McMaster, and Western Universities all sent competitors to this event, of which some games were played in Hart House, Ajax, and the remainder in Toronto. ♦

UNIVERSITY OF TORONTO SYMPHONY ORCHESTRA AND ALL- VARSITY MIXED CHORUS

Under the baton of Harold Neal, the University Symphony Orchestra and the All-Varsity Mixed Chorus completed another successful season. Mr. Neal, assistant conductor of the orchestra in '47 and '48, took over the full conductorship this year. His confidence in both the orchestra and chorus induced him to choose works which required concentrated study and hard work on the part of conductor and performers. To him goes much credit for the success of this year's programme.

For such an ambitious work, the Dvorak Fifth Symphony ("New World") was rated by critics as a "very creditable performance". Good teamwork was shown, especially in the horn section. The other major work of the orchestra was the Mendelssohn Concerto in E Minor for violin. Miss Teresa Mulloy, the soloist, was praised by critics for her fluent and well-controlled technique.

MISS ALICE KOZNER

Mr. Norman Hurrle, the organ soloist with the orchestra, performed the Bach Prelude in G, the Handel Concerto in B flat Minor, and a modern American composition, the Ballade in D by Clokety.

The Mixed Chorus was begun in 1947 at the suggestion of Brock McElheran, with the support of Mr. Macdonald and the Students' Administrative Council. In its first year the chorus, under the direction of Hans Gruber, presented the Mozart Requiem Mass. This year Mr. Neal conducted the chorus in the Requiem Mass by Faure. The organ accompanist was Mr. Bertrand Turvey, and the vocal soloists Miss Jean Patterson and Mr. John Blair of the Royal Conservatory of Music of Toronto.

The orchestra and chorus gave five performances in Convocation Hall and one at Ajax. The chorus broadcast sections of the Mass and a Capella group over station CJBC Toronto. During Brotherhood Week the chorus took part in a Folk Festival sponsored by the Intercultural Affairs Committee of the Students' Council. A request concert given by the orchestra and chorus in Convocation Hall on March 6th brought the season to a close. ♣

THE ALL-VARSITY REVUE

STARTING January 10 and running for seven loudly-acclaimed performances, the All-Varsity Revue bowed onto the U. of T. show-scene in a debut that will be long remembered.

Producer Norm Jewison and Director Bob Cringan sacrificed the unity of a script show to the loosely-hung but fast-paced revue. Continuity was built around the proposed student union and what the college men and women of 20 years hence might expect to find in it.

The revue-type show was admirably suited to the talents of which the All-Varsity could boast. Individual stars were outstanding.

Ben Forman and his "Vocalist Blues" was the biggest hit of this and any other campus show. Mike Roth brought something new to Varsity show goers—sophisticated magic. And the Witham-Jewison duet on "Toronto, Toronto" had the customers calling for more. ♣

HART HOUSE THEATRE

HART House Theatre has now been in operation for three years as a university theatre. Under its Director, Mr. Robert Gill, the Theatre presents plays with casts chosen from all the colleges and faculties of the University. Though in the first year only two plays were produced, a programme is now established of four productions each season.

The choice of plays this year made up a varied and well-balanced programme and an extremely popular one. The opening play presented in October, was *The Skin of Our Teeth* by Thornton Wilder, Anton Chekhov's *The Sea Gull* was produced in November, *The Doctor's Dilemma* by G. B. Shaw was presented in January and Shakespeare's *Julius Caesar* in February. It is the present policy to produce one Shakespearean play every season.

THE SEA GULL

THE DOCTOR'S DILEMMA

THE SKIN OF OUR TEETH

Each of the plays done is noted and important as dramatic literature. *The Skin of Our Teeth* is a highly controversial modern play written by one of the foremost American playwrights. It is experimental in form and has been called by the author "a comic-strip history of mankind". *The Sea Gull* is a great Russian classic; a play of subtlety in mood and characterization, it provided a fine experience for both actors and audience. *The Doctor's Dilemma* is one of Shaw's most provocative comedies, in which the medical profession is satirized with shrewdness and wit. As the most famous of Shakespeare's Roman tragedies, *Julius Caesar* was a stirring production with which to end the season.

The response of the student body to Hart House Theatre plays has grown tremendously over the past three years. This season a hundred students in all took part in the plays. *Julius Caesar* played to a larger audience than any other of the Theatre's productions.

Hart House Theatre has proved itself a most valuable part of the life of the University. It is providing an opportunity for the undergraduates of the University and the Toronto public to see, and for the student players to act in plays of high quality and interest.

During the University term the Theatre is in constant use. Besides the four Hart House Theatre plays, productions are presented in the Theatre by seventeen producing groups on the campus. ♣

THE Pipe Band has been recognized this year as a University organization. Previously the band had been attached to the C.O.T.C., but it is no longer exclusively military. Pipe Major Ross (who can be found in the Anatomy Building) has been the capable leader of the band in its varied existence over the last eight years.

The football games and pep rallies were stirred to the lilt of "Donald Dhu" or "Road to the Isles," and stole some of Queen's thunder. The feminine touch has been added by girl dancers, to enrich the colourful atmosphere of kilts and tartan.

Some of the other functions in which the band took part were the Memorial Day services, the Alumni Parade, the C.O.T.C. Ball, entertainment at Ajax, Athletic Nights, and a social evening held by the band, where Scottish dancing and Glenn Miller were mixed. ♣

THE U.C. FOLLIES

LITTLE RED (JUDY McERVEL) CAN'T DECIDE BETWEEN THE SPIRITS OF U.C. AND TRINITY (HAROLD NASHMAN AND ROLY MURRAY). THE TREE IS IRWIN PASTERNAK.

A new era may have begun with the production of this year's U.C. Follies as far as that college show is concerned. Called the "best ever" by the Principal and as good as a Broadway production by the Globe and Mail, it was staged in Hart House on Nov. 12 and 13.

Having originality and experimentation as its keynote it was a review-type show. Interpretive dancing replaced the conventional kick choruses, and satire was made use of instead of slapstick.

The show was produced and directed by Harry Rasky. Assistant Producer was Mary Ritchie. Unusual sets and lighting were by Herb Vise. Katheran Dunham-style dancing was directed by Hank Kaplan. Mike Hornyansky was in charge of script. ♣

U.C. SOPH-FROSH U.C. ARTS BALL

THE ARTS BALL is a traditional University College affair, and the main social event of the spring term as far as the College is concerned. This year, in accordance with the policy of hiring top Canadian talent, we danced to the music of the Stardusters and Mart Kenney. Entertainment was provided by Oscar Peterson and his trio, and by the finalists of the Arts Talent Hunt. Paul Garner of St. Michael's College and Margo McKinnon of U.C. were chosen King and Queen of Arts.

Judging from the comments of those who attended the dance this year, it seems that the ARTS BALL can rightfully take its place beside the U.C. Follies as one of the occasions worth remembering in the past school year. ♣

U.C. PLAYERS' GUILD

THIS year, the Players' Guild produced ten different one-act plays, using all student personnel. The programmes consisted of the plays which won the Robin Godfrey Awards, student written, student directed, and student acted. One of the plays, Robertson Davies' *Overlaid*, won both the Intercollege and the Intervarsity festivals.

The high calibre of the plays produced gained as much support from both members and non-members as the number of plays produced. All admitted that they were learning, and eagerly shared talent, knowledge, and enthusiasm with those who worked with them.

There has also been increased co-operation between the drama groups on the campus. Members from other college dramatic groups formed a substantial part of every audience, both for the production and the discussion of the plays. In December, Victoria Dramatic Society contributed one play to an evening of plays in the Women's Union Theatre. The All-Varsity play reading, sponsored by the Players' Guild of T. S. Eliot's *Murder in the Cathedral* was actively supported by the other drama groups. The co-operative spirit of the Drama Weekend, when advice, props, and stage crew were freely exchanged, carried over to the Intercollege Drama Festival, turning a highly competitive evening into a friendly programme of plays.

Mention cannot here be made of the numerous actors and helpers who faithfully supported the Guild. However, appreciation and thanks are due to Principal Taylor and the many members of the staff for their constant support and encouragement which has meant so much this year. ♣

VICTORIA COLLEGE DRAMATIC SOCIETY

THE Victoria College Dramatic Society opened its 1948-49 season with the presentation, of the Kaufmann and Hart comedy "*The Man Who Came to Dinner*". Later in the fall term the society presented "*The Stronger*", a comedy by August Strindberg, as part of a programme of one-act plays given in co-operation with the U.C. Players' Guild in the *Women's Union*. This play was given a second performance in January in Hart House Theatre as part of the Drama Week-end sponsored by the Campus Drama Committee. The season finished with the performance of Merrill Denison's "*Brothers in Arms*" in the Inter-Faculty Drama Festival, held in Hart House at the end of January. ♦

VICTORIA COLLEGE MUSIC CLUB

IN 50 years, Vic Music Club members will look back on 1949 and experience a feeling of nostalgia for the "good old days". Many things will come to their minds: that never-to-be-forgotten week in December when they were transformed into gossamer-like fairies and dashing Lords of the British Parliament to put on "*Iolanthe*" in Hart House Theatre; the mad rush of the stage and make-up crews to get every detail perfected before the curtain went up; the raid on the punch-bowl at intermission; the harrowing but happy hours spent under the direction of Godfrey Ridout and Geoffrey Hatton; the successful "500 years of music" that the Glee Club put on in the Museum Theatre; the thrill of ending "in key" when singing a capella music; the exchange trip to McMaster; the At-Home that caused such a flurry.

All these things will still have a place in their memories, but there is something still more that has been a bond since college days—the friends we have made and the comradeship of fellow music-lovers. ♦

WYMILWOOD CONCERTS

THE Wymilwood Concerts, held every second Sunday in the college year, play an important part in the musical life of Victoria College. The Committee for the series, with the assistance of Miss Macpherson and Professor Hare, has presented concerts this year which have attracted many students from all colleges. The informal atmosphere and the opportunity given the audience to meet the soloist during refreshments at the conclusion of the programme are features that enhance the popularity of the concerts.

Guest artists during this season were Frances James, soprano; Clemlie Hambourg, violinist; Mary MacKinnon Shore, pianist; Pierre Boutet, tenor; John Coreart, pianist; and Lois Marshall, soprano. Other well-received events were the student concert, presented by five Victoria College students, and the Christmas Carol Service. ♣

THE VIC "BOB"

SEVENTY-SIX years ago, Bob Beare, the janitor at Vic started a tradition with snow apples and violin music. The BOB was, and is, as the preamble to the constitution states, "that most characteristic and peculiar of functions, which has for its purpose the initiation of the members of the First Year and expression of that feeling of friendly antagonism universally existing between the First and Second Years."

But the passing years partially dimmed the significance of the old BOB, and what had originally started out as an informal evening of entertainment, songs, skits and dancing, had evolved into a "production" similar to other campus shows. Such a break with tradition was not too highly favoured by the BOB Committee this year and as a result, the "VIC BOB '48" attempted to get back to the original and traditional style of former years. This year, the BOB was held in the auditorium of Central Technical School on Tuesday evening October 19th with the "follow-up" dance and part of the informality returning.

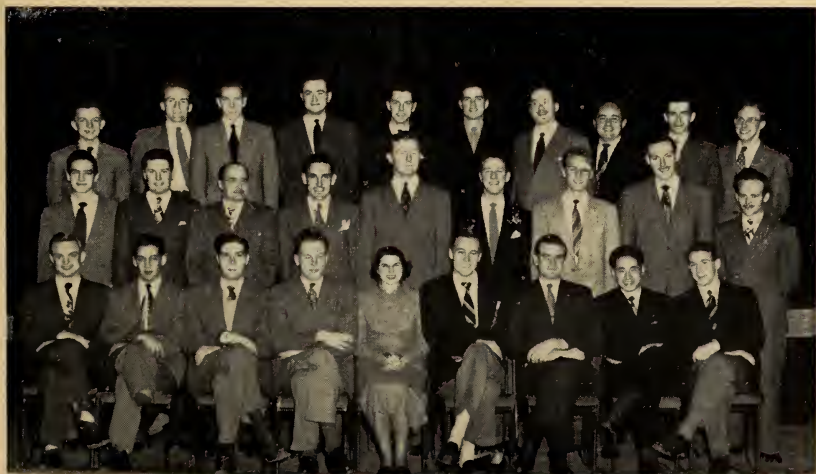

The show itself indicated the transitional nature desired and was divided into two acts. The first one definitely "Bobbed" the Freshmen, the Professors, the Staff and college life in general. In between acts, the traditional BOB canes were presented and the BOB quartette gave their version of the famous BOB song.

And so the 76th annual anniversary of "that memorable night in November 1872" was commemorated by the "VIC BOB '48", and then put away for another year. ♣

SAINT MICHAEL'S COLLEGE MUSIC AND DRAMA

THE Saint Michael's Music and Drama Society has just completed a year crowned by success, and graced by innovation.

Musically, a concert by Miss Tova Boroditsky ushered in the new season and established for it a standard of excellence.

Two one-act plays, "Utter Relaxation" by Bert Griscom and "Trifles" by Susan Glaspell, were produced at Brennan Hall during first term. "Still Stands the House" by Gwen Pharis was the contribution of St. Michael's College to the first evening of one-act plays at Hart House; "Overtones" by Alice Gerstenberg was presented at the Drama Weekend, and "The Miracle Merchant" by Saki was entered in the Drama Festival.

Brennan Hall was the scene of Sidney Howard's play, "The Silver Cord". This play, which was offered to the patronage of the university and the city, climaxed the year's activities and may prove a milestone in the evolution of "M and D". It was the College's first three-act play since 1945, and pioneered in arena technique, in Toronto.

1948-49 leaves to posterity the nucleus of a glee club, seasoned by two concerts, the drama workshop, the offices, props, flats and best wishes. ♣

DAFFYDIL

FOR fifty-three years, Medsmen have produced one of the foremost campus shows, *Daffydil Nite*. Again this year, from the time they arrived in sight of Hart House Theatre until the final curtain was rung down the audience found entertainment at its best.

A cast of 172 members, artists of all sorts, succeeded in pleasing themselves and delighting the audience while still managing to gain full Faculty approval. It can be done!

At a pace set by two reeling drunks the actors, glee-club and chorus laughed, sang and danced their way into the hearts of the audience. Unfortunately limited capacity kept many eager pre-medical students from the show and no tickets were available to outside faculties or institutions. *Daffydil* is fast outgrowing campus accommodation.

Though a minimal theme did not detract from the variety of the show, great masters of the past from Gilbert and Sullivan to Zeigfield came back in spirit to write music, scripts and routines especially for *Daffydil*. ♦

THE MEDICAL GLEE CLUB

*T*HE Medical Glee Club, a relatively young organization, sprang into being with the return of Daffydil to the campus, and was designed at first merely to be a part of this famous show. However, under the enthusiastic direction of its founder, Dr. Jack Finlay, and since Jack's graduation, under Don Pushman's capable baton, the Glee Club has become a year-round pleasure.

In 1946 the Medical Glee Club became the nucleus of the Medical Music Association, which comprises the Glee Club and numerous instrumental soloists. Individually, and in groups, the members of the Medical Music Association have provided entertainment for the numerous Medical undergraduate social functions during the year. This year a group was heard in a concert presented by the Medical Arts and Letters Club. The Glee Club and a number of soloists presented part of a programme on behalf of the I.S.S. campaign.

The members of the Glee Club are Medical students who enjoy part singing. Though Musical ability is not a necessity for membership, many of the group have well-trained voices. Don Pushman's exceptional tenor is not heard often enough, as he is kept well-occupied by his duties as conductor. This year, the Glee Club, boasting a larger membership than ever, shows great promise of becoming one of the Medical faculty's greatest traditional organizations. ♦

THE 1948 version of *Dentantics*, under the direction of Al Chapple, provided a smooth-running, highly professional night of music and laughter. The orchestra was led by Gideon Rowntree; the chorus line was directed by Jean Leslie; and stage management was handled by Ted Shaunessy.

Walter Mitty—*Dental Student*, as played by Bob Shaw, gave us a laugh a second; and Drew's Drunkery, featuring the Amalgamators, provided both laughter and superb harmonizing. Other featured attractions were the violin playing of Mary Ann Paul, the songs of Barney Mass and the piano playing of Al Chapple. ♣

SKULE NITE

IN February of 1948 the Skule elections were held. P. J. "Suds" Suddick, as First Vice-President, promised an active social year. Willing engineers formed committees, and on a quiet March evening in 1948, "Suds" offered to Hal Blakely, Bill Walker, and Garth McDowell the jobs of dance chairmanship, show production and show direction, respectively.

General plans were made, and filed during the April exams but ideas accrued throughout the summer. Following the fall football fever, the wheels of show business started to grind.

Casting and rehearsing followed, and eventually the curtain opened for the first of eight times, on Friday, February 11, 1949. A film opened the show, telling of the "March of Time and a Half", and how a certain professor had created a time machine. By this machine, the time-traveller, Pat Suddick, was flown from Nero's Rome to London, 1941; then, on to present-day Moscow, back to the Coventry of Godiva, and to Hollywood for the finale.

There could have been no better audience than the one already enthused by the dancing which was going on in the rest of Hart House. To reiterate an old but honest cliché there are innumerable names deserving printed recognition, but space does not permit. We sincerely thank all those who worked so hard to create the wonderful production, Skule Nite, '49. ♣

THE SCHOOL AT-HOME

IN writing of a past function, one is tempted to use generalities and superlatives in great array, regardless of what transpired at the function in question. For the School At-Home, '49, superlatives are superfluous; for the best write-up of it is engraved in the memories of those who were in attendance. It was an At-Home worthy of a great faculty.

This success was due to the hard work of many engineers from all years and courses, who expanded the embryonic theme which was hatched in the clutter behind the Engineering Society Stores. From a well-thumbed copy of the *Theme Tables* and other sources of inspiration the central idea of a Parisian Sidewalk Cafe emerged, to be integrated with a hundred other suggestions, into the evening of January 13, 1949.

The Old Master, P. J. Suddick, acted as overseer, Chief, Simon Legree, and coordinator of the myriad facets of the dance. Hidden behind a mound of papers, bills, and requisitions was Dave Davis, chief worry-wart and official conscience.

Meanwhile, frantic preparations were being made by Bob Allen, Curly Warren, Gord Petherick, Gord Partridge, Don Fairley, Jock McLea, Art Cante and Bill Bryan who took care of the multifarious details of the bar, programs, publicity, finance, accommodation, ticket sales, guests and invitations.

At last the great night arrived, and to those who were there, further description would be of little avail. To those who weren't, may we say that they missed the best dance in the history of School, thanks to the resolute efforts of the School-At-Home Committee. ♦

THE SCHOOL DINNER

NOVEMBER 17th, 1948, was a red letter day at S.P.S., for it marked the occurrence of the first of many great events to be held by the Engineers during the 1948-49 session. That was the day of the Annual School Dinner. Typical of all Engineering events this year, an unprecedented crowd attended; . . . nearly six hundred and fifty embryo engineers gathered at the Royal York Hotel.

The head table, which took up the best part of one side of the banquet hall, was gaily decorated with head table guests. Suspended on the wall behind this was an original painting (especially commissioned for the occasion) of H.M.S. Ajax, thus setting the theme for the evening: "Good-bye, Ajax".

The guest speaker of the evening was the well-known news commentator, Mr. Wilson Woodside, who is also an engineer (class of '29). Woody, (as we all call him, being members of the same profession) gave an excellent talk on the Russian situation.

It is rumoured that after the dinner was over several of the men retired to local soft-drink emporia to round out the evening in true Skuleman style, thus bringing to an end the first of the many social functions which took place this year. ♣

ENGINEERS' GRAD BALL

FOR the Class of 4T9, the Grad Ball has come and gone but it will not be forgotten for a long time.

Dinner, served in both the Banquet and Concert Halls of the Royal York Hotel, was highlighted by roast spring chicken. The dinner and toasts were followed by the presentation of leather medals to those who contributed time and energy to the success of Skule activities. Dean Young was presented with a silver cigarette box in appreciation of his work for the Class of 4T9.

The Concert Hall was decorated with scenes reminiscent of the Wild West days of '49 and Godiva, the fair goddess of the Engineers adorned

numerous paintings in the Crystal Ballroom.

Entertainment included the dance orchestras of Bert Niosi and Ellis McClintock, Johnny Morgan the comedian, Lloyd Morgan the London pianist, chorus girls, singers and a ventriloquist. For those who found time on their hands there was always the bar, or the yo-yos and monkeys which were given as favours.

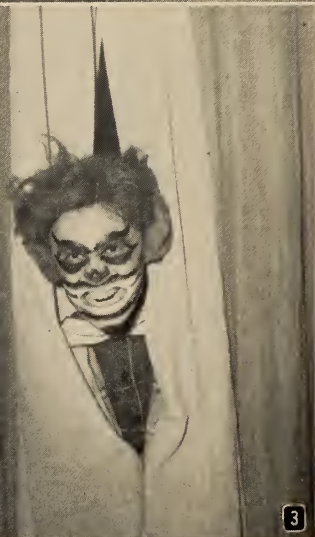

Now that it is all over one can not help thinking that these indeed were the best years of our lives and wish they could be lived over again. Thanks are due to the best committee ever for the amount of time and thought put into this event. ♣

VARSITY CHRISTIAN FELLOWSHIP

THE Varsity Christian Fellowship is a chapter of the Inter-Varsity Christian Fellowship, which originated in the Universities of Great Britain in 1877. The organization now embraces groups of Christian students throughout the world. Closely affiliated with the I.V.C.F. in Canada is the Inter-School Christian Fellowship, with branches in many secondary schools.

The Fellowship is founded on the firm conviction that God has revealed Himself in the life, death, and resurrection of His Son, Jesus Christ. It emphasizes the necessity of personal faith in Him, through which there is forgiveness of sin and a new and joyful life-purpose in the will of God. The aim of the Fellowship is to make this faith significant in a practical way, and to bear witness to the reality and power of the Saviour in every relationship of life. ♦

NEWMAN CLUB

UNIVERSITY of Toronto's Newman club has just completed its most successful year. The membership totals some 550 undergraduate members; our annual Newman Ball drew a sell-out crowd. ¶

The activities of the club are guided by a ten-man executive, and include a variety of spiritual, intellectual, and social projects. The active groups this year were the French, Philosophy and Debates Clubs, a student newspaper, the Glee Club, the Drama Club, and the Bridge Club. Students in O.C.E., and in the faculties of Medicine, Dentistry, Pharmacy, and Engineering use the facilities of the club for their activities.

The club is fortunate in having its own resident chaplain, the genial Rev. Father J. E. McHenry, M. A., to advise, and to care for the spiritual needs of the students. ♦

HILLEL FOUNDATION

HILLEL is the B'nai B'rith student organization of American and Canadian college campuses. The purpose of Hillel is to create an increased awareness and an appreciation among college students of Jewish traditions and culture, to train the Jewish leaders of the future and to build inter-faith good-will.

The Hillel program includes religious, social, cultural and personal service, and dramatic and inter-faith activity. Classes are conducted in many fields of Jewish learning. Discussion groups emphasize the individual participation of each student. Both a newspaper and an annual literary magazine are published. Artistic programs are presented at large mass gatherings of Hillel members. Jewish music, drama, and the arts are interpreted by gifted men and women in these fields.

The elected student executive, with the assistance of committees, draws up the program for the year and supervises its implementation. Through its program, Hillel seeks to give its members an insight into their valuable Jewish heritage, and to lead them towards identification with the Jewish people. This program is self-motivated, and is under the guidance of the Director of the Foundation. ♦

UNIVERSITY OF TORONTO RUSSIAN CLUB

IN the late fall of 1947 the University of Toronto Russian Circle made its debut under the guidance of its Honorary President, Professor B. E. Shore, head of the new department of Russian studies.

The appearance of Russian Language and History for the first time on the curriculum of the University of Toronto, indicated the increasing importance of Russia in the modern world. With this fact in mind, the Russian Circle was organized for the purpose of promoting an interest not only in Russian but also in all Slavic peoples and a heightened appreciation of their unique contributions, especially in the realms of art, music, drama and literature. Even more important than this, however, it was to create a better understanding of Russian thought, education, customs and history through contacts with native Russian visitors and other students of Slavic origin.

Although its membership is small, the response from the student body has been enthusiastic, and early in 1948 a large audience enjoyed hearing Madame Alexandra Tolstoi discuss the works of her father, Leo Tolstoi. Now larger and better organized, the Russian Circle is becoming a regular feature of campus life, with Bruce Rutherford, I Pass Arts President, Barbara Tubman IV English vice-president and Harold Bedford II Modern Languages secretary-treasurer, forming its new executive.

Last fall Mr. R. N. Allen of the History department gave a stimulating talk on Russian education. The final and outstanding feature of its 1948 activities was the Russian Concert held on November 18th. This consisted of a program of Russian folk-songs, and dances, including several by Volkoff's ballet dancers. Certain members of the club exhibited their dramatic talents in Chekhov's play "The Marriage Proposal".

As the Russian Circle expands and becomes better known it is hoped many students will spend more pleasant hours in its congenial atmosphere. ♦

INTERNATIONAL STUDENTS' ORGANIZATION

ALWAYS informal, the International Students' Organization is growing in popularity on the Toronto campus. Underlying the club's easy-going spirit is the conviction that through a friendly atmosphere we can do much to develop a broader understanding and respect for the people of other nations.

Membership in the organization includes graduates and undergraduates from all faculties—in short, any one interested in better international understanding.

Social night programmes provide entertaining and educational glimpses of the cultures of various countries, as well as dancing and refreshments to give everyone a chance to get acquainted. Sunday coffee hours make further opportunity for relaxation and informal discussion.

Outdoor activities include sleigh rides, hikes, roasts, and boat cruises, as well as a four day camp held at the close of the school year.

New ventures this year included trips to Ajax for social nights and a Christmas party. The club also initiated a Varsity International Ball held in Hart House for the first time last fall. Attended in national costume dress, the dance was introduced as an expression of welcome to Varsity's guest students from all countries. The Ball further served to integrate the various national social and cultural clubs on the campus with whom the I.S.O. co-operated in its presentation.♣

UNIVERSITY OF TORONTO SPANISH CLUB

FOR some years now the Spanish Club has held its place among the most popular organizations on the campus, and this year has witnessed an all-time high in enrolment. It looks as if the campus has finally realized that the club is not just a gathering place for students in Modern Languages.

The Club *does* offer students a chance to speak Spanish and to hear it spoken, but it offers a good deal more, too. It offers them the opportunity of meeting people from all over the world and of learning more of their customs in pleasant surroundings.

The year's newcomers were introduced to the Club in an interesting meeting which included a talk by Mr. de Chasca, coloured slides on Mexico, delicious Chilean food, and dancing to South American music.

Following a new policy, one of the year's meetings was held in conjunction with another campus club, The International Students' Organization. The two clubs produced some interesting entertainment in the form of national dances from the Ukraine, Spain and Japan.

Other meetings brought forth exhibitions of South American dancing, informal talks by students about summer trips to South America, full length movies and a Spanish play, produced with the enthusiastic support of the University Spanish Department.

As the Club's posters say, "We still can't offer you a *corrida de toros* or a trip to Mexico City, but our meetings provide the next best thing!" ♣

FILM SOCIETY

THE University of Toronto Film Society endeavours to bring before the student body films both of artistic and documentary interest. The 1948-49 membership was over 450 and 10 programs were presented at the Royal Ontario Museum Theatre.

The films shown were selected to gratify every member's taste, and maintain a high level of cinematic merit. Among the feature-length films shown were Eisenstein's *Potemkin* and *Ivan the Terrible* (Russian cinema); *Carnival in Flanders* and *Mayerling* (French cinema); *The Blue Angel* and *Kameradschaft* (German cinema); *Of Mice and Men* and Cavalcanti's *Film and Reality* (American and English cinema); Such distinguished documentaries as *Song of Ceylon* and *Man One Family* further filled out the season, along with several of the short Chaplin comedies: *The Cure*, *The Adventurer*, *The Rink*.

The major enterprise of the season was the production of the Film Society's first film. This was a short documentary describing the social-work activities of the University Settlement. Lloyd Graham was the producer, Henry Kaplan the director, and Graeme Ferguson the cameraman. This film, *As the Twig is Bent*, exceeded expectation and heralds a vigorous creative program for the 1949-50 season. It is hoped that the Film Society may in the near future take its place on the campus as an organization with an ambitious, yearly production schedule of original films. All students eager to learn to use the film medium and participate in creative work will be given their opportunity by the Film Society. ❖

THE Toronto Division U.N.T.D. numbers one hundred and forty this year, a considerable increase over last year.

During the summer, cruises were taken in H.M.C. Ships Magnificent, Nootka, Swansea, Athabaskan, Antigonish, and Ontario, and courses in gunnery, pilotage, seamanship, damage control, were taken in H.M.C.S. Stadacona.

The U.N.T.D. officer training schedule was completely revised at the termination of summer training and cruises. In future all new entries are rated as Cadets on passing a selection board in their first year. Officer Candidates are now rated as Cadets. Two complete summers must be spent training with the Navy besides the compulsory two weeks each summer until graduation from university.

The U.N.T.D. provided colour guards this year for Remembrance Day and the Varsity Homecoming Week-end. Highlights of the year were a smoker in November and a very successful ball at H.M.C.S. York in February. ♦

CANADIAN OFFICERS' TRAINING CORPS

THE University of Toronto Contingent of the Canadian Officers' Training Corps through the past two wars has, in common with contingents at other universities, supplied so many officers for the Canadian Army, that the Corps is now officially recognized as the source of officers for both Active and Reserve Forces.

Over three hundred Officer Cadets of this contingent take practical training each summer for sixteen weeks at Royal Schools across Canada from Valcartier, P.Q. to Esquimalt, B.C. Certain faculties give credit for summer training as required practical experience.

The old impression of the C.O.T.C. training is quickly vanishing. The Officer Cadets now are more likely to be seen in overalls in a machine shop, driving tanks with an armoured regiment, or operating a communications net for a Staff College exercise. In other words, increased defence appropriations have made it possible for University men to study intensively the real work of a modern army.

In addition, this year, the Active Force have attached eight serving soldiers, who are being sent to university to obtain degrees in various courses, and upon graduation to become officers in the Active Force. There are forty-one men in the graduating year who have been taken on strength as second Lieutenants, Active Force.

Lt.-Col. W. L. Sagar is the Commanding Officer. Capt. J. H. Potts (U.C. '49) is the adjutant. Two Active Force Officers, Major H. W. F. Appleton E. D. (U.C. '32) and Major G. MacLean Logan, are attached as Resident Staff Officers. ♦

TRINITY COLLEGE ARTS AND LETTERS CLUB

THE Trinity College Arts and Letters Club has celebrated its third birthday. The Club, since its inception, has striven to maintain a high standard, having programmes with a broad appeal, yet on a definitely intellectual plane. We have tried especially this year to present a varied set of meetings, ranging from philosophy to anthropology, from Rabelais to Dostoevsky.

There are, roughly speaking, three types of campus clubs. There are those predominantly recreational, which play chess and produce plays; there are the political clubs; and there are those which concentrate on the academic side of life, endeavouring to carry the process of education from the lecture room to the more informal atmosphere of the club meeting. The Arts and Letters Club is one of the third type, and during its three years' existence Trinity has come to realize the need for such an organization, maintained free of dues for the pursuit of cultural objects. However, *non semper arcum tendit Apollo*, and the Club does relax long enough to put on the College's one and only New Year's Eve dance.

Firmly established in the life of the College, the Arts and Letters Club can look forward to many more successful years. There will, we hope, always be a large group of students interested in serious yet convivial discussion on the higher planes of knowledge. ♣

LA SOCIÉTÉ FRANÇAIS

IN choosing the modern political satire *Topaze*, by Marcel Pagnol, as its annual production in Hart House Theatre, la Société Française has digressed from its usual tradition of presenting a classical play. This innovation was well received by both the audience and the critics. La Société is indebted to Mr. C. R. Parsons for his skillful direction of *Topaze*, and to a most talented cast, including Mr. John Walker, Miss Barbara Chandler and Mr. Douglas Ney.

The meetings of La Société, held each month, afford a variety of entertainment and a valuable opportunity for contact with French as a living language.

La Société suffered a great loss in the passing on February 16th of an invaluable and enthusiastic member of the Executive, Miss Aileen Miles. ♣

U. T. D. U.

THIS year saw an expansion in the program of the Debating Union. There was a meeting of our society with that of Osgoode, for the first time, over the issue of a Canadian Bill of Rights. A debate in November with an English team from Bristol and Cambridge on decadence in the Empire was perhaps the most entertaining of the year. We stripped McGill's laurels both in Montreal and in Toronto on the topic of national sovereignty and world peace. The new year saw Varsity teams in home-and-home debates with Queens and with Laval University.

A new policy of holding debate tryouts to determine the best speakers for Intercollegiate debates replaced the old hit and miss method of choosing speakers.

The Union figured largely in arranging a series of interfaculty debates on topics provided by the S.A.C. Committee on Intercultural Affairs. Four Mock Parliaments, with the four political clubs taking turns as government and opposition were also included in the year's activities. The Mock Parliaments have aroused wide interest on the campus, debating such motions as an immediate showdown with Russia, condemning the use of European aid as a political tool, and in general bringing critical issues of the day to the fore. ❀

THE UNIVERSITY COLLEGE PARLIAMENT

THE U.C. Parliament is the centre of the debating activities of University College. It provides a forum for the discussion of a wide variety of topics, both serious and humorous as well as being the training ground for Undergraduate debaters. In reading the history of the U.C. Parliament one is struck by the many men, now prominent in politics, business or education, who took an active part in the Parliament during their undergraduate days. The Parliament has indeed "encouraged and developed the capacity for public speaking and debating in University College, and provided a platform for voicing student opinion regarding vital issues", as its constitution requires.

This year a large number of topics was debated, ranging from matters of international importance to questions of more immediate concern to university students. The established custom of having debates with other colleges and faculties was continued this year with S.P.S. and St. Michael's visiting the U.C. Parliament during February. In addition, home-and-home debates were arranged with the University of Western Ontario, a University College team visiting London to debate the question of Sunday sports while a team from Western participated in the U.C. Parliament debate on intercollegiate sports. It is to be hoped that this association with the debating society of Western University will be continued in the future.

The success of the U.C. Parliament depends on the support it can win from the undergraduate body. U.C. students who are interested in current affairs—as all students should be—and who recognize the importance of learning to speak in public—are urged to give to the U.C. Parliament even more enthusiastic support than they have in the past. Both the parliament and the students will gain greatly if that increased interest is forthcoming. ❀

UNIVERSITY COLLEGE MUSIC CLUB

THE University College Music Club was begun in the Spring of 1948, when Gray Knapp decided to draw up a constitution to be submitted to Caput. Since its recognition by that body, the Club has had widespread success, with enthusiastic and hard-working members appearing on every hand to support the work undertaken by the organization. In the early Fall of 1949, the executive, headed by Gray Knapp, Hugh Douglass, Mary Gray and Roy Cairns, made their plans for a very busy year. Due to the efforts of John Linn and Bill Abray with the executive, every one of their ambitious plans has met with phenomenal success, much to the surprise of many of those interested, including some of the members of the executive. The Operetta, "Down in the Valley" by Kurt Weill, was a daring step in itself, but the response was quite satisfying. The Record Hours, held in the Long Common Room of the Women's Union, were very popular until the middle of March, and the U.C. Singers sang as never before, and even aided in rounding out the programme for the Operetta, in February. The Club feels that it is at last established, and looks forward to many more years of similar success in spreading Music Appreciation throughout the College.♣

VICTORIA COLLEGE LIBERAL ARTS CLUB

THE Liberal Arts Club of Victoria College had an active season in 1948-49. The first open meeting was held on November 2nd in Wymilwood, when Mr. Lister Sinclair, radio playwright, critic and author of the book *A Play on Words*, spoke on "The Meaning of Tragedy", including a discussion of Sophocles' *Oedipus the King*, Shakespeare's *Macbeth*, and Ibsen's *Ghosts*. A question period followed.

On January 18 in Wymilwood, Professor H. R. MacCallum addressed an open meeting on T. S. Eliot's *Four Quartets*. Graduate students and undergraduates heard this authority on modern poetry, who has written material on Eliot for *Here and Now* magazine.

February 13, on Sunday evening at nine o'clock, the second student composers' concert was presented. Mr. Douglas J. Valteau attended to details of performance. The audience heard compositions by Desmond Waters, William Marwick, John Kane, Samuel Gould, and Douglas Valteau.

The Wymilwood record hours took place in the second term every Monday and Thursday afternoon at 4:30 in the Blue Room.

At the writers' group, critics this year included Professor J. D. Robins, Professor H. N. Frye, and others. Manuscripts are submitted anonymously for comment by teachers and students, and some of the work is later published in *Acta Victoriana*, the college magazine.

Each year, the club seeks to accommodate its programme to student needs and enthusiasms. Its pride is its flexibility. ♦

VICTORIA COLLEGE DEBATING PARLIAMENT

WITH all due formality the Victoria College Debating Parliament opened the 1948-1949 session with the speech from the throne delivered by the Lieutenant Governor, Dean H. Bennett. In it he outlined the plan of the government to institute a system of impromptu noon-hour debates and to concern itself with social and religious as well as political questions.

The next meeting was an inter-faculty debate where the resolution that Varsity withdraw from Inter-Collegiate football, supported by Vic and opposed by S.P.S., was defeated—Varsity's beating Western and winning the Yates' Cup the preceding Saturday made the result almost a foregone conclusion.

About eighty people entered the impromptu debating series held in the fall term. After elimination to the four top people Doug Maxwell, Stan Kurisko, Fred McFadden and Bill Glenesk debated to decide the two winners who were presented with a trophy, donated by Mrs. Winnifred Thomson, which they will hold for a year.

Members of the Parliament participated in the Inter-Collegiate debates and in the Mock Parliaments organized by U.T.D.U., with which Vic is affiliated, in a Debating Tournament at McMaster University in March, and in a debate with St. Hilda's College.

The highlight of the year was the Senatorial debate where, according to tradition, four faculty members proved to an overflowing House that they could make "nonsense out of sense". ♦

TRINITY COLLEGE LITERARY INSTITUTE

THE past academic year has been one of the more quiet ones in the history of the Institute. In the usual course of events the Government Council changes several times throughout the year; but this year, however, the Government had only one shuffle. The President and two other members resigned due to Academic considerations. But in spite of this political inactivity, it would be unfair to say that the Institute had had an uneventful year.

Some seven formal debates were held and we were most fortunate in having several notable guests at some of these. Professor R. McG. Dawson added an air of authority to a debate of Political theory and practice, while Dr. Webber of the Lord's Day Alliance and Controller Allan Lamport were able to give some rather divergent views on Sunday Commercial Sports. J. K. Thomas, Editor of "National" Magazine and Author Morley Callaghan took opposite sides for debating purposes on the question of whether Canada could support a Truly Canadian Literature. In addition the annual joint debate with St. Hilda's was held in Cartwright Hall and at this the motion: "Ignorance is bliss; 'tis folly to be wise" went down to defeat.

A night of extemporaneous speaking was an innovation that proved fairly popular, and it will probably be enlarged upon next year, to pave the way for wider participation in debates.

The annual Dinner was held early in February, and it was our good fortune that an old U.C. man, Wynne Plumptre of the Department of External Affairs, was able to attend the dinner and give us a most interesting and enlightening talk on Canada's economic position. ♦

THE ST. HILDA'S COLLEGE LITERARY SOCIETY

THE characteristic feature of the St. Hilda's Lit. is that it carries on the activities both of a debating society and of a dramatic club. There is a competition held among the four years in debating and dramatics, and trophies are presented for the winning debate and for the best play. Auxiliary to the Lit. is the Debating Club, which features informal discussion along with cookies and tea on Tuesday afternoons. The Senior Debating Representative presides over the activities of this club.

The season opened with a rousing debate on the relative merits of dogs and men as household companions. After exhibits of both species had been procured from the Humane Society and from Trinity College, the resolution in favour of the dogs was upheld. Resolutions in favour of outlawing communism in Canada, and of sending aid to the Nationalist Government in China, were both defeated. In a joint debate with the Trinity Lit., the old truism—"Ignorance is bliss, 'tis folly to be wise"—, was disproved.

The Lit. has enjoyed the entertaining repartee of Beatrice and Benedict in *Much Ado About Nothing*, the merry choruses of *Trial by Jury*, and the broad rollicking humour of Ben Jonson's *The Alchemist*. We have been most fortunate in the vigorous interest of the Freshman year which indicates a future for the Lit. as successful as this session of '48-'49. ♦

ST. MICHAEL'S CO-OP

ST. Michael's College Co-Operative "tuck shop" has experienced another year of growing pains; but for all its crises the youngster appears to be livelier than ever. Not only has it, in the short time that it has been in operation, begun to realize a sizable profit in its business dealings; but it has also threatened to outgrow the limited premises that it occupies. At present, the Co-Op has a unique position on the St. Michael's campus. Only the Co-Op can offer non-academic surroundings for all the members of the College to meet in, and only the Co-Op can provide such facilities below ground level.

The unqualified success of the Co-Op venture is not to be measured solely by the favourable financial statement presented annually. Rather is it to be realized in the genuinely co-operative attitude that is being developed among the students of St. Mike's as a direct result of this student enterprise. Begun primarily as a student service, the Co-Op now finds itself providing for the physical needs of the students, and at the same time fostering a spirit of unity and mutual co-operation that is so necessary among all. ♣

MEDICAL ARTS AND LETTERS CLUB

WITH increased emphasis being placed on the cultural development of the Premedical and Medical Student, this club has an important function to fulfil in Medical training. The activities of the club are extremely diverse, embracing all manner of cultural attainment; they include discussion groups, lectures and concerts.

This year saw a re-birth of activity in the club; more meetings were held, and more interest was stimulated. The highlights of the Year, reflecting the broad scope of the club, were a concert composed wholly of talent from the student body of the Faculty of Medicine, a reading by Prof. Wm. Boyd, a lecture from Sir Ernest MacMillan, a lecture from Prof. Wm. Line, and a debate between the first and second Medical Years.♣

HOUSEHOLD ECONOMICS CLUB

THIS year has been an eventful one for the Household Economics Club. In the fall, the freshies were introduced to their staff and to the Lillian Massey building at a tea given by the seniors. There, they heard short talks from each year on what to expect in their course, both serious and otherwise. This was followed by a dance later in the fall called the "House.Ec.Hop", to which the Commerce Club was invited. House. Ec. is now firmly convinced that the C. and F.'ers are pretty nice, and the dance was a definite success.

The important Club project of the year was the redecoration of the common room. Through the co-operation of staff and club members, the room has taken on a "New Look" of which we are very proud, especially because the sewing was done by our own girls.

In February, Miss Carol Good again presented a fashion show with models from our course and featuring "Clothes for the Business Girl in House. Ec. Jobs".

The year was climaxed by our second annual "House. Ec. At-Home" at Casa Loma. The success of the dance was further enhanced by entertainment by Ben Foreman of the All-Varsity Revue.

The enthusiastic executive helped to make the year one of great success for our club. ♣

AMERICAN SOCIETY OF MECHANICAL ENGINEERS

IN its fifteenth and largest year as an organized student society, the University of Toronto Student Branch of the A.S.M.E. boasts a membership of 352, including students in Engineering and Business and Engineering Physics in addition to those of the parent Mechanical Course. Evidence of both keen interest (and super salesmanship) is the fact that a full three-quarters of the graduating class in Mechanical Engineering are student members.

Following the course set by the Executive of previous years, the Branch co-operated closely with the Mechanical Club, and meetings were held on a joint basis.

The first meeting of the year was held just prior to the Christmas vacation dinner in the Great Hall; Dr. O. Holden, Assistant General Manager of the Ontario Hydro-Electric Power Commission spoke on "Water Power in Canada".

A second dinner meeting held by the Mechanical Club featured Mr. D. W. Boyd, Chief Design Engineer for A. V. Roe Ltd. "Mr. Jet of Canada", who was chairman of the A.S.M.E. Student Branch in 1938-39, gave a very informative and authoritative talk on the development of our Canadian jet engines.

A Student's Papers Competition is planned for early March. In addition to Cash prizes, the winner will have the honour of representing this Branch at the Region V Student Conference to be held at Ohio State University where he will compete with speakers from other universities. ♦

S.P.S. AERONAUTICAL CLUB

TIME seemed to be the main deterrent to club activities this year. This defeated the fine efforts of George Reid and others to promote member interest in the Toronto Gliding Club. However, assuming that the low membership fee obtained from them remains in force, I believe that the Aeronautical Club can look for more extensive gliding activities next season, since the T.G.C. will have moved to a more convenient location.

Interest in this activity was heightened by a sound film on Gliding and an enthusiastic talk, given at one of the Club Meetings by Mr. Jack Ames, President of the T.G.C.

At this same meeting Mr. D. Buckingham gave a thesis talk on the testing of Aircraft Components. Such thesis talks are of great value and interest to both speaker and listener.

A very excellent field trip to the Steel Company of Canada was enjoyed by about seventy club members in December, and we are, at this point, looking forward to an even more interesting and aeronautically significant trip to the Aluminium Company at Kingston.

The possibilities of the combined field of thermodynamics and aerodynamics were ably presented to the Club by Mr. F. E. Keist, Chief Aerodynamicist of the A. V. Roe, Gas Turbine Division. His presentation of the history and possible future of the gas turbine as a prime mover has shown the usefulness of our course in mathematics and aerodynamics, but has left some doubt as to the adequacy of our thermodynamic training for this field.

This year we have deliberately delayed the Club Banquet until the end of the term in hopes that it will be a final relief from work and "a chance to say farewell" before the summer work begins.

The best of luck and success to the next executive!♣

S.P.S. CIVIL CLUB

THE Civil Club on the Toronto campus was composed of third and fourth year students and had its counterpart among first and second year students at Ajax under the leadership of J. Bahen. Club activities in the first term included a field trip to De Cew Falls to familiarize us with power development; a dinner meeting held in Hart House on November 30 at which Mr. R. B. Young of the H.E.P.C. Research Department discussed the use of concrete in power dam development; and a tour, followed by a discussion period and luncheon, at the Canada Cement Company's plant at Port Colborne on December 16.

The most colourful event of the year was the Civil Club Dance held at the Savarin Hotel on January 19. We had a good turnout of club members, augmented by the presence of Professor Loudon, Professor Morrison, and Professors Huggins, Long, and Huber.

The final meeting of the year was held at Crothers construction equipment plant in Leaside on the evening of February 9. Movies showed the use of various pieces of construction equipment, and a tour of the plant gave the club members an opportunity to see this equipment.

Sincere thanks are due to the members of the club executive, for their splendid cooperation. ♦

SECOND ROW: A. G. DOUGLAS, T. L. FAUL.
FIRST ROW: B. T. FERGUSSON, E. FEDRYK.

S.P.S. DEBATES CLUB

CLUB activities began with an open informal debate among members of the club. On November 16 the senior School team lost to the Ajax team in a debate at Ajax, but this loss was more than recovered when S.P.S. defeated Vic. on the question of intercollegiate football at a session of the Victoria College Debating Parliament.

Interest quickened after the New Year in a rush to complete debating programs before exams came. At the time of writing the annual Segsworth Debating Competition has not yet been completed. Last year's winners are again representing Ajax, and the senior team will do the utmost to recover the trophy. A "Home-and Home" debate with McGill engineers is scheduled for February 22 on a resolution concerning the importance to engineering of a free enterprise economy. Debates with U.C. and other arts colleges are planned for the latter part of February.

We are confident that the end of the term will conclude another successful year in the activities of the Debates Club♣.

S.P.S. ELECTRICAL CLUB

THE Electrical Club of 1948-49 looks back on a year of varied and interesting activities. The fall term started off with a field trip, in the latter part of October. Third Year members went on a one day excursion to inspect the Stelco and Westinghouse Plants in Hamilton, while fourth year visited the H.E.P.C. Generating Plants at Queenston and Decew Falls.

Mr. W. A. Carruthers of the Bell Telephone Co., our Honorary Chairman, was the guest speaker at a Smoker in November. His talk on "Engineers in Public Activities" was most beneficial.

The annual Electrical Club Dance started the Christmas holidays the right way, and was very successful.

During the Xmas holidays, several members took time off from cramming to build a Tape Recorder for the S.A.C. Radio Committee. The Electrical Club has committed itself to providing technical assistance to this Committee as they continue developing their University Radio Station. It is felt that much benefit will be obtained by those interested in communications in this endeavour.

The formation of the Junior Branch of the I.A.E. in conjunction with the Junior Branch of the A.I.E.E. was accomplished, and is rapidly filling a need created by the increase in Communications subjects.

Both Junior Branches held student nights in conjunction with the Toronto sections of A.I.E.E. and I.R.E., at which student papers were given. This opportunity for addressing an audience on a technical subject is invaluable, and many thanks are due the Senior Sections for their interest in these meetings. ♣

S.P.S. ENGINEERING AND BUSINESS CLUB

THE Engineering and Business Club, since it counts among its members the most aggressive Schoolmen, is perhaps best known for its Skule Spirit. It seems that the boys of "Eng. Biz" are always in the background of any School function. The dinner, the At-Home, Skule-Nite and the Grad Ball all counted our members in large numbers on their respective Committees. The less formal events of the year—the "kibitzing" at the football games, the Auction, Feather Fair, Chariot Race, and finally the kidnapping of the Meds' Vice-President—depended largely on our boys for their success.

All this Skule and Varsity activity left little time to our members for strictly Club activities. Fourth year had two very successful field trips. The first, to the Toronto Stock Exchange, was the best-attended trip we have ever taken, ninety-two of our ninety-seven members attending. Here we witnessed the bedlam on the floor which we shall eventually control, and the intricacies of the machinery which we shall never design. Our second trip, to Hamilton, had a double purpose. Half the course saw Stelco in the morning, while the other half witnessed the wonders of Westinghouse. The day was crowned with a happy and memorable bus ride back to Toronto.

We take this opportunity to thank the members for their cooperation, and to wish them all the best of luck in their bright futures. May the new executive make our Club tops, not only in the Faculty, but on the Campus; we wish them the best of good fortune. ❀

SECOND ROW: D. F. PRUNER, G. A. PON, F. A. KOTTMEIER.
FIRST ROW: DR. A. A. BRONT, J. P. WALTER.

S.P.S. ENGINEERING PHYSICS CLUB

At the first meeting, Professor B. Wilkinson gave an interesting and stimulating talk on the United Nations Organization and world affairs. A lively discussion followed.

Field trips were organized by the various options. Third year Communications students visited several local industrial plants. The Geophysics Option made a trip to Wilberforce, where an old mine was examined and many mineral specimens obtained. Professor S. E. Wolfe gave a preparatory discussion of the regional mineral occurrences. The Refrigeration Option, in conjunction with the A.S.R.E., visited the Port Hope plant of the Brunner Corporation.

Discussions were planned to familiarize the Ajax students with the various options. Professor J. T. Wilson pointed out the branches of the Geophysics field illustrating his talk with maps and slides. Professor J. E. Reid presented an interesting talk in radio equipment used by the Ontario Provincial Police. Several senior students with practical experience attended these meetings, and took part in the discussions. Professor F. G. Ewens gave a talk on the Refrigeration Option, and the various aspects of the Spectroscopy Option were discussed by Dr. H. L. Welsh.

Professor K. B. Jackson contributed largely to the success of the visit to the laboratories of the National Research Council, Ottawa. The arrangements by Mr. S. J. Cook, permitted the inspection of the maximum number of research projects in the available time. Financial assistance given by the Department of Veteran's Affairs was greatly appreciated.

At the Annual Dinner in Hart House in February Dr. E. C. Bullard gave a talk on "Rockets". ♣

S.P.S. INDUSTRIAL CHEMISTRY CLUB

THE first item on this year's agenda was fulfilled when the fourth year took a field trip to Chatham, Wallaceburg and Sarnia to visit, respectively, the sugar refinery, glass works, synthetic rubber plant and oil refinery. The third year took field trips to Victory Mills Malting Company and to the oil refinery at Clarkson.

Early in December, a mixed party for both third and fourth year members was held at the Savarin Hotel in Toronto. It was the first time the Club had attempted a mixed party, and we feel that it met with much more success than a stag party would have.

The first formal meeting of the Club was held on December 8th at which time the club was addressed by Mr. Comron of the Clarkson B. A. refinery who spoke on "A Comparison between 'Thermal' and 'Fluid-Catalytic' Cracking".

Late in January, the second formal meeting took place. This consisted of a projection of sound movie films, which were loaned to us by the Goodyear Tire and Rubber Co., on the subject of synthetic rubber and tire making.

The third formal meeting took place on February 8th, when the Club was addressed by Dr. Larmour of the Maple Leaf Milling Company. His subject for the meeting was the importance of Industrial Research as applied to food chemistry.

The fourth and final meeting of the Club will take place on March the 21st at Malloney's Art Galleries. This final meeting will consist of a dinner and a speaker to address the members afterwards. ♦

S.P.S. MECHANICAL CLUB

AS in the past, the activities of the Mechanical Club were entered into in cooperation with the student branch of the A.S.M.E.

On December 14th, after a dinner in the Great Hall in Hart House, we were privileged to hear Dr. Otto Holden of the H.E.P.C. speak.

A very successful meeting was held on Tuesday, January 25th, in Hart House. The dinner in the Great Hall was followed by adjournment to the Debates Room, where we heard Mr. W. Boyd, chief of the design team at A.V. Roe (Canada) Limited, speak on "Jet Engine Development in Canada." The talk and slides were thoroughly enjoyed by the large audience.

Field trips for the seniors were arranged, and included visits to DeCew Falls and Queenston, Steel Co. of Canada, Massey-Harris Ltd., Eaton's, Central Terminals and Royal York.

At the time of writing, plans are under way for a final "do" near the end of February.

May I take this opportunity to thank the members of the executive of the club and other members for their co-operation during the year.

Best wishes too for success next year, when there will be a single club for all four years. ♣

S.P.S. MINING AND METALLURGY CLUB

THE year's activities began with a Smoker that struck an all-time high in the Club entertainment. The success of the event was due to the ready cooperation of the Club members who put on the entire show, one which will not soon be forgotten.

Mr. John Ness of Imperial Oil gave a talk on Canada's newly won position in the world as an oil producer. He illustrated his address with two reels of film.

A highlight of the season was the annual joint meeting with the Toronto Branch of the C.I.M.M. at the Royal York Hotel in December, sponsored by the Toronto Branch and Mr. J. Beament of Fahlloy Ltd. Mr. R. Diamond of Consolidated Mining and Smelting Co. was the guest speaker. Mr. Diamond outlined the activities of his company, and as a graduate of Skule offered some timely advice and encouragement to the undergraduates.

In January Mr. R. Smallman-Tew, metallurgist with A. V. Roe Co., spoke to the Club on "Aircraft Metallurgy". In February Mr. J. S. Parsons, chief engineer in the research division of Photographic Survey Co., presented the latest techniques in the use of the "Airborne Magnetometer".

The final meeting of the Club took the form of a dinner, with Mr. W.F. Loughheed, economist with the Canadian Bank of Commerce, as guest speaker.

We wish to express our gratitude to the hard working executive committee, and to extend our congratulations to Syd Wright and his executive for their work at Ajax.♣

PUBLICATIONS

THE VARSITY

For 100 days of every year The Varsity supplies students with a constant stream of news, features, pictures, and opinion to keep them in touch with university activities and awake in lectures. Putting out the undergraduate paper is a round-the-clock business. Pictured above are some of the many operations: In the left panel (left to right) AMD Ed. Ernst Oppenheimer discusses a fine point of criticism with Feature Ed. Harry K. Rasky; taking care of the sports page are Bill Ross, Hank Westcott and Joan Eddis; Asst. News Ed. Lois Martin and News Ed.

Jay Habel decide on the day's top story; Managing Ed. Al McGuire, Editor-in-Chief Mark Harrison, CUP Ed. Dorothy Herring and Women's Ed. Joan Hume admire the Bracken Trophy, won by The Varsity this year; down in the dark room Photo Ed. Don Forgie and assistant Gord McDonald develop tomorrow's "pix"; Make-Up Ed. Don Weinert and Asst. News Ed. Wils Harrison decide on a page layout. In the right panel we see some of the operations at the printing plant in Oshawa.

TORONTONENSIS

WE claim the distinction of having one of the few write-ups that do not start with the idea that "This has been the best year ever". There have been, and there certainly will be, better issues of *Torontonensis* than this one. We have faced difficulties peculiar to a year whose graduating class is the largest it has ever been, and we have not always overcome them; but if in 1950, or 1960, or 1970, you can peruse this book and say, "That's what it was like when I was at Varsity. Ah, those were the days!" then we have been successful. We tried to produce a book that would stand the test of time.

The people you see above were only the nucleus of a staff of fifty. For these others the work was often very dull, and the reward was intangible. They will never hear your praise or blame. To judge their work too harshly would be to scorn a favour freely given. But perhaps this admonition is unnecessary; we hope, and we think, that you will enjoy your *Torontonensis* more and more with each passing year. ♣

FORUM

IN its two years of existence on the campus, *Forum* has had a chequered career. The second in a series of similar attempts by other groups, it is a striking testimony to the vitality of the Varsity student who, under pressure of energy and finances, will nevertheless create the organ needed to convey his convictions.

While motivated primarily by the desire to view contemporary issues in the light of Christian thought and principles, it also reflects very strongly problems peculiar to the student. Being a bi-monthly paper (theoretically at least) it can analyze them without the pressure of daily deadlines. But it is precisely this attempt to be more than just a recorder of campus events or a political pamphlet, which causes the growing pains.

The enlargement of *Forum* to an eight-page paper during the first term facilitated the inclusion of permanent features such as *Canadiana*, *Student World in Review*, *Symposium* and *Forumally Speaking*. Because of time and finances however, it was deemed advisable to revert to the four-page tabloid during the second half of the term. Whether this format will be a satisfactory one, in view of the many and diverse topics handled, remains to be seen. At any rate, in spite of the varied fortunes characteristic of many such journalistic enterprises, *Forum* is convinced that it is fulfilling a need and is optimistic about its future. ♣

U. C. UNDERGRAD

THIS year, the University College magazine appeared in four issues. The "Activities" issue of last year was replaced by a section in each issue devoted to college events. The editors of this year's *Undergrad* sought to encourage the literary endeavours of all those who could commend topics of interest to their colleagues, and to direct those who were already proficient in literary expression toward subjects of value and importance. We are especially proud of the forty-odd students whose work appeared in the *Undergrad* for the first time this year. Special mention should be made of the excellent art work by students of the college, as illustrations for various contributions.

Congratulations are in order for Ray Whaley and his business staff for financing the *Undergrad* under its budget, for the first time in several years.♣

TRINITY UNIVERSITY REVIEW

THE above masterpiece of photographic art represents the *Review* Board as some of our readers conceive of us. We have had a good year in more ways than one. Two important changes have been made on the administrative side . . . both forced upon us by the murderous cost of printing these days. First, with many an ill-concealed tear, the editorial section of the masthead bade farewell to their honoraria. Secondly the College demonstrated the high esteem in which it holds our efforts by allowing itself to be squeezed for an extra fifty cents per person.

On the literary side, we stood by our firm conviction that the major function of a campus literary magazine is to discover new writers and to encourage them as much as possible, while not allowing the old contributors to fall below their own best achievement. The former purpose always leads to howls from the College, since the literary quality of most beginners' work is potential rather than actual, and this year has seen no exception.

The addition of an Art Editor to the masthead . . . an experiment this year . . . has been a great success, and our pages have been elevated and lightened by serious and humorous work of high calibre.

Our grateful thanks go to Dr. Roper for the able and pleasant manner in which he has chaired our meetings in the absence of Dr. Barker; to the Business and Advertising Managers for their skilful methods of making our revenue cover our costs; and to the Board as a whole, for its sense of humour. ♣

THE MEDICAL JOURNAL

THE two-fold purpose of the *Journal* is to encourage the writing of articles by medical students on topics of interest to them, and to report on recent advances in Medicine.

This session, the Editorial Board embarked upon the twenty-sixth year of publication of this, the oldest undergraduate medical journal in North America, with the objective of producing a journal of which the Faculty of Medicine would be proud, and which would carry far afield, without discredit, the name of the University of Toronto. They endeavoured to make the *Journal* as effective a medium for student expression as possible; to provide a greater opportunity for participation in its production, and thus to make it truly reflect the interests and ideas of all the medical students. Every undergraduate was encouraged to contribute, and the alumni and members of the Faculty were requested to provide maturity and authority, and to assist in the attainment of a high standard of medical literature.

Throughout the session, excellent interest and co-operation were shown by everyone. Articles and abstracts were contributed by undergraduates—from the First Premedical Year to the Fourth Medical Year—by alumni now in practice, and by members of the Faculty; and outstanding results were achieved in the expansion programs of the advertising, circulation and exchange departments. To them all, and to the entire *Journal* Staff goes the credit for the very successful publication of Volume XXVI of the *University of Toronto Medical Journal*. ♦

TOIKE OIKE

CARRYING on the style set last year, *Toike Oike* again appeared as a four page tabloid, informing the Engineering Students of all activities around the "Little Red School House". A limited budget and increased expenses allowed *Toike Oike* to be published "every now and then" but the ten issues covered all the important events.

As well as keeping the Schoolmen informed, *Toike Oike* ran humorous and interesting feature articles. The popularity of *Toike Oike* showed that it was what the students wanted.

The editors are Engineers first; they play around with Journalism as a hobby. Consequently, the Engineering Society's publication did not attempt to attain literary finesse, but only wrote good, readable material.

Before the one and only *Toike Oike* typewriter is covered for the last time, much credit should be given to the people whose aid was invaluable in "putting the paper to bed". Their contributions and work were some of the reasons why this publication was always in demand.

First of all, bouquets of roses to Harriet Grover, who did much to fill the Sports page every issue. Then there are the two and only Ray Wherham and Tony Stonehill, whose articles under the byline of Bryerson and Guiseppe, kept the lads in stitches during lectures. Jim Fydell also did much in "putting the paper to bed".

There are many others whose timely contributions added greatly to the success of the paper, but space prevents us from mentioning their names. To all of them, for their much-appreciated efforts, we give a rousing "*Toike Oike*". ♦

TRANSACTIONS AND YEAR BOOK

TRANSACTIONS and Year Book is published annually by the Engineering Society as a permanent record of the year at School.

In prose and pictures the events of the year are reported along with a record of those whose leadership and hard work have made them possible. The proceedings of the big three, The School Dinner, The School-at-Home and Skule Nite are transcribed in detail. The sports scene is covered. The picture of every participant is preserved for posterity along with a commentary of the triumphs and heartbreaks of the teams' encounters. The club and year executives report the success of the trips, dances, and dinners which they have organized.

So we set forth the record—as a seed for remembrances for those who have participated, and for the edification of all others. ♣

THE ANNUAL RING

THE *Annual Ring* is the official yearbook of the Faculty of Forestry. This is its second year of publication. The students of Forestry have shown keen interest in the book, and have given it their enthusiastic support. This year's issue which came out in February, contained a message to the graduates from Dean Sisam, and several fine articles by student contributors.

An award has been established for the best piece of writing published in the *Annual Ring*. This year, J. C. Pringle won it for his article entitled "Marriage and Forestry". At the annual Banquet and Dance of the Foresters' Club and Athletic Association, held at the Royal York Hotel on February 14, Dean Sisam presented the prize to Mr. Pringle. ♣

HYA YAKA EDITORIAL STAFF

HYA YAKA

HYA Yaka, the Dentistry Undergraduate Yearbook, is making a bid to stimulate greater interest among both the student body and the graduates. A wealth of talent in the literary and pictorial fields is unexplored year after year—we should like to tap a major portion of this. We should like to make as much use of this as our limited funds allow.

The size of *Hya Yaka* has been increased to give a good double-column type and larger feature pictures, to make for more pleasant reading.

The editorial staff, coping with a fierce academic timetable, have nevertheless produced a book which embodies the best in creative work of the student. It will be of special interest to the graduating class, providing them with a permanent reminder of long-forgotten events about the school and campus. ♣

SAINT HILDA'S COLLEGE HOUSE COMMITTEE

SINCE St. Hilda's is a College and not a residence, it has its own institutions. The most important of these is College Meeting, the organ of Student government to which all Women of College, resident and non-resident, belong. It controls the expenditure of funds for the library, music, charity, and entertainment; from it are elected representatives to the S.A.C. and N.F.C.U.S., as well as other officers of a more domestic nature.

House rules and activities are generally given consideration by the House Committee before being presented to College Meeting, where along with other business, they are discussed and voted upon. The House Committee is made up of the Principal, Mrs. Kirkwood, the S.A.C. representative, and two members of each year. These include the Head of College, and the Heads of the three other years chosen for their academic standing.

St. Hilda's is the oldest chartered women's College in Canada; in 1949 it starts on its second sixty years.♣

HOUSE "73"

"73"

for twenty-two years a "temporary" residence in University College, is now an institution rich in traditions. Every year new members make additions to the body of tradition, but the past is ever present in the house. Whether we consider the curious post of "ballet master" (the house disciplinarian), or the ignominious, head-first, newspaper-swatted descent of initiated freshmen down the house staircase, we must look into the past to find a rational explanation—if there is one.

This year the proportion of matured veterans to raw high-school youths has decreased, but no discernible sobering effect has been produced by this change! It should be noted, in all seriousness, that the relations of veteran and non-veteran have been in "73" as elsewhere, most satisfactory and mutually beneficial. We shall miss the vets in "73".

Official activities in "73" include initiations, dances, house meetings, discussions in the tutor's room, and a final dinner in the spring. Although many look back wistfully to the sonorous oratory at house meetings and the carefree festivity at dances, it is perhaps in less formal events that the essence of house life may be found. Who can forget the exciting skiing week-end in Haliburton or the nocturnal bull sessions when wisdom was nonchalantly hurled back and forth? Who will recollect without nostalgia the sumptuous breakfasts cooked in the bustling kitchen by potential "House Ec." students, or the numerous games of ping-pong lost during those two-hour breaks between periods of study?

If this eulogy sounds sentimental, there is no need for excuses, for "73" is a place about which one can be sensibly sentimental. ♣

HOLWOOD HOUSE

TO some students Holwood House is merely the stately mansion on Queen's Park Drive beside Wymilwood, the women's residence for Victoria College; to some it is a monument to past prosperity; to some people it brings back memories of the war when it was a barracks for Wrens; and, unfortunately, to some people it is relatively unknown. However to those persons who are more intimately acquainted with Holwood House it is no longer the symbol of wealth or beauty but a throbbing, democratic hive of activity, where some three-score male students mingle in an atmosphere of friendly association and academic endeavour. We who have been fortunate enough to share in the life of Holwood are justly proud of the part many of our members have taken in university organizations, and of the academic record that has been maintained. Despite the small number of residents, several of our members gained positions on executives throughout the university; spirited hockey and basketball teams have competed in university competitions; Holwood men were seen in the middle of such activities as the Feather Fair and the Western Parade. At home we temper our academic pursuits with dances, bridge, ping-pong and horseplay. Holwood may not be perfect but we're proud of it; to us it has been the ideal complement of life at college. ♦

CAMPUS CO-OPERATIVE RESIDENCE

THE housing shortage, high rentals and dreary boarding houses hold no perils for this group who have solved these problems by owning and operating their own co-operative residences.

The Campus Co-operative Residence Incorporated had some ninety-six members this year, with three men's and two girls' houses. They adhere to the Rochdale principles of all co-operative organizations; that is, operating at cost, with the members receiving a patronage dividend at the end of each year. Each member has one vote at the monthly general meetings, where policies are discussed and problems solved in a democratic way.

There are no labour problems in this organization either, for all the work in the houses is done by the members. Each individual's specific talent, be it writing for the *Co-op News*, plumbing or furnace tending, is fully utilized.

But it's not all work; dances, hikes, sleighrides and discussion groups provide a well balanced programme. Students from all faculties, all countries and of every political and religious creed meet here to exchange viewpoints. Co-operatives pay dividends and the greatest of these is the social and intellectual stimulation of learning to live in "the co-operative way". ♦

AJAX JOINT HOUSE COMMITTEE

THIS year the residence has welcomed a new Housemaster, Dr. Stanley Hartroft, and the house would like to take this opportunity of wishing him a happy stay.

For those members in the house at Christmas time, the doctor held a highly successful, informal party on Christmas Eve.

Due to the acquisition of an amplifying system, a very enjoyable programme of Friday night dances was organized by the Social Directors, Frank Payne and Chuck Courts, with the object of allowing the unusually large influx of new members to get to know each other.

Except for table tennis, no sports were organized during the fall term due to the lack of space in Hart House; but Bob Shaw, the Athletic Director, promises us an intensive schedule this term.

A vote of thanks is also due to Stan Butcherd, House President; Hal Walkley, Vice-President; Al Taylor, Treasurer, and Hil Austin, Secretary. ♣

WOMEN'S
ATHLETIC

WOMEN'S INTERCOLLEGIATE ARCHERY TEAM

SECOND ROW: BERNICE MUIR, *Captain*, JEANNETTE MARTIN, PHYLLIS BURKE.
FIRST ROW: JOANNE ARROWSMITH.

ARCHERY

THIS year a women's Archery Club was formed for the first time on the Toronto campus. In October, a team consisting of Phyllis Burke, Jo. Arrowsmith, Jeannette Martin and Bernice Muir entered the Intercollegiate Archery Meet held at McMaster, in which McGill took the top honours with the Varsity team in fourth place.

Bernice Muir was second highest individual scorer in the tournament. In March, the Toronto team won an exhibition match with McMaster. ♣

TENNIS

FOR the first time, the faculties of Nursing, Physical Therapy and Occupational Therapy took part in the Intramural Tennis Tournament. These groups had previously been unable to enter the tournament because of timetable clashes. This year however, several enthusiastic players managed to play in their spare time and hand in the results.

The two semi-finals were closely contested with Pat Cockburn playing a hard driving game to defeat Ev. Aitken, while Pat Montgomery defeated the defending champion, Jane Matthews. After a match of both endurance and skill Pat Cockburn then defeated Pat Montgomery to win the Intramural Tennis Championship.

The Intercollegiate Tennis team of Pat Cockburn, Pat Montgomery, Ev. Aitken, and Jane Matthews set off for Queen's with Joan Hume as manager. There they met stiff and experienced competition; however, the Toronto team played all-round tennis with Pat Montgomery winning all her matches and the other players dropping only one or two. The Varsity team tied for first place with McGill, Queen's was second and Western and McMaster trailed the league. ♣

WOMEN'S INTERCOLLEGIATE BADMINTON TEAM

CLAIRE JEWETT, ELIZABETH RUSSELL, MISS EDITH MARSHALL, *Coach*; MARY RUSSELL, *President*; MARY MATTHEWS.

BADMINTON

THE 1948-49 season of the Badminton Club was very busy and successful. The season started with the commencement of the various college and faculty tournaments and ended in February with the Intercollegiate meet. The college and faculty tournaments started in October and continued next term to the end of January. St. Hilda's had the most successful tournament as far as the number of entries is concerned. The Intramural tournament followed the college tournaments. This year the Intramural was again an open tournament. The time allotted for the tournament was sufficient to permit the running of a doubles tournament in addition to the regular singles tournament. P. & H. E. gained top honours, with St. Hilda's coming second. Elizabeth Russell defeated Pat Montgomery (both of P. & H. E.) to win the Intramural singles championship. The doubles team of Mary and Elizabeth Russell defeated Pat Montgomery and Mary Matthews to win the Intramural doubles championship.

After the Intramural tournament, the Intercollegiate team of Mary Matthews, Claire Jewett, and Mary and Elizabeth Russell, practised for the meet with the very capable guidance of their coach Miss Edith (Johnnie) Marshall. London was the scene of the Intercollegiate meet this year. Western won the meet with Varsity and McGill tied for second place one point behind.

The doubles team of Mary and Elizabeth Russell, the defending champions, managed to come through again undefeated to retain their Intercollegiate title for a second year. ♣

WOMEN'S INTERCOLLEGIATE TENNIS TEAM

PAT MONTGOMERY, PAT COCKBURN, EVELYN AITKEN, JANE MATTHEWS, *President*.

WOMEN'S INTERCOLLEGIATE BASKETBALL TEAM

SECOND ROW: PERSIS HUGHES, MARY-CLARE THOMAS, SHIRLEY SPECK, HELEN PROVERBS, *Manager*, BETSY McFAUL, ROSANA KELLY, *President*; GWEN SMITH.

FIRST ROW: LILLIAN LAAKSO, BETTY FITZGERALD, ANN BRADSHAW, *Captain*; ELEANOR LEVER, JANE CLOKE.

INSET: NANCY SOOTHERAN.

ABSENT: MISS MICKEY BARNETT, *Coach*.

BASKETBALL

BASKETBALL had a very successful year in 1948-49. There were twenty-four teams entered in the Intramural tournament which was a record number. Practices began the second week in October and although handicapped by the "blackouts" during the basketball season the schedule was carried out with no cancellations. There were six leagues of four teams each. The semi-finals and finals were played in Hart House in December with P.H.E. III as the victors. Physio A was the runner-up.

The Intercollegiate Basketball Meet was held in Toronto on February 25-26. The Toronto Team consisted of six U.C. co-eds, four from P.H.E., and one from St. Mike's and St. Hilda's.

The games were played in Hart House and O.C.E. Toronto defeated Queen's, McGill and Western to win the Intercollegiate Championship and to bring the Bronze Baby back to Toronto after a year's absence. The Varsity squad also won exhibition games with O.C.E. and McMaster. A banquet was held for all the visiting teams after the tournament which promoted good-will between the different Universities.

Mickey Barnett, who coached the Varsity team, is to be commended on her excellent work, which played an important part in bringing the Championship back to Toronto. ♣

BOWLING

THE Bowling Club wound up its activities for the year in the annual Bowling Tournament which was won by Sandy Snider and Jean Myers of Victoria.

Advantage of facilities extended by the Midtown Bowling Alleys was taken by some 200 students during the year. Scores ranged from 40 to 300, and many discovered that bowling is a skill which practice helps perfect. However, though it is a minor athletic field, it yielded enjoyment, exercise and a lot of fun for those who participated. ♣

WOMEN'S INTERCOLLEGIATE VOLLEYBALL TEAM

SECOND ROW: MARGARET DOYLE, PAT CONWAY, THELMA HENDERSON, SHIRLEY BROWN, CATHERINE CATTO.

FIRST ROW: JOAN IRWIN, JOAN GALT, *Captain*; NONIE CLARKE.

ABSENT: FEARN SMITH, EVELYN AITKEN, DOROTHEA JONES, BOBBY BEATON, *Coach*.

VOLLEYBALL

THIS year, eleven faculties were entered in the sixteen team Intramural Volleyball tournament. The referees were trained by Miss Forster and the season started off without interruption. Later on in the season the ceiling of Lillian Massey gym needed repair and the games were halted for a short time. Then games were resumed and games were played five nights a week. The finals saw P.H.E. "I" winning the championship by defeating U.C. "I" in a close and exciting game. Both rotation and non - rotation play was well displayed in this game indicating the skill being developed in the Volleyball Club.

From the Intramural teams, an All-Varsity team was chosen with Bobby Beaton as coach. A home and home series was held at Toronto and McMaster resulting in a double victory for the Varsity team. The scores were 44-19 and 55-37. Joan Gault and Thelma Henderson proved to be the powerful players of the team.♣

SOFTBALL

THE Softball Club had a successful, though rain-splashed year. A total of twelve teams representing St. Hilda's, St. Mike's, Victoria, Meds. P.H.E. and U.C. were entered in the league. Thirty-three games were played. Enthusiasm ran high throughout the season. Competition was close with the final outcome doubtful until the last strike had been called.

Due to the temperamental weather conditions, games continued until Nov. 16th when P.H.E. I and Vic. I met for the third time as in many years in the finals. Vic. took the first game in the best of three series with P.H.E. clinching the final two, to retain the championship for the second successive year.♣

WOMEN'S INTERCOLLEGIATE SWIMMING TEAM

SECOND ROW: MARION MULLOY, PAMELA PERRIN, MAUREEN MARTIN, MISS WINIFRED BAXTER, *Coach*;
INNA CHUHALDIN.

FIRST ROW: PEGGY QUIGGAN, ZAIRA MURRAY, MARGARET HARRINGTON, ANN MALCOLM, *President*;
PHYLLIS MANNING.

SWIMMING

THE Swimming Club had a very busy and successful season, lasting from September until March. The Intercollegiate practices began in September and on December 4th, five Universities met at McGill for the annual Swimming Meet. McGill won the Meet with 28 points and Toronto came second with 27 points. Marg Harrington of Toronto set the pace for the new medley race—breaststroke, backstroke and free style. Her time was 54.5 seconds which will be a challenge to future medley racers. Marg also won the 50 yard free style, and Toronto placed in all events except one.

The Intramural meet was held at Hart House on March 5 with P.H.E. winning by a good margin. Vic put up a strong fight for second place and U.C. came third. Marg Harrington and Ruth Pullan tied for top individual honours and Jean Cossar, the one-man Physio team, tied with Pam Perrin of Vic for second place. The P.H.E. free style relay team broke its own previous record.

Special thanks are in order to Winnifred Baxter who coached the Intercollegiate team and to Ann Malcolm who was President of the Club. ♣

GOLF

THE University College Invitation Meet was held at St. Andrew's Golf Club on October 15th. Girls from P.H.E., Victoria, St. Mike's, and O.T. accepted the Invitation and challenge. Ann Sharp, P.H.E. received the top honours with a score only 5 above par and was followed by Nancy Goetz of St. Mike's. Pat McMurtry, U.C. won the sealed holes event. The U.C. team of Pat McMurtry, Cherry Gauthier, Dorothy Hiscocks and Jane Abbot, out-shot the St. Mike's team by three strokes.

Those who participated enjoyed a beautiful day and a wonderful sport. ♣

WOMEN'S INTERCOLLEGIATE SKI TEAM

MARGARET ANN MCKEE, CONNIE SPARROW, *Captain and President*; ANNE SHARP, PAT ELLARD.

SKI TEAM

This year was very poor for all skiers, except for the more enthusiastic women, who managed to find enough snow in Huntsville, Collingwood, the Laurentians and even our own ski grounds at Newmarket.

Pat Ellard, Vic III, and Conn Sparrow, U.C. III, members of the Intercollegiate Team for the past two years, were back on it again, with Pat coming in third in the combined events at the McGill Winter Carnival, held in St. Sauveur, where the team came out second best behind Middlebury College, beating McGill for the first time since 1939. Also on the team was a newcomer to Varsity, Anne Sharp, PHE I, who won the Proudfoot Trophy, awarded to the best woman skier on the campus. Margaret Ann McKee, U.C. III, although never in serious competition before, certainly kept the Toronto spirit high with the way she took the toughest courses.

Joy Hallett, Trinity IV, won the Intramural Individual Championship and was runner-up for the Proudfoot Trophy. U.C. entered the strongest Intramural Team, with Barbara Davidson, Barbara Hill, Jean McEacheren, Mary Ann Shipley and Mary Thompson skiing consistently to win the championship for the second consecutive year.

On snow or mud, whether winners or not, those who skied this year had fun.♣

WOMEN'S ALL-VARSITY HOCKEY TEAM

SECOND ROW: ALICE JAMIESON, IRMA BULLOCK, ANN SHARPE, JEAN ROSE, JANE MACKLIN, BARBARA WEATHERHEAD, FERNE WATSON, IRENE HAIN, ELVA RAMPTON, HELEN FERGUSON.

FIRST ROW: ANNA STAPLES, JEAN MYERS, BOB LAROSE, *Coach*; ALISON JEFFRIES, JOAN SUMMERVILLE, *Manager*.

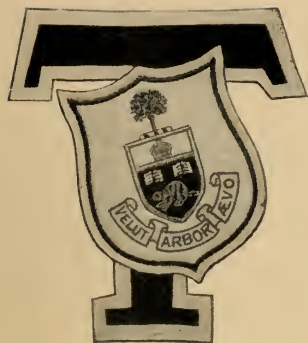

ABSENT: ROSAMOND LLOYD, HARRY BOYD, *Coach*.

HOCKEY

THE year 1948-49 saw the defeat of the Victoria College I team which held the championship since 1943. A powerful P.H.E. team dethroned the reigning champions in a close, hard-fought series. The victory of P.H.E. culminated the season which, in spite of the lack of outdoor practice ice, was very successful. Two new teams were entered this year—Occupational Therapy and Institutional Management. This brought the number of teams to thirteen, grouped into four leagues. During the schedule Institutional Management were forced to withdraw their team because of the difficulty their small enrollment presented in icing a team. The scoring crown was copied by Ferne Watson of P.H.E.

For the first time in many years an All-Varsity team played against Queen's and McGill. This was not actual Intercollegiate competition as hockey has not yet been re-instated as a Women's Intercollegiate sport. The team, which was composed of the best material in the Intramural league and which boasted players from P.H.E., Vic., U.C., Trinity, and Meds, acquitted itself nobly. Playing at Varsity Arena against McGill, the girls outscored McGill 15-0. In Kingston they also trounced the Queen's girls by scoring ten goals to their opponents' one. The team hopes that their one-sided victories will not make the other colleges reluctant to meet us again next year, when they hope that Intercollegiate hockey will be continued on the same "invitation" basis. ♣

U. C. WOMEN'S ATHLETICS

THIS has been a good year in sports for UC-PHE women's teams for the numbers participating, the enthusiasm shown throughout the year and the number of trophies won.

The Invitation Golf Meet was won by a UC team with a PHE freshee winning the meet with the lowest individual score. On the Intercollegiate Tennis team there was one PHE player. On the Softball field, the PHE I team fought hard to win the Championship against the Victoria team.

PHE III won the Intramural Basketball meet. There were also two UC teams in the finals, and another PHE team.

The UC Rose Bowl tournament was won by the Junior team. On the Intercollegiate Basketball team there were ten UC-PHE out of the twelve members.

Early in March, PHE won the Intramural Swim Meet. The College contributed four swimmers to the Intercollegiate meet. PHE won the Hockey championship for the first time in six years. In the Intercollegiate field of Hockey, the College contributed seven players to the team.

In Badminton, the winners and runner-up of the Intramural meet were from PHE. PHE also sent one player to the Intercollegiate meet.

The new Volleyball trophy, awarded by the WUA, was won by PHE. There were four PHE players on the All-Star Volleyball team. Five club presidents were UC or PHE. These girls did a hard job well, having to overcome such difficulties as the Hydro cut-offs and a leaky roof in the Lillian Massey gymnasium. ♦

VICTORIA WOMEN'S ATHLETICS

ATHLETICS for women at Victoria College continued in tradition, with the emphasis on participation and sportsmanship. One quarter of the girls registered in the College took part in athletic activities which were arranged in accordance with our belief that sports have an integral and beneficent place in college life. This policy was facilitated by the terms of the new V.C.U. Constitution, under which our Society is co-ordinated with other College organizations through the V.C.U. Executive and Assembly.

Soft-ball, tennis, basketball, and golf spanned the first term, and hockey, volleyball and badminton, the second. The few material laurels received in no way detracted from the successful completion of our program.

A contribution of value for the future was made in the Constitutional amendment of the award of the women's Athletic Stick. It is hoped that the change in the qualifications of both candidates and electors will help to keep our Stick a recognition of the highest merit in Athletics.

The sports season was officially ended in March, when College and University Colours were presented at the Athletic Tea held in Wymilwood. For outstanding contribution to Athletics during their undergraduate years, the following members of the graduating class were awarded Athletic Pins: Belva Barker, Doris Brent, Margaret Day, Marion Irwin, Joey Mackay, Jean Myers, Helen Proverbs, Anna Staples. ♣

ST. HILDA'S WOMEN'S ATHLETICS

SAINT Hilda's Athletic Association has had a very successful year, marked by participation in a great number of sports.

We were able to send two representatives to the inter-faculty tennis team and to place second in each of the three basketball leagues. Baseball and hockey won for us more fun than fame. At the time of writing, the volleyball and badminton series have not been completed.

We have been represented on Intercollegiate teams by: Pat Cockburn (Tennis), Jane Matthews (Tennis), Nan Sootheran (basketball), and Phyllis Manning (Swimming).

Our coaches have been so helpful that we should like to thank them for all their work and patience. We would also like to send our condolences to those who were hurt in the games and practices.

We expect to have our Athletic Dinner on March 9, when the speaker will be Mr. James O'Brien, a member of the 1948 Olympic Track team. It is sure to be a good end to a year that started well. ♣

HEC PHILLIPS

THE University of Toronto has been blessed with some of the greatest coaches and instructors ever to associate themselves with intercollegiate athletics.

It is difficult to point to an individual man and say, "He was the greatest"; but if the superlative were to be used with the name of Hector Phillips, few dissenters would be found.

The academic year 1948-49 was less than a month old, when the Varsity campus learned that Hec Phillips, stellar track coach, had passed away after an extended illness during which a valiant heart fought bravely to the end.

Although he realized that the end was not distant, Hec journeyed across the Atlantic for one last look at his first love—the Olympic Games. To him they exemplified the goal for all young athletes who came under his direction.

A native of Scotland, Hec came to Canada in 1912. He was a member of the Canadian team at the 1920 Olympic Games in Antwerp and again in Paris four years later. For eight years he held the 800 metre Canadian record.

Joining the University of Toronto staff in the early thirties, Hec enjoyed phenomenal success as coach of Varsity track teams. In the two years before his death, he led the Blue and White to victory in senior and intermediate track and harrier.

Hec's strong and radiant personality made him as much a friend and advisor as a coach. This, combined with a superior knowledge of track fundamentals, made him the most outstanding track coach ever to enter the intercollegiate field.

No one can estimate the value of such a man. He was a character-builder as well as a moulder of fine athletes. The dividends from his investment of time and energy will be paid for generations in terms of clean, young Canadian athletes, who will carry on the Phillips' track traditions.

FOOTBALL

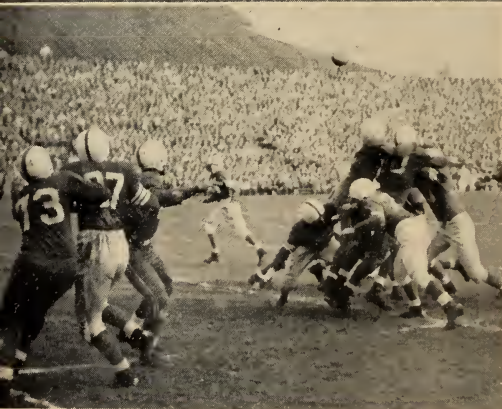

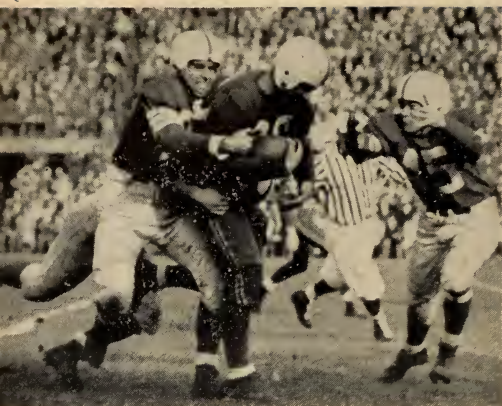

THE year 1948 was a banner year for the followers of the Varsity Blues football team. After tasting Western dust for three consecutive post-war football years, the Blues tamed the Mustangs on successive Saturdays to capture the Yates Cup for the first time since 1936.

Coach Bob Masterson, in his first season as head coach, moulded one of the greatest football machines ever to wear the Blue and White. If not the greatest, the team was certainly the most colorful.

The Blues started the season badly, losing the first two games to Western and Queen's, but rolled to two smashing victories over McGill, dunked Queen's in Kingston, and set the stage for the two great triumphs over their arch rivals, the Western Mustangs.

TOMMY WALDON, WINNER OF THE JOHNNY COPP TROPHY 1948.

A flock of unknowns suddenly blossomed into stars under the tutoring of Big Bob Masterson. With starry Bruce Cummings tossing the strikes, and everybody but the linemen on the receiving end, the Blues showed a dazzling aerial attack that had the opposition groggy. In three mid-season games, the Blues outscored the opposition 78-0.

To Coach Masterson goes the lion's share of the credit for a brilliant season. The Blues were superior to the opposition in every department, and with Masterson continuing at the helm, Varsity's football future looks bright. The famine indeed is over. ♣

IN his final year at U. of T., Tommy Waldon realized two of his greatest athletic ambitions. The first was to win the intercollegiate senior football title, and the second, the goal of all Varsity football players—to be awarded the Johnny Copp Memorial Trophy.

In quarterbacking Varsity to its first football title since 1936, Tommy Waldon truly displayed the sportsmanship, character and playing ability to be adjudged the most valuable member of the team. ♣

INTERMEDIATE FOOTBALL

CO-coached by former Bluemen Don Bark and Alex Brown, the intermediates played a fine brand of football, that smacked of the "Masterson system."

Although the "Little Blues" didn't capture the intermediate title, they made a creditable showing, winning four, losing two in the strongest intermediate league to appear since the end of the war.

The Seconds stopped McMaster twice, and divided games with O.A.C. Aggies and Western Colts. Near the end of the season, they administered a sound trimming to the championship Aggies.

The Seconds could have forced a tie for first place by winning the last game of the season against the Colts in London. But the Colts weren't to be beaten, and turned in their best game of the season to spike Varsity's title hopes.

The spirit exhibited by the Blues seemed to catch the intermediates too, and they showed more fight and drive than had most Second squads in the past. Blues coach Bob Masterson should find plenty of potent material ready for use next season, particularly in the backfield which starred Bill Brewer, Bob Garside and Hubie Sinclair. ♣

SOCCER

LED by coach-captain Brian Barton, the U. of T. senior soccer team captured the Blackwood Trophy for the eleventh consecutive season.

The team had an international flavor, with representatives from China, the West Indies, Trinidad, Bermuda, Ireland, England and of course, Canada. Despite diversities in race and religion, the team functioned as a smooth-working machine, and was a credit to Varsity and to Brian Barton in his first season in a coaching capacity.

During the longer-than-average season, Varsity lost games to McGill and

O.A.C., but finished firmly entrenched in first place. ♣

NOT to be outdone by the seniors, the intermediate team made it a clean-sweep for Varsity in intercollegiate soccer competition.

Under the captaincy of Al Beckwith, the Seconds lost only the final game of the season to O.A.C., but finished well ahead in the total goals race.

With soccerites of this calibre ready to enter senior competition, Varsity's soccer future looks bright indeed. ♣

THE University of Toronto senior golf team was unsuccessful in its defense of the intercollegiate title, as Queen's rolled to victories in both team and individual competition.

Minus all four of the previous years' title team, the Bluemen finished fourth in team competition, although Bill Givins carded an 81-77 to gain second place in the individual race.

In international competition the senior team fared considerably better, scoring victories over the University of Buffalo and Niagara University.

The intermediate team retained its title, defeating O.A.C., McMaster and Western, in that order. George Britton captured individual honors with a sparkling 77 over a tricky Guelph course, three strokes ahead of the field. ♣

TRACK

UNIVERSITY of Toronto continued to dominate intercollegiate track competition, winning both senior and intermediate titles.

With Harold Brown, Barry Lowes and Bill Woznesensky combining in the coaching duties, the trackmen did a great job in carrying on the winning traditions of the late Hec Phillips.

The senior team had little trouble winning the intercollegiate meet held at Varsity Stadium. The Blues gained 73 points, compared with McGill's 53, Western's 23 and Queen's 16.

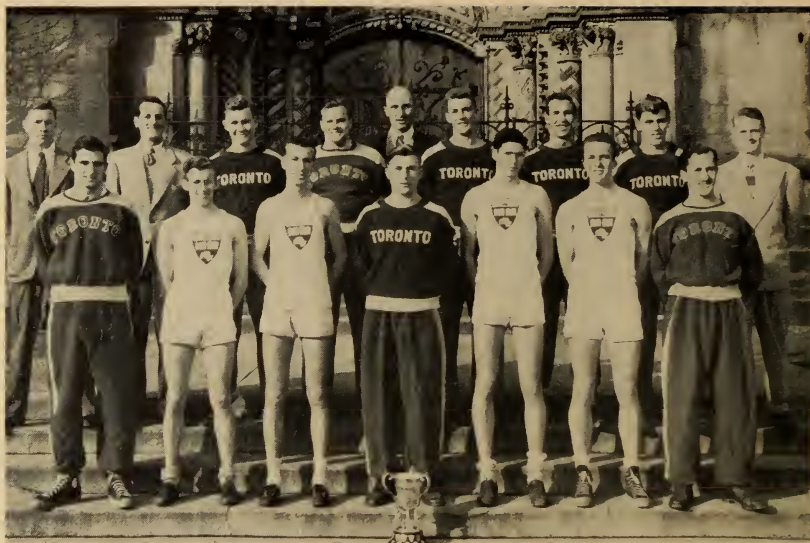

With little George Doull and John Rhame leading the way, Varsity captured seven firsts of a possible fourteen. Doull and Rhame were the only double winners, Doull winning the one and three-mile events, and Rhame the broad jump and the 120 yd. high hurdles.

Other winners were Murray Gayman in the pole vault, Bill Farlinger, in the discus, and Sam Neill in the 220 yard dash.

Toronto didn't confine its activity solely to first positions. Bluemen won eight seconds and four thirds, with John Shore and Michael Pim deserving of special mention.

The intermediate track team surpassed even the fine showing of the seniors piling up more points than all the opposition combined in winning the intermediate meet at Hamilton. Toronto scored 92 points; O.A.C. 41; McMaster 17; and Western 14.

It was an overwhelming victory for the intermediates, with Jack Milne, John Hryshko, Doug Kettle and Jim Parkin deserving of the bulk of the credit. ♣

The Bluemen had little trouble winning the intercollegiate title, with George Doull, Gord Wilson and Dunc Green placing one, two, three in the race held at McGill. Toronto won with 12 points, Queen's was second with 28 and McGill third with 43.

In exhibition meets, Varsity ended a 16-year winning streak held by Wayne University, over the Detroit course. The Blues lost a close decision to Buffalo State, and defeated Niagara and Alfred Universities.

One of the year's highlights was the National American Athletic Union harrier at Wayne, in which Varsity placed fifth in competition with 81 entries.

The Intermediate team had to be satisfied with second position as O.A.C. raced to victory in an intercollegiate meet at High Park. Western and McMaster placed third and fourth. ♣

THE senior tennis team this year was a decided threat to McGill's tennis monopoly. While retaining the team championship the Redmen lost individual senior and doubles titles to the University of Toronto.

Varsity's perennial Art Anderson scored a smashing victory over McGill's Bobby Duford to capture the singles,

and then combined with Len Turner to retain the doubles title won last year.

The Blues placed second in team competition, three matches behind McGill.

In the intermediate tournament, Varsity's entry was no match for strong O.A.C. and McMaster teams. Bad weather didn't better the quality of play. ♣

BOXING

VARSAITY placed second this year in intercollegiate boxing competitions held at Kingston. Queen's won the title with 23 points, Varsity scored 14, and McGill was third with three.

Three of Toronto's senior boxers won their divisions. Henry "Hank" Henshall won his third successive intercollegiate title in the 125 pound division. David Geary, runner up in the 133 pound class last year, pounded out a T.K.O. to win handily this year. And Roy Patrick, in his second year of boxing, captured the 165 pound division title.

The intermediate team tied with Western for the intercollegiate title, both finishing with 15 points. ♦

SAILING

TWO meets featured activities of the University of Toronto sailing team this year.

On the Thanksgiving week-end, the team competed in the Danmark trophy meet at the United States Coastguard Academy at New London, Connecticut. Varsity placed eighth in competition with eleven colleges, including Harvard Yale, McGill and Boston.

The following week-end an invitation meet was held at the Royal Canadian Yacht Club, with the Colonel Grant trophy at stake. Led by Peter Pangman, Varsity won all three races to defeat entries from McGill and Royal Military College. ♦

INTERCOLLEGIATE HOCKEY

FOR the first time in post-war competition the Senior Blues failed to win the intercollegiate hockey title. A 5-4 loss to the Montreal Carabins in the final game of the season, cost Varsity a tie for first place. Those same Carabins won their first title in history.

With "Ace" Bailey again at the helm, the Blues won 8, lost 4 to finish the season in second place, four points ahead of McGill.

Rookie goaltender Paul Hutzulak, defenseman Wilf Digby and centre Bill Spence were named to the intercollegiate all-star team. Hutzulak had the best "goals-against" average in the league, and Spence finished second on the scoring race. Coach "Ace" Bailey and veteran Bob Henry place on the second all-star team.

Those playing their final season in Blue and White garb include Captain Harry Boyd, Bill Spence, Bob Henry, Paul Hutzulak, Gord Ecclestone, Bob LaRose, John Fox, Pete Ferguson, Bob Cooper and Danny McDougald.

For the fourth consecutive season, the intermediate hockey team won the intercollegiate title. A 5-1 victory over O.A.C. in the final game of the season clinched the championship.

The Seconds dropped two pre-season exhibition games to Toronto Meteors, a Senior B team, and then rolled to two smashing victories in a home-and-home series with Waterloo College. An exhibition game in Clinton, N.Y., saw Varsity emerge with a 6-4 win.

In intercollegiate competition, Varsity won 4, lost 2, beating O.A.C. twice, and dividing games with McMaster and Western. Under coach Jack Life, the Seconds reached their peak at mid-season and won their three final games.

Once again the Varsity Junior "Bees" finished in first place, leaving behind the Marlboro's, Corner Boys, and St. Michael's College. However, Marlboro's, who improved every time out won the Good Humour Cup defeating the "Bees" two games to one in a very exciting final series.

Under the skilled coaching of Bill Wade, a graduate of the Varsity Blues, and the able leadership of captain "Porky" MacDougall, the team showed plenty of fight and good, sound hockey over the eighteen game schedule. The six games which were played in Maple Leaf Gardens, added much colour to the league.

Many of the players will be eligible for Junior hockey again next year. However, if the promotion of Ernie Frey and Rich Howson to the Senior "Blues" is any indication of the future, there will be a number of new faces in next year's lineup.♣

SENIOR BASKETBALL

THE Senior Basketball Team rolled to easy victories over Queen's and McGill, but couldn't get past the perennial Western Mustangs, and had to be satisfied with second place again.

The Blues showed little in pre-season exhibitions with American Colleges, failing to win in an eight-game tour. Varsity supporters were settling back for a dismal season when the Blues came to life to upset the powerful Assumption College Purple Raiders 51-48.

Varsity looked good in the opening game against Western, but dropped a close decision. Four straight wins over Queen's and McGill—all by wide margins—found coach Masterson's crew hitting top form for the final game. Injuries to the Blues' high-scoring forward combination of Glen Pettinger and Eddie Brennan took the sting out of the scoring punch, however, and with veteran guard Wally Zeaton also sidelined, the Blues lost a hard-fought game in London.

Several of this season's team will be back again next year, and the squad will be strengthened by the addition of lanky Adam Smalley, who was sidelined for the entire intercollegiate season with a badly dislocated ankle suffered in an early season exhibition game. ♣

INTERMEDIATE BASKETBALL

THE intermediate basketball team finished second behind Western Colts, who swept through an unbeaten season.

The squad was older than the usual, with veterans Art Anderson and Andy Andrews providing the steady influence.

After dropping the opening game to McMaster 41-33, the intermediates defeated O.A.C. twice and lost two to Western. Then in the final game of the season at McMaster the Bluemen got revenge for the early season loss to McMaster. Led by Ted Luck, who rang up 20 points, the intermediates came from behind to gain a thrilling 53-51 victory. ♣

JUNIOR BASKETBALL

UNDER the able leadership of Barry Lowes, The Varsity Junior Basketball Team had a successful season in its inaugural year of competition.

The Juniors played in a seven team city league, and finished second in league play winning nine and losing three. In the semi-finals they defeated Y.M.H.A., but lost out in the finals to Central Y.M.C.A.

In four exhibition games, the Juniors broke even, beating Kitchener Y.M.C.A. and O.A.C., and losing to McMaster and Westdale. ♣

Team captain John Laxton won the Werry Cup for

individual achievement.

Next year's team will have a difficult task replacing John Laxton who has been the bulwark of the gymnastic team for the past four years. In three of those years John captured the individual title, and in the other year placed second.

At the senior meet in Montreal, the Bluemen edged McGill 25-23 to retain the Charles Walters team trophy. McGill's Olympic fencing contender, George Pouliot retained individual honors. M. D. S. Kellow, of Varsity, placed second.

The intermediate team defeated O.A.C. and Western in a meet at Guelph to retain their title.

Both teams trained under Fencing Master Charles Walters and coach Orm Walters. ♣

WRESTLING

TORONTO had a disappointing season in intercollegiate wrestling competition. Coach Morris Sobel had a flock of green men under his wing, and his charges managed to win only two divisions, one senior and one intermediate.

The senior team placed fourth in the intercollegiate competition held at Kingston. Toronto managed only four points, with Jack Kirkup the winner in the 145 pound class. O.A.C. placed first with 15 points; McGill second with 14½; and Queen's third with 10½ points.

The intermediates garnered 10 points to finish in third place in their matches held at O.A.C. Harry Lubbock was Toronto's lone winner in the 125 pound division. Western won the title with 21 points, while O.A.C., was runner-up with 19 points. ♣

SKIING

Poor skiing weather, which existed almost throughout the winter, greatly restricted the activities of the Senior Intercollegiate Ski Team. A late start and inadequate snow coverage during January meant little opportunity for coach Russ Smart and assistants Bill Beck and Peter Kingsmill to get the team rounded into shape.

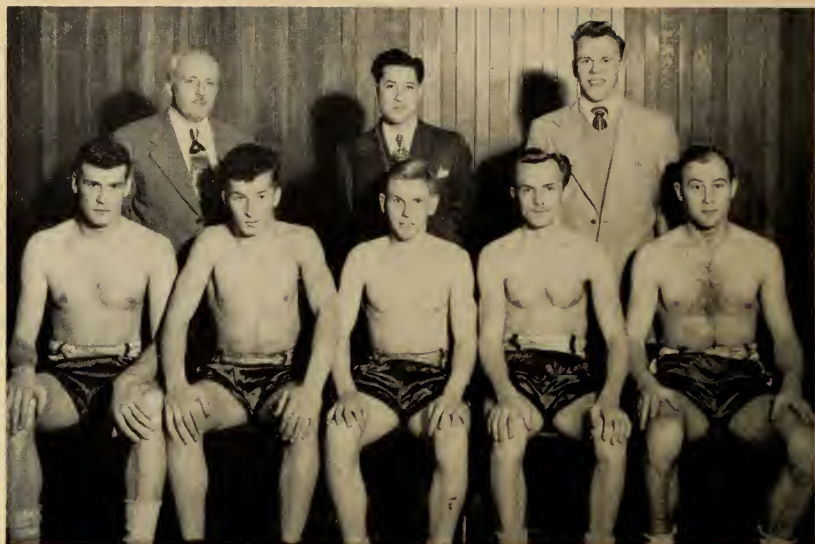

The final blow was dealt when insufficient snow forced cancellation of the I.S.U. championships slated for Middlebury, Vermont, February 24th and 25th.

At three preparatory meets at St. Lawrence, Dartmouth and McGill, the Varsity team showed signs of lacking

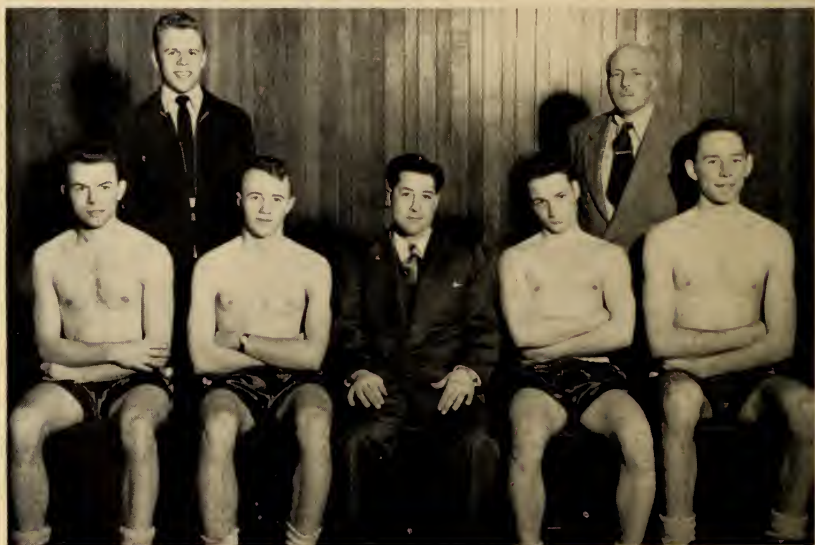

racing experience and training. Particularly in the jumping department, lack of facilities for early training was a serious handicap. ❀

WATERPOLO AND SWIMMING

WITH several of last year's title waterpolo team missing, coach Bob Dunstan's crew lost a narrow 3-2 decision to McGill in Montreal to place second in the senior intercollegiate waterpolo competition. Varsity defeated Queen's 7-5 in the other intercollegiate game. ♣

ALL good things must come to an end, and such was the case in intercollegiate senior swimming competition. Varsity had dominated intercollegiate swimming for thirteen years, but this year ran up against one of the greatest teams ever to appear on the college scene.

The McGill Redmen, with their lineup dotted with Olympic competitors, captured every event but the diving to pile up a spectacular 57-point score. Varsity placed second with 25 and Queens' was third with 16.

Veteran diver Ken Tully was the lone Varsity winner, repeating his victory of last year. Another Varsity man, Don Thom, placed second.

The Blues managed three other seconds in the competition, Luke Teskey in the 220 yard free style, Larry Rosen in the 200 yard breast stroke, and the 300 yard medley relay team.

The intermediate team retained intercollegiate swimming honors for the fourth time since the end of the war. ♣

INTRAMURAL SPORTS

THE students at St. Michael's College again proved their all-round ability in intramural sports by a repeat win in the T. A. Reed Trophy race for the Intramural All-Year High Point Championship. Forestry in second place and Trinity College in third crowded the eventual winners in a year's activities which more than maintained the objective of the University Athletic Association to provide a diversified programme of recreational sports for as many students as facilities permit.

An enthusiastic response to the programme started in September with large entries in the golf and tennis tournaments and continued throughout the outdoor season to reach a climax at Varsity Stadium when six thousand students watched St. Michael's College take the coveted Mulock Cup and the football championship from Victoria, the defending champions.

During the winter season every available hour and square foot of playing space was utilized to best advantage to ensure an intensive and varied activity programme. The Hart House gyms and Little Vic gym, through the co-operation of the Victoria College Athletic Association, were used to accommodate the 120 basketball teams. On artificial ice at Varsity Arena thirty-two hockey teams played and practised. Box lacrosse, volleyball and water polo were conducted to the maximum capacity of the areas available. In addition, twenty-nine tournaments in boxing, wrestling, indoor and outdoor track, swimming, gymnastics and other individual type sports kept the specialists busy throughout the season. Instruction and training over a period of weeks and months preceded every competitive effort.

The Intramural Sports Committee under co-chairman George Paterson of Dentistry and Phil Downie of University College, met weekly throughout the year to legislate on the multitudinous details concerned with operating the programme. This work, together with that of the standing committees for each sport, made it possible for the programme to function. In addition approximately 400 student managers looked after the interests of the individual teams.

With our existing facilities, activity has reached its maximum. Present registration figures have almost trebled since 1927, the date of the completion of the Varsity Arena, the last addition to our athletic plant. With this situation, limiting of activity in almost all sports is necessary. We obviously have reached the point where additional indoor facilities are required. ♦

U.C. ATHLETIC BOARD

U.C. squads fared well in both track, field and basketball in the 1948-49 season. The track team walked away with both Junior and Senior outdoor meets along with the Senior Harrier. Although results were not quite as gratifying during the indoor track season, U.C. athletes managed to add quite a few more points to the U.C. bid for the Reed Trophy.

Of the four teams in the semi-finals of the major intramural basketball league, three were wearing U.C. or PHE colours. The PHE squad entered the finals against St. Mike's and won the championship after a tough series.

Despite a fighting spirit U.C. footballers were eliminated from the league without gaining a playoff spot; however, many veterans are returning for next season and hopes are bright for a more successful year. The U.C. "I" lacrosse team reached the finals and came close to upsetting the favoured Meds squad in the tussle for the Dafoe Cup. The Eckhardt Trophy for Water Polo fell once again into the hands of U.C. swimmers and the U.C. soccer squad went through its season with an excellent record of wins only to bow out in the final game.

A great deal of credit is due to the Athletic Board, which, under Phil Downey, directed U.C. athletic activities throughout the year. The many teams and varied activities in U.C. sports life required an alert and competent executive such as Phil Downey and his associates provided. ♣

VICTORIA COLLEGE ATHLETIC UNION

THIS year the male undergraduates of Victoria College have proclaimed great versatility and won renown in the field of sport.

The Vic football team reached the finals but lost the Mulock Cup, which they had retained for the past two years, to St. Mike's in a game that saw the scarlet and gold crew go down fighting. Many of this year's team will be back seeking that pigma trophy next fall.

Victoria's track team gave notice of their presence both in the Senior Track Meet and Indoor Track. They were co-champions with U.C. and P.H.E. in the Senior Interfaculty Track Meet and won the indoor relay championship.

Perhaps our hockey teams have some justification for indulging in a bit of wild trumpet-playing. The Junior Vic basketball team is undefeated and will undoubtedly be tough to keep from taking the basketball honours. Also, Victoria College has twenty-one minor-league basketball teams, some of which are at present leading their respective leagues. All in all, Vic has had one of its more successful years in sport.

The executive of the Victoria College Athletic Union takes this opportunity to extend its wishes to all Vic athletes for continued success on the playing field and still further prowess as they continue through that somewhat extended realm of life itself. ♣

TRINITY ATHLETICS

ATHLETICS during the '48-'49 term attained a higher degree of success than they had for many years. This was due partly to good planning and partly to luck. For several years Trinity has stressed participation at the expense of athletic quality. This year saw a departure from the regular "everybody-out" attitude. Trinity, as a result, was able to concentrate on improving the breed while still providing for adequate participation. This new policy surprisingly paid dividends in its first year with the students supporting many winning teams.

The Soccer Firsts were the first to show the improvement by winning the Arts Faculty Cup. Successes continued throughout the fall season in the minor sports. Trinity won the Freshman Harrier, showing that Trinity athletes, besides participating, could also win.

With the coming of winter Trinity took to the ice with three hockey teams. Every team won their group before continuing into the play-offs. Indoor track also came into its own with the College coping several events mainly through the efforts of promising freshmen.

Throughout the year the Athletic Association conducted its business in an efficient manner and was able to delegate much of the work to capable managers and coaches. The T. A. Reed trophy race found Trinity within the top three colleges during the year. ♦

EMMANUEL ATHLETICS

BY looking at the beaming faces of the above gentlemen, it can be seen that Emmanuel athletes have accomplished great things during the "48-49" schedule.

Placing confidence in that old maxim "Nothing ventured, nothing gained", the executive stepped boldly forth into its athletic schemes for the year, keeping in mind the college policy of "infiltration". Tennis, soccer, volleyball, swimming, track, hockey, basketball and badminton have kept our men busy. Although numbers were low, spirit was high, and ability varied all the way from "speed" swimmers who could not dive, to the latest manoeuvres of jet-propelled basketball players.

Soccer this year was chiefly the organization of a new team, which towards the end of the season, began to show cohesiveness. Volleyball had a good measure of success; the team, with its good stock of "height", pushing its way to the University quarter finals.

Actually, the happy faces above are the result of the one victory of the hockey team. At the time of writing, the basketball team seems destined for great glories.

Athletics at Emmanuel provide one of the few opportunities for the students to mix freely with each other, and all barriers are overcome in the interests of friendship. ♦

THE EXECUTIVE

WYCLIFFE COLLEGE ATHLETIC ASSOCIATION

ALTHOUGH Wycliffe didn't win any university honours or orchids, its soccer team showed bursts of power, a tight defence, amazing spirit and a certain polish around the opposition's net, which gave to it a group championship.

Greatly hampered by the innovation of a time limit in the university Senior Harrier, Wycliffe men were no longer permitted to go on their annual five mile stroll. Although our entries were depleted considerably those few stalwarts who did run, ran well, one man placing twelfth.

The swimming and water polo teams made exceptional records for themselves. The former won three out of five meets, the latter four out of six games.

Something new was introduced in the Wycliffe athletic life this year with the formation of Lacrosse and wrestling teams. The Lacrosse team did not win a game, but showed promise for future years. The wrestling team consisted of one man. This dauntless individual thrust aside all caution one afternoon, and with a wave of his hand and a flexing of his biceps stepped boldly onto the mat in the delicately aroma-ed Hart House gymnasium. Fifteen seconds later Wycliffe had won another moral victory.

Hockey and basketball were a disappointment. The hockey team won only one game and the "A" Basketball team tied one game. The "B" Basketball team fared somewhat better, winning two, tying two and losing two games.

The season for 1948-49 is over. Though our laurels were few, our spirit and fight were strong, our heroes many. In years to come when wide-eyed small fry discover the moth-eaten "W" in Father's study, when hearty alumni gather in Wycliffe's memory-laden halls, the old refrain will be echoed and re-echoed, "Now when I was playing for Wycliffe back in '49"

INSTITUTIONAL
MANAGEMENT
ATHLETICS

ATHLETIC activity has played a vital part in the life of the student during the past year. Institutional Management entered teams in the Intramural swimming, hockey, lacrosse, basketball and volleyball. In team sports, it was the swimming team that took the honours. They advanced to the quarter finals, suffering only one loss and that to Victoria College in a sudden death play-off.

With Volleyball placing second in its group and the Basketball and Hockey teams eliminated earlier in the season, team competition for the year came to a close. However, there was one outstanding athlete who deserves every praise for his athletic skill. John Roy, a second year student, played squash for the first time in his first term at the University. He soon became a familiar figure around the Hart House squash courts practising often and hard. This year, all the practice and concentration has paid big dividends for John. Downing many squash experts, John Roy became the "Undergraduate Champion" of the University of Toronto by winning the John Leibel Trophy. Later in the year John entered the Intramural tournament but this time eyes were on this new squash star. Even at that John managed to take runner-up honours in the Intramural tournament. Our congratulations to you, John Roy, on an excellent performance. ♣

MEDS' ATHLETICS

MEDS have shown once again that they are definitely on the come-back trail in the Interfaculty picture and this year proved strong challengers for the T. A. Reed Trophy.

The Senior Meds lacrosse team successfully defended the Dafoe Cup against all comers. Ace centerman Jim MacKay is the only member of the team to graduate, so it may be that the trophy has found its permanent home.

The Meds swimmers compiled the most impressive record, bringing home no less than four titles. Winning the Interfaculty Swim League, in rapid succession they captured the Freshman, Junior Interfaculty and Senior Interfaculty Swim Meets.

Pre-Meds scored in the Interfaculty Volleyball picture where the second year team came through with the title. The Senior Meds Football team blew hot and cold during the season and only went down before a dazzling display of passing and running by St. Mike's in the semi-finals. Of nine basketball teams, all three major squads and three of the minor teams entered the play-offs.

At the annual Athletic Association dance, a record number of awards was presented as thirty-eight athletes earned their 'M's and ten received special awards. Medical Athletics once again included about one third of the members of the undergraduate body and laid the foundation for success in the future years.♣

BILL COCHRANE

MEDICAL ATHLETIC STICK

THE Medical Athletic Stick is given annually to the member of the graduating year who, in an outstanding way, combines athletic ability, sportsmanship and executive ability.

Bill Cochrane, the winner in 1949, excels in all these requirements.

From the time Bill entered Medicine until the present time, he has taken an active part in all phases of Medical Athletics.

As a participant, he excelled in fastball, basketball and lacrosse throughout his undergraduate years. Hockey, volleyball and some track work can also be mentioned.

As an executive, Bill has particularly shone. In each year he served in some executive capacity either as class athletic representative or class president. It was in his last two years that Bill's true executive ability came to the fore. In 1947-48, he was Vice-President of M.A.A. and in 1948-49 he guided the destinies of the organization very efficiently as President.

Finally, nothing need be said about sportsmanship; for all those who came in contact with him know anything said would be superfluous.

To bring this short eulogy to a close it might be mentioned that this type of honour was once before bestowed upon Bill. In his graduating year from Malvern C.I. he received the Powell Memorial Trophy. This trophy is also given for athletic ability, sportsmanship and executive ability.

It is obvious that this year's choice was the correct one.

Good luck, Bill. ♦

W. A. FIRSTBROOK, R. HALL, J. A. MCCRODAN, M. A. OLSEN, *President*; E. SOKOLOWSKI, H. F. YOEMANS.

S. P. S. ATHLETICS

THIS year School got away to a bad start with an almost complete shake-up in the Athletic Association. Coupled with this was the fact that S.P.S. was larger than it has ever been; with more teams and more equipment, a tremendous load was thrown on the Executive.

With this year drawing to a close, we would like to thank the Schoolmen for the help which they have given the Executive, both as competitors on the field and as managers of our teams. To these Schoolmen who fought so valiantly for S.P.S. in Interfaculty competition we say "good going, fellows; and better luck in the future".

We would also like to extend our congratulations to those Schoolmen who have played on the Varsity teams and were able to help maintain recognition in intercollegiate competition.

Next year, with all of Ajax in Toronto, we expect to have one of the biggest years of Athletics in the history of School. We would like to wish the best of luck to the new Executive and to S.P.S. so that they will bring home the T. A. Reed Trophy. ♣

TED COATES

PHENE MEMORIAL TROPHY

THE Phene Memorial Trophy is presented each year to the player on the Faculty of Applied Science and Engineering Senior Rugby Team who, in the opinion of his teammates, has shown outstanding qualities of sportsmanship and loyalty to his team. This year the much debated trophy was won by Ted Coates.

Ted has played for School for the past three years. He played out at Ajax in his second year, and here in Toronto in his third; and this year he was captain of his team. Playing the position of inside and middle, Ted has turned in a stellar performance in the three years for which he has played for School. He was outstanding both on defence and on the offence, with plenty of fight, but always showing qualities of true sportsmanship.

So, to a real athlete and a true Skuleman, all S.P.S. extends its heartiest congratulations, and best wishes for the future. ♣

DAVID COPP

MAJOR "S"

THE Major "S" is awarded each year to the member of the graduating class who has, in the opinion of his classmates, done most for the University and the Faculty in athletics. This year, David H. Copp was awarded this most honoured athletic trophy by the Class of 4T9.

Dave has shown outstanding ability in athletics during his time at School. In his first year at Ajax he played on the Junior S.P.S. hockey team. During his second year he played inside on the Ajax Junior ORFU Rugby team, which won the Eastern Ontario ORFU Championship that year.

When Dave moved to Toronto the following year, he joined the Varsity Blue Rugby team. For his fine effort he was twice chosen on the all-star team.

The Athletic Association, on behalf of the entire Faculty, extends its heartiest congratulations to Dave Copp. His excellent record certainly indicates that he will be a successful citizen and engineer. ♣

AJAX ATHLETICS

THE curtain has fallen on another phase of life and history has been made once more. That great hall of learning, Ajax, has slipped into the depths of the past. However, education was not a full time job for Jaxmen; sports were perhaps a more interesting subject for some.

On the intramural side of things old Ajax stood her ground and weathered the storm, coming up with soccer and volleyball teams in the finals and a football team in the semi-finals. The track men and boxers all held their own, and were among the top men in their respective groups. On the whole the Jaxmen managed to overcome their craving for studies and fear of the razor long enough to trek to the Toronto campus and gather a few laurels for Jr. Skule. Ajax was also well represented in the Intercollegiate circles and many Jr. Skule men tramped to Toronto to lend their powers to the Varsity Squads in every sport.

The sports program was interspersed with the regular monthly Athletic Nights. During the fall accent was on football pictures with the Blues Squad and the Cheerleaders present. The turn of the year brought out the Blues Hoop crowd who just beat off a valiant Ajax Club. As a grand finale for a sporting community the Annual Athletic Banquet was held in March and sports minded souls came from far and near to partake of a real Ajax repast. The guests were feted by John "Ox" DaGrosa of Temple University who was the afterdinner speaker.

And so the final sport year of Ajax came to a close. But let's face it; our sincere thanks to all those who had a finger in the Athletic pie. May you all be successful in the future!♣

DENTISTRY ATHLETICS

THE fate of this college has been to lose the nucleus of its talent to the Inter-collegiate teams of this University. Jack Williams (Rugby), Paul Hutzulak (Hockey), Andy Andrews (Basketball), and Wes Moore (Hockey), have all proven themselves to be far above the average in ability. With the loss of these men the Intramural teams were bound to suffer. The University's gain was the Faculty's loss.

It is erroneous, however, to say that the teams as represented in this series have fared poorly. Although no trophies were added to the trophy room, there was a great deal of respect given to the Dental Teams. A good team, given the breaks, will come out on top. Apologies for the ability of the teams need not be given to any quarter.

There is always another year, another pitting of ability. If the ability and the desire are always present, then each man achieves his own success. For another and even better year, this Faculty must wait. ♣

FORESTRY ATHLETICS

THE students of the faculty of Forestry once more put forth a concerted effort to bring the T. A. Reed Trophy to their faculty. That is a feat which has never been accomplished in the history of the forestry school in spite of the determination of all the students.

The rugby team won four of the scheduled six games in Group III, and but for some very unfortunate circumstances, would undoubtedly have been higher in the standing. Max Lister was coach of the team again, and he proved a tower of strength to the players.

Both lacrosse and volleyball teams finished the season as group champions although all four were eliminated in the first round of the playoffs.

Gus Mortson is once more handling both hockey teams that are entered. They seem destined to finish the year at the top of their respective groups.

Other sports that have a competitive team entered from forestry include basketball, tennis, squash, swimming, water-polo, golf, skiing, boxing and soccer.

The senior teams are also represented in the forestry student body. Such men as Jones in rugby, Doull in track, Digby in hockey are known and respected for their athletic prowess.

The students may point with pride to their well-organized sports program since it is their effort that made it what it is today. This program gives each and every student an opportunity to enter competitive games which not only provide a very commendable pastime but also a very definite contribution to the development of the mind and character of the college student of today. ♣

THE 1948-49 season was a busy one indeed for members of Alpha Epsilon Phi. This year, instead of having a dance in aid of charity, the girls decided to run a theatre night and a draw, both of which were extremely successful. It was very seldom that you could spy an Alpha Epsilon Phi without tickets of some kind clutched in her hand, and that supersaleswoman gleam in her eye.

On the social side, one of the more outstanding parties of the year was the Lower Slobbovian one. The decorations, refreshments and entertainment were strictly Al Capp, and for weeks afterwards the girls were talking about the "Big Potty what was being by us". Another of the happy features of the party was the fact that it was held in honour of Pat Adelman, whom we welcomed into our group last year. ♦

ALPHA

GAMMA

DELTA

TAU Chapter of Alpha Gamma Delta has enjoyed another wonderful year with many activities to its credit. At the invitation of the Beta's, we held an open-house together after the second Varsity-Western game, which was a tremendous success, if numbers are any indication.

At our Christmas party held in the fraternity house we entertained the Cerebral Palsy Adult Association, an organization which both the undergraduates and alumnae have been striving to help in every possible way.

The 1948-49 Convention is being held at Roanoke, Virginia and those who have made plans to go are looking forward to meeting Fraternity Sisters from all over the United States and Canada. ♦

ALPHA OMEGA ALPHA

ALPHA Omega Alpha is a non-secret, College Medical Honour Society, membership to which is based entirely upon scholarship, moral qualifications being satisfactory. Undergraduate members are chosen from the two final years of the medical course.

Organized at the College of Medicine of the University of Illinois, Chicago, August 25, 1902, by Wm. W. Root, it is the only order of its kind in medical schools on this continent.

The spirit of the society is set forth in its motto: "To be worthy to serve the suffering," and in a modern interpretation of the Hippocratic Oath. It is the duty of its members to promote its ideals, to foster the scientific and philosophical features of the medical profession, and to look beyond self to the welfare of the profession and public. It is also their duty to cultivate social mindedness as well as an individualistic attitude toward responsibilities; to show respect for colleagues, elders, and teachers; to foster research; and in all ways strive to enrich and ennoble the profession of Medicine. ♦

AS we bid good-bye to lectures, rugby week-ends and the campus which constituted a pleasant college year, we have equally happy memories of our sorority. Gamma Phis spent a very busy year entertaining their province director Mrs. Van Vleet, holding a luncheon for Mrs. Simonson, Grand President of the sorority, and welcoming the chapter from Western with an Open House. Many hours were occupied with preparations for the Fall Fair in aid of the children of Europe. Gamma Phis welcomed the Christmas Spirit by holding their annual party at the home of Peg Cowie, the president of Alpha Alpha Chapter. Miss Jean Dickenson was guest of honour at a tea held at the sorority house. The social season closed with the Gamma Phi formal which was given at the Old Mill. Those who are graduating this year will have happy memories and a few regrets that they cannot return to enjoy some more of the same. ♣

DELTA KAPPA EPSILON

UPON completing its very successful fiftieth year on the Toronto campus, Alpha Phi chapter of Delta Kappa Epsilon can look with pride on the achievements since the completion of post-war reorganization, and looks forward now to a second half-century of stable and useful functioning in University life. The chapter has reached what it considers an optimum strength of forty-two active members drawn from all years and many faculties of the University.

The fraternity boasted this year of remarkably successful teams in three sports—basketball, squash and hockey; it presented its usual fall and spring program of gay social functions including a week-end of Anniversary celebrations, tea dances, Parents' Tea, Christmas Party and Annual Formal Dance, and, as well, managed to maintain its creditable record scholastically. The Christmas Party for children of the University Settlement was repeated on a somewhat larger scale and again proved, we feel, a successful contribution to the welfare of the community. ♦

DELTA GAMMA

AT the Diamond Jubilee Convention, June 22 to June 28 at Swampscott, Massachusetts, Delta Gamma Fraternity honoured her past and pledged herself to an even greater future.

In reviewing the 1948-49 session Alpha Gamma Chapter takes great pride in the fact that so many of her members were active on the campus. Jean and Joan Irwin, Joanne Stoddart, Judy McErvel, Jill Crawford, and Nancy Cox took part in the U.C. Follies and Joan Rutter, Cynthia Dean, Adrienne Wheaton, and Peg McKelvey lent their support backstage. And one must not forget Mary Ritchie, Social Director of the W.U.A., who co-produced the Follies. Executives on the W.U.A. were Peg McKelvey, 4th Year President, Jane Ratz, Treasurer of the W.U.A., Cynthia Dean, Third Year Literary Director, and Pat Scott, Second Year Literary Director. Nancy Cox, Joan Aitken, and Joanne Stoddart, who is our College Representative for Mademoiselle, were on the *Undergrad* Staff. In the athletic spotlight were Zaira Murray, who was on the Intercollegiate Swimming Team and Betsy McFaul, Intercollegiate Ski Rep. and also member of the Intercollegiate Basketball Team. Unmentioned but no less important were the girls who lent their support to Interfaculty teams, various clubs on the campus, the W.U.A., and, in between times, to our successful annual Anchor Ball which was held at the Royal York Hotel. Yes it has been a wonderful year! ♦

DELTA TAU DELTA

THIS year has given rise to numerous occasions which will long be remembered by the Deltas of our Delta Theta Chapter. In recalling a few of them we can look back on the terrific football parties, in particular the homecoming weekend for all Delta Theta Deltas which was held on the triumphant weekend of Varsity's first defeat of Western. This weekend brought Deltas from all over the country to the shelter from which they went en masse to the game. After the game they returned to the shelter to celebrate. The next weekend brought another celebration to the Delt shelter for after the championship game we Deltas were happy hosts to the newly crowned champions, the Varsity Blues.

We will also remember the Christmas Party and the ten happy children from the Children's Aid whose Christmas we helped to make a little merrier. The sincerity with which these children said, "Thank you Santa" as they received their gifts from our Delt Santa Claus assured us that our efforts put into making this a successful party were not in vain.

We can only hope that those Deltas who graduate this year will continue to have as happy a time as we know they have had during their days at Varsity and at our Delta Theta Shelter. ❁

DELTA Upsilon is an international fraternity consisting of 68 chapters, four of which have been granted charters within the last six months. These chapters are located from coast to coast in both the United States and Canada.

Through good times and bad the fraternity has gradually grown as suitable groups on other campuses petitioned for a charter in this organization. The first residence of the Toronto Chapter was at 142 Bloor St., W. and in 1925 the Chapter moved to its present residence at 112 St. George Street.

At the present time there are 42 active brothers including 14 freshmen initiated this year. The brothers are representative of every faculty on the campus, and each brother is endeavouring to broaden his knowledge through fraternization with men from other faculties.

This year has been an active one. Many friendly parties were held during the football season. Christmas saw the revival of the custom of entertaining needy children at a Christmas dinner and party. The annual Formal Dance was most successful, with the brothers settling down to some serious studying immediately afterwards.

Many of the older brothers who returned to University after the war will be leaving this year, but new men are coming along to carry on the fine traditions and to uphold the name of Delta Upsilon on the Toronto Campus. ♣

KAPPA KAPPA GAMMA

SINCE variety is the spice of life, it is fitting that the spicy Kappas should have so many different interests. Our ski week-end at Limberlost was fun, in spite of several broken bones. The Kappa formal last spring was one of the events of the season for the Kappas and their friends.

In a more serious vein, but still enjoyable, was the filling of Christmas baskets for a large Negro family. Every Thursday four or five Kappas go to the Sick Children's Hospital where they play occupational games with the children for a few hours.

Among this year's initiates are Mary Atkinson, Mary Lish Aitkens, Elizabeth Stone and Margaret McGuiness. ♦

PI BETA PHI

HAVE you heard about the new interior *and* exterior decorators? Who? Why, Pi Beta Phi! Armed with paint brushes, ladders and paint pots, the Pi Phi's redecorated their hall, knocking down partitions, taking out fireplaces, painting the walls and the woodwork; and in spite of the mess on the floor, were able to have the place ready for a successful Open House on the day of the Varsity-Western game.

The Pi Beta Phi Fraternity, in 1910, decided to establish a memorial to its Founders and chose the living, altruistic project of a settlement school to meet the needs of some community in the Southern Appalachian Highlands, which Nature had shut off from outside contacts and support. A one-room school was built in Gatlinburg, Tennessee, in 1912, and has since grown until it has four hundred students, a full twelve-year course and seven teachers. The Gatlinburg people are both self-supporting and self-respecting. Pi Beta Phi has made both these possible through education and by fostering the revival of handicraft arts among the people; the products of their magnificent weaving are bought by our Alumnae Clubs and friends. Now, through the efforts of Pi Beta Phi, more than a hundred families of the Gatlinburg community are self supporting. ♦

MEMBERS returning to the House this year were pleasantly surprised to see that a complete renovation was in progress. The lawn has been improved, and with the addition of a rustic fence and new shrubbery, the old place seems quite presentable. The interior has been redecorated, at a fabulous price, à la mode moderne.

The fraternity had its usual brilliant social season. The coronation of the "Sweet-heart of Lambda Chi Alpha", an annual festival, added to the general excitement following this year's first Varsity victory against the Western Mustangs. Many alumni, members, and friends attended the Christmas Party, held at 152 St. George, the house being jammed to capacity, especially the newly-constructed "Buttery"!♠

NU

SIGMA

NU

ONCE again we find Nu Sigma Nu medical fraternity representing an integral part of university fraternity life. Year after year, the members try to maintain the ideals of honesty, scholarship and brotherly love which have been the mainstay in the history of this chapter. Members and pledges have demonstrated the willingness to industry and the compulsion to help others which is so significant and essential in the moulding of future medical doctors, to which this brotherhood is dedicated.

On the surface, very little change is seen in the chapter this year except for some new faces present and some familiar ones gone. Rushing was extremely successful last fall, giving us fifteen new pledges most of whom are first premedical freshmen who show much ambition and versatility. The members look forward to the initiation of these neophytes with mixed emotions.

Fraternity activity has been extensive throughout the past school session with an exhaustive initiation, football celebrations, Christmas parties and many informal house parties; all of which have helped to stimulate friendship. Graduate interest was augmented by our annual formal dance and fraternity banquet. The real import of professional brotherhood has often been visualized in the undying interest of our graduates in the conduct, scholarship and welfare of the undergraduates. May it continue to be so. ♣

THE highlight of the 1948-49 year at Pi Lambda Phi's Kappa Chapter—and one of the outstanding events since the chapter's inception—was the visit of the Hon. Lawrence H. Steinhardt, U.S. Ambassador to Canada, and Supreme REX of the fraternity. Mr. Steinhardt attended a dinner at the Royal York Hotel, January 15, which was tendered in his honor by the Toronto "Pi Lam" alumni. Present were brothers, active and alumni, from Toronto, Detroit, New York, and other centers having chapters. Coupled with the appearance of the distinguished statesman, the large turnout of members made the occasion an extremely memorable one. Under the press of his public duties, Mr. Steinhardt has nevertheless devoted invaluable service to his fraternity, and in both fields has proved himself to be one of the leading citizens of our times.

Sixteen students were pledged into the fraternity this year, bringing the active strength of Kappa Chapter to over fifty. The pledge show this year featured some promising talent which was put to highly entertaining use in subsequent fraternity programs, several of which were staged during the winter season.

The social aspects of the fraternity year were successful. They included athletic nights, informal parties at the Chapter House, cultural evenings during which prominent speakers or recorded concerts were heard, and of course the chief social endeavour of the Pi Lam year, the Charity Ball, held this year in February at the King Edward Hotel. This last event yielded gratifying proceeds for charitable

purposes, thanks to the work of the Dance Committee, and the interest shown in this annual affair by members of other local fraternities.

This year, Pi Lam is extending a concentrated effort to improve its house at 115 St. George Street. Much has been done already in this regard since the house was acquired for the chapter several years ago. However, the program of improvement and maintenance is continuing with great enthusiasm being shown by the active brothers and the local alumni. The house has become increasingly a center of fraternity activity, and accompanying this activity has been an increased interest and pride in the quarters of Kappa Chapter.

And while J. Arthur Rank was busy establishing his "Odeons" in Toronto during the past year, Pi Lambda Phi was busy trying to tear down its "Odious" at 115 St. George. Cause of this condition was the pledge mascot, "Petunia," a highly "scent-sitive" skunk who remained on the premises until it became apparent that either the skunk, or the house residents, would have to vacate. In this case, man exercised his superior prerogative, and "Petunia" found other owners.

All in all, from the visit of the Hon. Mr. Steinhardt, to the pledgeship, to the Charity Ball, and right down to "Petunia," Canada Kappa Chapter of Pi Lambda Phi could record a good full year of fraternal activity. ♦

SIGMA CHI

SIGMA Chi has had a Chapter at this university since 1922; it is one of four chapters in Canada—and will shortly be one of five. The spirit of true friendship which forms the basis of the ideals of Sigma Chi is as alive today at 95 St. George as it was twenty-seven years ago, linking present members to those past, and us to those who are to come. A spirit of friendship that we can use as a basis for worthy action in every sphere and activity, both here on the campus and throughout life, is exhibited by all the brothers. And it is in this spirit that Sigma Chi stages its various occasions . . . outstanding this year was the Christmas party, when, as in previous years, we entertained a number of under-privileged children—the party being complete with dinner, Father Christmas, and presents. Hallowe'en Night saw another big event at the Sig House, when all was L'il Abner style, and the house became a little bit of Dogpatch. But parties are not the important thing, though they do contribute to a full university life . . . there is the usual busy college routine, the Sigma Chi hockey team, and, to keep us in touch with trends in modern thought, the Literary meetings. These are but a few of the fraternity interests.

So Sigma Chi looks back on a successful and happy year; and in looking forward to the one coming extends friendly greetings to all, and particularly to those Sigs who are leaving the Chapter and our worthy Alumni. ♣

PHI CHI

THROUGH the years, Phi Chis have sought to live up to their ideals—to provide a spirit of fellowship, to promote medical scholarship, and to contribute to university life. The scholastic efforts of our members and alumni show that Phi Chis are living up to the high standards of their profession. The presence of Phi Chis on the Medical Society Executive and in other responsible posts, attests to the fact that the fraternity's members have been active in campus life.

We have seen another successful year come and go and with it we say good-bye to a fine graduating class. To each of them we wish the best. We know that they will maintain the fine traditions of Phi Chi everywhere. ♣

LARGE MOB SCENE—THE "FIJILAND CANNIBALS" IN FRONT OF 123 ST. GEORGE ST. THE DANCE WAS HELD AT THE HIGH PARK CLUB.

OCCASION—THE GRASS SKIRT PARTY.

SIXTEEN freshmen were initiated to Tau Kappa chapter of Phi Gamma Delta this year, making the total number of active members fifty-two.

The fall term was highlighted by the now famous Fiji Grass Skirt Party. It was the third such party, and the idea is so popular that it is firmly entrenched as a yearly affair. After the cannibals gathered at 123 St. George St., they swept down on the High Park Club, roasted the manager in a large kettle and feasted late into the night.

Soon after this effort the annual Pig Dinner was held at the Royal York Hotel where graduates and undergraduates dined on roast pig.

The fraternity formal dance was held at the Toronto Hunt Club on February 24th to polish off a highly successful social year.

Fijis were well represented in hockey, basketball, skiing and lacrosse. In both social affairs and athletics, it was a fine year. ♦

PHI DELTA THETA

Phi Delta Theta was founded at Miami University in 1848, and has grown to its present strength of 105 Active Chapters in the fraternity. Ontario Alpha, the Chapter at Toronto, was founded in 1906 and carries the spirit of the fraternity in the mutual pledge of all Phis "All for one; and one for all".

This year sixteen pledges were initiated into Phi Delta Theta, the largest freshman class in the history of Ontario Alpha. Members of the fraternity are drawn from all faculties, and the aim of all Phis is to balance scholastic, social, and athletic aspects of University life.

Social activities include rugby tea dances, the initiation banquet and formal dance, founder's day banquet, Christmas dinner and party, exchange "house-at-house" parties with several women's fraternities, a dance with our sister fraternity the "Alpha Gams," and many other informal get-togethers.

The keen interest of the new brothers promises a wonderful year for Phi Delta Theta. ♣

PHI-KAPPA-PI

SIGMA-PI-CHAPTER

AS a part of Canada's largest campus, Phi Kappa Pi's Sigma Pi Chapter occupies a special place in the Fraternal picture. This is because the Fraternity, formed in 1913, is the first and largest Canadian Fraternity. Sigma Pi is particularly proud of the fact that it was a group of University of Toronto students who first conceived the notion of a purely Canadian body, national in scope. They found a like-minded group on the McGill Campus and that was the beginning of a friendly and co-operative brotherhood, now represented on campi across the nation. Chapter houses at Dalhousie, McGill, Toronto, Manitoba, Alberta and The University of British Columbia form the strong bond from east to west.

Like other groups on the Campus, the Phi Kaps at Toronto faced reorganization problems at the end of the war. The Chapter feels that it has licked most of these and others are disappearing in the face of good humour and hard work advanced by its forty Actives. The Fraternity's policy of opening its doors to students from all faculties including Osgoode Hall, has always given its members a broad view of the University. A well rounded program of educational and social activities presents an opportunity to all brothers for gaining fullest advantage from their University life.

To the graduating brothers, the Fraternity extends its sincere thanks for the individual and co-operative efforts that have enabled the Chapter to retain and benefit from the traditions of Phi Kappa Pi. With this expression of genuine gratitude go the Actives' promises to continue in the examples set by the graduates.

It is the hope of all that the graduating brothers will continue to support the aims of the Fraternity, and of the University, thus benefitting their country and themselves.♣

PHI KAPPA SIGMA

WITH a full active membership of thirty-five, the Phi Kaps put in one of the most successful years in their history.

Scholastically, Phi Kaps have two brothers who received scholarships, one in Law and the other in Engineering.

In keeping with the Phi Kap tradition, there was a very full social season. Highlights were the rugby dances, the Christmas and New Year's Eve parties, and the Inter-Fraternity Formal at the Brant Inn. The season was completed with the fraternity formal, this year held at the King Edward Hotel.

Athletically, Phi Kaps performed very well. The basketball team managed to reach the finals, in inter-fraternity competition. The hockey team was not quite so successful.

With few Phi Kaps in their graduating year, we are looking forward to another successful year. ❖

SCHOOL SPIRIT

THIS YEAR IT SPREAD LIKE THE PLAGUE

FOR the first time since before the war, the students at Varsity have taken that nebulous term, "School Spirit", and given it real meaning. There were still a few reactionaries who insisted on giving a "Toikety Oike", or a "Rah, Rah, Victoria" at the Intercollegiate Football games; but their hearts really weren't in it. They were ignored by the others, who spent their time "paraphrasing" dear old Western's school song, and singing *The Blue and White* with all their hearts. Foresters sat next to Trinity types, and spelled out "U.T." by twiddling blue and white placards prepared by Skulemen. Even in the rain, the Pep Rallies had a better turnout than Bank Night. Every faculty contributed to the success of the Homecoming Weekend. The Roam-Around dances were jam-packed. Our antics had the visitors from other colleges gaping.

This silly, wonderful rah-rah spirit didn't end with the Football season; it reappeared again and again, on the slightest excuses, throughout the year. The Intercollegiate Basketball and Hockey teams played to capacity audiences. The All Varsity Revue featured performers from all parts of the campus, and it was a sellout. The Annual Chariot Race for the Championship of the World drew entries from courses that most of us had never heard of, and drew a bigger crowd than the English Professor in First Year Pass.

It took organization, and plenty of it, to give expression to all this latent energy. The S.A.C. formed the Blue and White Society in '48 to do just that. All the campus groups were represented on the Society, and literally hundreds of students worked their hearts out, for love, to put the plans into action. The response from the rest of the student body was reward enough for them. ♣

THE BAND AND THE CHEERLEADERS

... and Margie

WHO SAID FOOTBALL IS A SPECTATOR SPORT?

At Varsity, it's like Bingo.

The Conductor (top right) said, and we quote, "If this is an education,—." What we can't quote was.

One Varsity student (top left) was ready to give his all to save the goal posts in the after-game scrimmage. In spite of his valiant effort, the posts came down, and (bottom right) this little pig didn't want to stay home, so he scooted right back to his friends in the Queen's cheering section.

Bev Johnson and Ted Andrews began sprouting long hairy ears shortly after the picture at the left was taken.

Torontonensis was paid for by the sale of umbrellas at the Pep Rallies.

At one Friday night Pep Rally, Godiva rode around fully clothed, on her trusty rubber-booted charger.

Is this the same band that paraded at half time?

BISHOP STEPHEN NEILL

EVERY year the students of the University play host to many very interesting people.

The various clubs and organizations on the campus have made a practice of inviting men and women who are famous or unique in their own field to come and deliver an address to the student body. Others come for different reasons—to autograph a book, to give a performance, to judge a student salon, or simply to visit. Almost without exception, they have stimulated widespread interest among the students, and have been enthusiastically welcomed.

Bishop Stephen Neill, Assistant to the Archbishop of Canterbury, came to the University for a week in January as Chief Missioner for the University Christian Mission. Bishop Neill is a member of the executive of the World Council of Churches which met in Amsterdam last summer. He has conducted missions similar to the one held on this campus at various universities in England. Capacity audiences filled Convocation Hall for each of the Bishop's talks during U.C.M. Week.

Morley Callaghan came to the campus at the end of September to autograph copies of *The Varsity Story*. A graduate of St. Michael's College and Osgoode Hall, he is now one of Canada's leading authors. *The Varsity Story* is his interpretation of the University in the national scene. He was accompanied by Eric Aldwinkle, who

VISITORS TO THE TORONTO CAMPUS

illustrated the book. Mr. Aldwinkle, a native of England, has been doing freelance work in Canada for the last twenty years. The murals on the walls of Sunnybrook Hospital are his. By a free use of perspective he has caught the University atmosphere in his sketches for *The Varsity Story*.

The Very Reverend Hewlett Johnson Dean of Canterbury, stopped off in Toronto in the middle of November while on a speaking tour of Canada and the United States. One of the most colourful of all Church of England clerics and the author of many books, Dr. Johnson has participated in many movements for a "people's peace", and has recently completed a six-month visit to Russia and Eastern Europe. Dr. Johnson's visit to the campus was sponsored by the Humanist Club, the U.C. Lit., the U.C. Undergraduate Association, The Student Christian Movement and the Canterbury Club. Some difficulty was encountered in securing a hall in which Dr. Johnson

MORLEY CALLAGHAN (right) autographing copies of *The Varsity Story* at the University book store.

could speak; but Strachan Hall at Trinity College was finally obtained, and Dr. Johnson spoke to an audience of about 1400 students, 800 of whom had to hear from loudspeakers placed outside in the Trinity quadrangle.

Frank Lloyd Wright, "The Dean of Modern Architecture", spoke at Hart House in November under the sponsorship of the Architectural Society. He was well received by a large audience of students and professors. In his address, which he entitled "As a nation builds, so that nation is", he exercised his prerogatives as a "Dean" and spoke brilliantly, with dogmatic conviction.

Karsh of Ottawa, the man who has become famous as a photographer of the world's great, came to Hart House in February to judge and comment upon the annual Salon of Photography. His choice of winning prints caused a flurry of controversy among the members of the Hart House Camera club. He showed a preference for originality and human interest rather than for pictorial beauty. ♦

1) YOUSUF KARSH VISITED THE CAMPUS IN FEBRUARY TO JUDGE THE ANNUAL EXHIBITION OF PHOTOGRAPHS IN HART HOUSE. HERE HE IS SHOWN PRESENTING THE JUNIOR AWARD TO WINNER MORRIS RESNICK, WHILE MR. BLACKHALL, WINNER OF THE COVENTRY AWARD (SENIOR), LOOKS ON.

2) KATE ROBERTSON, HESTER GOODENOUGH, AND NAN JONES ATTENDED U. OF T. THIS YEAR. THEY ARE EXCHANGE STUDENTS FROM SMITH COLLEGE.

SERVING the COMMUNITY

For well over half a century the name NORTHERN ELECTRIC has stood for service to the Canadian community everywhere from coast to coast. Many and varied are the particular branches of that service, which concerns all things electrical for home, industry and trade. The manufacture and distribution of telephone equipment—wire and cable—electronic devices—power apparatus—appliances—illumination equipment—industrial heating products . . . these are but a few of Northern's diversified activities.

INDUSTRY AND EDUCATION

In the course of developing and manufacturing its many products, Westinghouse assembles a wealth of electrical engineering data of value to students and instructors engaged in electrical studies.

Through the Westinghouse School Service Department practical, up-to-date booklets and pamphlets are distributed frequently to scores of Canadian libraries. Universities, technical schools and libraries are advised of new engineering data available for instruction and reference purposes.

Film showings on educational and industrial subjects are arranged in schools and universities. In addition, many hundreds of requests for information from students and teachers are carefully attended to by the Westinghouse School Service Department.

For information relating to your electrical studies you are invited to write: School Service Department, Canadian Westinghouse Company, Limited, Hamilton, Ontario.

The type used in this book was set entirely on the Monotype in the following faces: the Biographies, six point Binny 21E; the Deans' Messages, ten point Goudy Bold; other articles and the captions in Goudy Bold and Garamont Light in various sizes. Bodoni Medium, Bookman Old Style, and Garamont Light were used for the titling. Garamont Light ornaments, special characters, and folios were used throughout the book.

YOU CAN'T GET TOO FAR AWAY for SIMPSON'S SHOPPING SERVICE

Some of our favorite customers live half way 'round the globe but near or far they're well within reach of Simpson's seven league boots. From places as far away as China or the Belgian Congo their letters come to the Shopping Service and it's a pleasure for us to help these world-wide friends do their shopping quickly and efficiently.

At home in Canada the Shopping Service serves customers from coast to coast . . . who write directly or to one of Simpson's 179 Order Offices and Agencies . . . answering inquiries or shopping for items not advertised.

Suburban and out-of-town customers write to the Shopping Service or telephone their nearest Order Office to inquire about or order any type of store merchandise including all items advertised for out-of-town selling. We mean it when we say, wherever you live . . . You'll Enjoy Shopping At Simpson's.

THE BLUE AND WHITE.

Words by Rev. CLARIS EDWIN SILCOX, '08.

Music by CLAYTON E. BUSH,
Arr. by J. D. A. Tripp.

1 Old To - ron - to, moth - er ev - er dear, All thy sons thy ve - ry name re -

vere Yes, we hail thee, Ne'er will fail thee But will seek thy glo - ry with our might, Yes

we are) Ev - er loy - al, faith - ful, frank and strong, We will sound thy prais - es in our

song, Aye, and cheer both loud and long, The Roy - al Blue and White.

CHORUS.

To - ron - to is our Un - i - ver - si - ty Shout, oh shout, men of ev - 'ry fac - ul - ty Ve - lut

ar - bor ae - vo, May she ev - er thrive O God for - ev - er bless our Al - ma Ma - ter.

2. Soon our col-lege days will all be past, Du-ty bids us part from friends at
last But we'll se-ver, Trust-ing ev-er Love for 'Var-si-ty may us u-nite"(u-

nite us) Then we'll serve the moth-er of us all, And the mer-ry days of youth re-
call, While, what-ev-er may be-fall, We'll flaunt the Blue and White.

CHORUS.

To-ron-to is our Un-i-ver-si-ty Shout, oh shout, men of ev-ry fac-ul-ty re-lu-

ar-dor ae-vo, May she ev-er thrive O God for-ev-er bless our Al-ma Ma-ter.
